The Common-Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent**1. Please briefly describe the regulations in plain language.**

Please include the key provisions of the regulation as well as any proposed amendments.

OVERVIEW

The Ohio Department of Medicaid (ODM) proposes to incrementally adopt one chapter of rules ([Chapter 5160-44](#)) that will become the single set of service standards for providers serving individuals through all Medicaid waiver programs operated by the Ohio Department of Aging (ODA) and ODM. This is part of ODM's larger strategy to develop a uniform set of rules to benefit providers who serve individuals enrolled in multiple Medicaid waiver programs.

To this end, ODM proposes to adopt new service standards for the following three services: home maintenance and chores (5160-44-12), community integration (5160-44-14), and community transition (5160-44-26). In kind, ODA proposes for its rules on ODA-certified providers of those services to require compliance with ODM's service standards instead of continuing to state the standards in ODA's rules.

RULE-BY-RULE

173-39-02.3 Pest Control → Home Maintenance and Chores

The current rule, which ODA proposes to rescind, requires ODA-certified providers of pest control to comply with the following:

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIOhio@governor.ohio.gov

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of pest control (e.g., estimates, service verification), which ODA established in this rule.

ODA proposes for pest control to be reclassified as part of "home maintenance and chores" in 173-39-02.5; therefore, there is no reason for ODA to adopt a new version of 173-39-02.3 once pest control is part of "home maintenance and chores."

173-39-02.5 Chore Services → Home Maintenance and Chores

The current rule, which ODA proposes to rescind, requires ODA-certified providers of chore services to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of chore services (e.g., estimates, service verification), which ODA established in this rule.

ODA proposes to reclassify "pest control" (from 173-39-02.3), "chore services," "home maintenance" (from 173-39-02.9), and "home home repair" (also from 173-39-02.9) as "home maintenance and chores" under a proposed new version of 173-39-02.5.

ODA's proposed new version of 173-39-02.5 will require ODA-certified providers of home maintenance and chores to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of home maintenance and chores (e.g., fixed-cost proposals, service verification), which ODM will establish in their proposed new 5160-44-12. For more information on ODM's proposed new rule, please review ODM's rule and its BIA.

173-39-02.9 Minor Home Maintenance, Modification, and Repair → (1) Home Maintenance and Chores and (2) Home Modification

The current rule, which ODA proposes to rescind, requires ODA-certified providers of minor home maintenance, modification, and repair to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of home modification (e.g., fixed-cost proposals, permits), which ODM established in 5160-44-13.
- Specific requirements for ODA-certified providers of home maintenance and home repair (e.g., estimates, permits), which ODA established in this rule.

ODA proposes for to reclassify "home maintenance" and "home repair" as "home "home maintenance and chores" (in 173-39-02.5), leaving 173-39-02.9 to only regulate ODA-certified providers of home modification.

ODA's proposed new rule will require ODA-certified providers of home modification to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of home modification (e.g., fixed-cost proposals, permits), which ODM established in 5160-44-13.

173-39-02.15 Independent Living Assistance (ILA) → Community Integration

The current rule, which ODA proposes to rescind, requires ODA-certified providers of ILA to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of ILA (e.g., service verification), which ODA established in this rule.

ODA proposes to reclassify "ILA" as "community integration" under a proposed new version of 173-39-02.15.

ODA's proposed new version of 173-39-02.15 will require ODA-certified providers of community integration to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of community integration (e.g., training plans, service verification), which ODM will establish in their proposed new 5160-44-14. For more information on ODM's proposed new rule, please review ODM's rule and its BIA.

173-39-02.17 Community Transition

The current rule, which ODA proposes to rescind, requires ODA-certified providers of community transition services to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of community transition services (e.g., service verification), which ODA established in this rule.

ODA proposes to adopt a new version of 173-39-02.5, which will require ODA-certified providers of community transition to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of community transition (e.g., service verification), which ODM will establish in their proposed new 5160-44-26. For more information on ODM's proposed new rule, please review ODM's rule and its BIA.

2. Please list the Ohio statutes authorizing the Agency to adopt these regulations.

R.C. §§ [173.01](#), [173.02](#), [173.391](#), [173.52](#), and [173.522](#). For 173-39-02.17, §§ [173.54](#) and [173.543](#) also apply.

3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

If yes, please briefly explain the source and substance of the federal requirement.

