Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Yes, Public Law 113-183, the "Preventing Sex Trafficking and Strengthening Families Act" (9/2014).

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

This rule has been amended as a requirement of Federal Law and does not exceed any Federal requirements.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

The purpose for the rule is to outline for both public children services agencies (PCSAs) and private child placing agencies (PCPAs) the steps to determine the necessity of continued substitute care placement for each child. ### **Development of the Regulation**

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

The proposed changes to this rule were open for a pre-clearance comment period for 30 days; and a two week clearance comment period from May 11, 2015 to May 25, 2015.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

Montgomery Co. submitted comments and the Department clarified the intent of the federal requirement.

Franklin Co. submitted comments and the Department added language in the rule to document any significant safety concerns that prohibit the youth from attending any hearing.

Public Children Services Association of Ohio submitted an inquiry regarding children younger than age sixteen currently in a PPLA status. The agency provided a response that the federal mandate does not allow any flexibility to the age of children placed in a PPLA. If there are children younger than sixteen in a PPLA, upon the effective date of this rule, any child younger than sixteen must be removed from this dispositional status.

Summit Co. submitted comments and the basis of the inquiry was to clarify which hearings were being referred to in the rule. The Department provided a response clarifying which hearings are necessary to be in attendance and what documentation is required regarding the outcome.

- 9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?
  Not applicable.
- 10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

No other alternatives were considered. The amended rule is being revised to strictly adhere to federal mandate in Public Law 113-183.

11. Did the Agency specifically consider a performance-based regulation? Please explain. Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.

- ODJFS did not consider a performance based initiative. The changes to the amended rule strictly adhere to federal mandate in Public Law 113-183.
- 12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?
  - JFS Legal staff and rule developers diligently review rules to assure there is no duplication of an existing Ohio regulation.
- 13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

The rule does not prescribe anything that would not be applied consistently. ODJFS licensing specialists review the agencies to ensure the regulations are applied consistently and staff offer technical assistance in areas of inconsistency.
