Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Reason for Submission

1. R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.

Which adverse impact(s) to businesses has the agency determined the rule(s) create?

The rule(s):

- a. ☒ Requires a license, permit, or any other prior authorization to engage in or operate a line of business.
- b. ☒ Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.
- c. ☒ Requires specific expenditures or the report of information as a condition of compliance.
- d. ☐ Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.

Regulatory Intent

2. Please describe in plain language the regulation that is being rescinded.

4755-1-01, 4755-21-01, 4755-40-01, 4755-61-01	Notice of meetings	These nearly identical rules for all OTPTAT Board sections detail how a person can receive notice of OTPTAT Board meetings in accordance with the sunshine law.

4755-64-01	Ethical and professional conduct	This rule is the code of ethics for orthotics, prosthetics, and pedorthics.
4755-64-02	Proper use of credentials	This rule details how a credential may be used and how documentation may be signed.

3. Why is the regulation being rescinded?

Please be specific (ORC change, request of stakeholders, etc.)

1. The Board is going through an overhaul of its rules. Because the board is structured in four separate sections for governance purposes (OT, PT, AT, OPP), over time duplicative rules were developed. Most of these rules are nearly identical in order to promote uniform processes for efficiency purposes. The Board has decided to combine these rules which are often repeated four times. This will result in a very large reduction in rules, going from 169 total rules to 86.
2. Some of these rules are also up for five-year rule review and are being rescinded and renumbered as a result.

4. Please describe in general terms the adverse impacts to business, including currently impacted industries, in the existing rule(s).

The Ohio Revised Code requires occupational therapists, occupational therapy assistants, physical therapists, physical therapist assistants, athletic trainers, orthotists, prosthetists, and pedorthists to be licensed. There are educational and examination requirements for each profession to meet the minimum qualifications, and corresponding costs to that effort. Cost for an initial license is \$100, plus the cost of the FBI/BCI background check. All of these costs impact the workforce for potential employers providing these healthcare services.

5. Are there other regulations (either existing or to be created) which will replace the regulation being rescinded or which will now apply because this regulation is being rescinded? This can include rules, statute, federal regulations, agency policies, or industry standards etc.

Yes. New rules will replace the rescinded ones.

6. Does the rescission of this regulation eliminate flexibility or create more adverse impacts for stakeholders? If yes, please describe stakeholder outreach and justify the impacts.

No major regulatory process changes are contemplated with these rescissions and overall rule rewrite.