In order for the Centers for Medicare and Medicaid Services (CMS) to approve Ohio's application for a Medicaid waiver authorizing the State to launch and maintain the PASSPORT Program, 42 CFR 441.352 requires ODA to assure CMS in the waiver application that ODA established adequate requirements for providers (i.e., adopted these rules) and that ODA monitors the providers to assure they comply with those requirements (i.e., comply with these rules).

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

The rules exist to comply with the state laws mentioned in ODA's response to #2, which require ODA to establish the standards for ODA-certified providers.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

These rules ensure necessary safeguards are in place to protect the health and safety of individuals receiving services from ODA-certified providers.

6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

ODA and its designees monitor providers to ensure compliance for the continued health and safety of individuals receiving services from ODA-certified providers. The rules are judged as being successful when ODA and its designees find few violations from structural compliance reviews or investigations of alleged incidents.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

Since May 2013, ODM has been convening its HCBS¹ Rules Workgroup. ODM invites approximately 900 stakeholders, which includes providers and provider associations, to participate in person or by conference call. In the workgroup's meetings, ODA and ODM solicit stakeholder input on rule proposals.

The rules specific to home maintenance and chores, community integration, and community transition were reviewed at the January 23, 2019 workgroup meeting. Aside from ODA and ODM, the following stakeholders participated:

- Kim King for Home Care Network.
- Lisa Bryant for CHI Health at Home.
- Andrea Gogel and Christy Greco for CareSource.
- Jean Thompson for Ohio Assisted Living Assn.
- Dr. Bashiel H. Smith and Antionette Korvah for Dreamers Home Health Care.
- Beth Foster and Kathy Royer for Ohio Council for Home Care and Hospice.
- Diane Kumarich for Addus Homecare.
- Debbie Jenkins for Ohio Health Care Assn.
- Chelsea Herdman for Area Agency on Aging, PSA2
- Kim Kelly.
- Robin Lahmers for Area Agency on Aging, Region 9.
- Maria Matzik for Access Center for Independent Living.
- Kathryn Shelley for Ability Center.
- Amy Smith for Life Safe Security.
- Katelyn Smith for Molina Health Care.
- Heidi Goodman for PurFoods (Mom's Meals).
- Amelia Tucciarone for SourcePoint.
- Debra Studer for Interim Health.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

No stakeholder participating in the January 23, 2019 meeting expressed concern over this rule project. For more information, please review ODM's BIA for rules 5160-44-12, 5160-44-14, and 5160-44-26, which ODM entitled, "Home and community-based service waiver alignment: Phase 2." (Attached)

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

ODA obtained data on the volume of providers and the amounts providers charge the PASSPORT Program from its databases. Find them in ODA's response to #14 of this BIA.

¹ "HCBS" means home and community-based services.

10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

R.C. §173.391 requires ODA to adopt rules to establish requirements for ODA-certified providers. Additionally, federal rules require ODA to establish adequate requirements for providers to assure the health and safety of individuals enrolled in ODA-administered Medicaid waiver programs.

11. Did the Agency specifically consider a performance-based regulation? Please explain. *Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

ODA did not consider performance-based regulations when considering whether to amend these rules.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

Rules for ODA's and ODM's Medicaid waiver programs are promulgated by both agencies and implemented by both agencies, their designees, and providers, as appropriate. Interagency legal and legislative staff review both agencies' rules to ensure there is no duplication. The HCBS waiver alignment initiative will further ensure the rules on providers are not duplicative.

13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

Before the proposed new rules take effect, ODA will post them on ODA's website. ODA will also send an email to subscribers of our rule-notification service to feature the rule.

Through its regular monitoring activities, ODA and its designees will monitor providers for compliance.

Adverse Impact to Business

14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:

a. Identify the scope of the impacted business community;

The tables below show the number of ODA-certified providers billing for services provided in 2018 in each of the two ODA-administered Medicaid-waiver programs.

PASSPORT PROGRAM	
2018	
SERVICE	# OF CERTIFIED PROVIDERS
Chores	39
Minor Home Maintenance, Modification, and Repair	166
Independent Living Assistance: In-Person	29
Independent Living Assistance: Travel	5
Independent Living Assistance: Phone	7
Community Transition	1

ASSISTED LIVING PROGRAM	
2018	
SERVICE	# OF CERTIFIED PROVIDERS

b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and

The adverse impact of ODA's proposed new rules is the requirement to comply with other rules. These rules will require ODA-certified providers to comply with the following:

- General requirements for ODA-certified providers (e.g., background checks, records retention), which ODA established in 173-39-02.
- Specific requirements for ODA-certified providers of home maintenance and chores (e.g., fixed-cost proposals, obtaining permits and inspections) which ODM will establish in their proposed new rule 5160-44-12.
- Specific requirements for ODA-certified providers of community integration (e.g., training plans, service verification), which ODM will establish in their proposed new rule 5160-44-14, and
- Specific requirements for ODA-certified providers of community transition (e.g., service verification), which ODM will establish in their proposed new rule 5160-44-26.

c. Quantify the expected adverse impact from the regulation.

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a "representative business." Please include the source for your information/estimated impact.

The amount ODA pays providers for services is an all-inclusive rate. It's intended to cover the daily costs incurred in service provision plus costs related to the employees, such as orientation and training. The costs incurred as a result of these rules are likely calculated as part of a provider's operational budgets (the cost of doing business and clerical jobs, such as retaining records and updating policies).

Providers set the prices they bill to the PASSPORT Program, so long as those prices do not exceed the maximum allowed per unit. In the appendices to 5160-1-06.1 and 5160-1-06.5,² ODM establishes the maximum-possible payment of Medicaid funds for each service offered in the PASSPORT and Assisted Living Programs. The table below compares the average price billed to the program to the maximum allowed.

2018				
SERVICE	UNIT DURATION	UNITS PAID	AVERAGE BILLED PER UNIT	MAXIMUM ODM ALLOWS PER UNIT
Pest Control	1 job	1,475	\$379.88	\$783.74
Chores	1 job	674	\$520.93	\$2,612.47
Minor Home Maintenance, Modification, and Repair	1 job	2,127	\$27.69	\$10,000
Independent Living Assistance	15-min. unit of in-person	4,731	\$2.67	\$5.22
	15-min. unit of travel attendance	2,217	\$2.20	\$5.22
	1 phone call	611	\$2.77	\$5.22
Community Transition (PASSPORT Program)	1 job	2	\$500.00	\$1,477.50 ³

² See *Waiver Alignment Phase II: ODA-operated waivers* (attached) for information on ODM's proposed amendments to 5160-1-06.1 and 5160-1-06.5.

³ ODM is simultaneously proposing to increase the maximum-allowable rate to \$2,000. See *Waiver Alignment Phase II: ODA-operated waivers* (attached).

Community Transition (Assisted Living Program)	1 job	240	\$690.83	\$1,477.60 ⁴
---	-------	-----	----------	-------------------------

Because providers on average bill less than the maximum-possible rate, the adverse impacts of the current rules are being covered by the amount providers are currently being paid by the PASSPORT and Assisted Living Programs.

ODM is proposing to establish new rates for the services in the appendices to 5160-1-06.1 and 5160-1-06.5 which take into consideration the providers' certification requirements and cost of doing business. For more information on ODM's proposed new rules, please review ODM's BIA(s) for rules 5160-44-12, 5160-44-14, and 5160-44-26.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

ODA is required to develop rules establishing requirements for ODA-certified providers and to ensure the health and safety of individuals enrolled in ODA-administered waiver programs.

Providers voluntarily apply for ODA certification. Certification is not required to engage in providing a service unless a provider wants paid for providing that service by a program, such as the PASSPORT Program or Assisted Living Program, for which R.C. §173.391 requires providers to be certified. Therefore, compliance with these regulations is only required if a provider voluntarily chooses to participate in an ODA-administered waiver program.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

Because the primary purpose of these rules is to ensure the health and safety of individuals enrolled in ODA-administered waiver programs, the rules treat all providers the same, regardless of their size.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

ODA is concerned primarily about protecting the health and safety of individuals receiving services from ODA-certified providers through compliance with these rules. Whenever possible, ODA or its designees will treat administrative violations that do not involve health and safety as opportunities for improvement through warning notices and solicitation of corrective action.

18. What resources are available to assist small businesses with compliance of the regulation?

ODA and its designees are available to help providers of all sizes with their questions. Any person may contact [Tom Simmons](#), ODA's policy development manager, with questions about the rules.

Additionally, ODA maintains an [online rules library](#) to help providers find rules regulating them. Providers may access the online library 24 hours per day, 365 days per year.
