FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues/ expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase revenues.

\$1,140,000

The net impact should be an increase in revenues to our agency of approximately \$1.14 million since there will be no additional expenditures associated with the proposed rule amendment. Beginning with fiscal year 1994, the expenditures of the Financial Assurance Fund have annually exceeded revenues. To date, this deficit has been supported by \$65 million in revenue bonds issued by the Board. It is anticipated that even with the modest fee increases and an eventual decrease in claims reimbursement expenditures, this type of deficit will continue through the next two bienniums. Consequently, the proposed fiscal year 2005 fee increase will help to offset the anticipated deficit.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not Applicable

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:
