FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase expenditures.

Unknown

This proposed rule is expected to cause a slight increase in State Share of Instruction allocations for any out-of-state veterans or dependents who utilizes the program, yet these are students who may not of otherwise have gone to an Ohio school. To obtain access to this benefit, these families are actually moving to, working, and settling in Ohio (presumably expanding the tax base) and possibly bringing with them federal education dollars. Any financing for increasing student support services for veterans or their families on campuses will likely be financed either through federal grant sources, fund-raising (i.e., the GI promise Council), or private grants (i.e., ACE Wal-Mart).

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

The two programs most likely to be affected in this biennium are:

235-563 Ohio College Opportunity Grant

235-501 State Share of Instruction

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

All other things being equal, state colleges and universities would lose revenue equivalent to the out-of-state surcharge they otherwise would collect for the out- of-

state students. Assuming that the additional enrollments of these students are fully funded in future State Share of Instruction allocations, the campuses should then receive revenue from the state that more or less offsets the loss of the surcharge revenue, although they would not be made whole in FY 2009. Campus administrative costs could also be expected to increase modestly to support any special student support or related programs that might be created or enhanced to support the veterans. There's a slight chance that the enrollment of the veterans could result in a minimal increase in Ohio College Opportunity Grant expenditures.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
