The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Development of the Regulation

9. **Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.**

If applicable, please include the date and medium by which the stakeholders were initially contacted.

Boys Hope, Girls Hope led the effort to propose statute language that was in HB 33 of the 135th General Assembly.

The rule went through the public clearance on August 2, 2023 through August 16, 2023. There were no comments provided.

10. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

A meeting was held with Boy Hope, Girls Hope and ODJFS on June 28th to provide Boys Hope, Girls Hope representatives the opportunity to provide input on rule language. The proposed rule was sent to those representatives prior to clearance to provide the opportunity for further review and input. As a result, minor changes in the structure of the rule but nothing substantively was altered.

11. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

No scientific data was used to develop the rules.

12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?
Alternative regulations may include performance-based regulations, which define the required outcome, but do not dictate the process the regulated stakeholders must use to comply.

No alternative regulations were considered for rules 5101:2-5-03, 5101:2-5-18, 5101:2-9-42 as the rules are driven by statute.

13. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

There is no duplication as the rules are specific to residential facilities and no other rule addresses these specific issues. The rules were reviewed by the legal staff at ODJFS prior to the clearance process to ensure it did not duplicate any existing Ohio regulations.

14. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

ODJFS licensing specialists review the agencies to ensure the regulations are applied consistently and they offer technical assistance in areas of inconsistency.

CSIPublicComments@governor.ohio.gov

a. Identify the scope of the impacted business community, and

The impacted business community is one agency with two sites in the state of Ohio.

b. Quantify and identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance, etc.).

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a representative business. Please include the source for your information/estimated impact.

Each agency operates differently, with differing numbers of providers to be certified, and varying numbers of employees available to conduct the requirements of provider certification and re-certification, and the exact cost impact can vary greatly based upon individual business structure. The adverse impact would vary based upon staffing and time spent adhering to rule regulations and reporting the information necessary for rule compliance, employee time involved in compliance with the day-to-day activities and requirements of operating a residential facility. The estimated time for compliance may be as an example if the agency has 10 employees would be responsible for approximately 8 hours per month at a rate of \$23.13 per hour. The estimated cost is \$1,850 for operational monthly cost.

16. Are there any proposed changes to the rules that will reduce a regulatory burden imposed on the business community? Please identify. (*Reductions in regulatory burden may include streamlining reporting processes, simplifying rules to improve readability, eliminating requirements, reducing compliance time or fees, or other related factors*).

Not Applicable.

17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

These rules are required by and implement statutory provisions enacted by the General Assembly.

Regulatory Flexibility

18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

There are no alternative means of compliance.

19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

Not Applicable.

20. What resources are available to assist small businesses with compliance of the regulation?

ODJFS has a regional office with a licensing specialist that will be assigned to assist the agency in the entire application process including assistance with the proper information required by this rule if the agency chooses to use a certification to meet Ohio requirements.
