Not applicable.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

This rule states the Director may require a source to test emissions of air contaminants and/or install monitoring equipment to demonstrate conformance with regulations. This can incur a cost to regulated entities. Typically, these costs can include the time for personnel to perform testing and monitoring of sources. Some facilities may choose to have a consultant perform these functions. As a result of this rule, the director may also require monitoring equipment be installed which can incur a capital cost. The costs can vary widely depending on the size of the facility, different types of pollutants, how many sources, etc., are required to test and/or monitor emissions information. An estimate could be anywhere from hundreds of dollars a year to thousands of dollars a year depending on the facility, the requirements, and whether or not capital costs are necessary. This amendment will not create any additional cost of compliance compared to what currently is done under the rule and permitting process in Ohio.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **Yes**

You must complete Part B of the Rule Summary and Fiscal Analysis in order to comply with Am. Sub. S.B. 33 of the 120th General Assembly.

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **Yes**

You must complete the Environmental rule Adoption/Amendment Form in order to comply with Am. Sub. 106 of the 121st General Assembly.

6. Please provide a written explanation of the agency's and the local government's ability to pay for the new requirements imposed by the proposed rule.

The amendments proposed as part of this action will not impose any additional cost for compliance. The existing requirements of this rule continue to require a cost of compliance that has existed for a number of years and has been funded through existing budgets.

7. Please provide a statement on the proposed rule's impact on economic development.

The proposed amendments will have no additional impact on economic development. The existing requirements of this rule continue to impact economic development in that any agency/local government or other entity with air

Subject: Ohio EPA DAPC Rulemaking - OAC Chapter 3745-15 Five Year Review

Notice is hereby given that in accordance with Ohio Revised Code ("ORC") 119.032 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control ("DAPC") has reviewed the following rules contained in Ohio Administrative Code ("OAC") Chapter 3745-15:

- 3745-15-01 Definitions
- 3745-15-02 Purpose
- 3745-15-03 Submission of emission information
- 3745-15-04 Measurement of emissions of air contaminants
- 3745-15-05 "De Minimis" air contaminant source exemption
- 3745-15-06 Malfunction of equipment; scheduled maintenance; reporting
- 3745-15-07 Air pollution nuisances prohibited
- 3745-15-08 Circumvention
- 3745-15-09 Severability

Our preliminary review indicates that these rules continue to be necessary and are in need of revision as follows:

The amplifying and authorizing statutes are being updated for all the rules of this chapter.

OAC rule 3745-15-01: Inclusion of an incorporation by reference section as required by ORC 121.72. Minor changes to grammar/format. Inclusion of a

definition for Clean Air Act.

OAC rule 3745-15-03 : Inclusion of DAPC's quarterly reporting requirement for permits-to-install and permits-to-operate currently being issued by DAPC. This is, in part, to address SB 265 requirements for inclusion of reporting requirements in the OAC.

OAC rule 3745-15-05: Inclusion of updates for de minimis sources to meet the requirements reflected in OAC Chapter 3745-77 (September 2002 amendment) that require insignificant emissions units subject to one or more requirements to be included on the state and federally enforceable side of the Title V permit.

OAC rule 3745-15-06: Inclusion of updates to the requirements for malfunction reporting to increase consistency with other state programs and clarity in Ohio's program.

OAC rule 3745-15-07: Inclusion of updates to clarify that public nuisance conditions consisting of odors caused solely by the emissions of odorous substances not subject to the listed Administrative Code Chapters are not regulated by the Agency.

As part of the rule-making process, DAPC is required by Section 121.39 of the Ohio Revised Code to consult with organizations that represent political subdivisions, environmental interests, business interests, and others affected by the rules. The DAPC is offering your organization the opportunity to comment on these rules before the division formally proposes them.

Attached, please find the draft language for OAC rules 3745-15-01 to 3745-15-09 along with a synopsis of the recommended changes. These rules are also available at <http://www.epa.state.oh.us/dapc/regs/regs.html>. We request that you provide us with any comments you may have to the changes that have been recommended by Friday July 28, 2006.
