

TO BE RESCINDED

4713-21-03

Continuing education requirements.

- (A) Licensees shall be exempt from all continuing education requirements until the biennial renewal licensing period commencing after their initial licensure.
- (B) ~~The continuing education requirement for each personal license is eight hours per renewal period. No licensee shall receive credit for identical course instruction completed during a single renewal period. Licensees holding both a manager and instructor license shall be required to complete eight hours for each license held. Continuing education hours shall only be credited toward an Instructor license when those hours are completed within a board approved "Instructor Only" course. Each individual holding a personal, active license shall take eight hours of continuing education over a renewal period.~~
- (1) No licensee shall receive credit for identical course instruction completed during a single renewal period.
- (2) A licensee shall complete eight hours of continuing education in the following manner:
- (a) An individual holding a managing license in cosmetology or in a branch of cosmetology has turned in the basic license for the branch of cosmetology the individual practices as set forth in chapter 4713-8 of the Administrative Code. The individual with a managing license shall take eight hours of continuing education as that individual holds one license.
- (b) One requirement in section 4713.31 of the Revised Code for a licensee applying to be an instructor is to hold a current, valid managing cosmetologist license issued in Ohio when applying to become an instructor, as set forth in section 4713.31 of the Revised Code. An instructor may allow the managing license to be escrowed if the instructor is only teaching cosmetology or a branch of cosmetology. An individual holding an instructor's license and no other license shall take eight hours of courses related to the instruction of cosmetology or a branch thereof. When and if the instructor decides to activate the escrowed managing license, the instructor shall do so under section 4713.61 of the Revised Code.
- (c) One requirement in section 4713.31 of the Revised Code for a licensee applying to be an instructor is to hold a current, valid managing cosmetologist license issued in Ohio when applying to become an instructor, as set forth. If an instructor retains a current, valid managing license, the instructor shall complete continuing education of eight hours for each license held.

- (d) A licensee holding both a cosmetology license and a license to practice esthetics as permitted in rules 4713-8-03 and 4713-8-04 of the Administrative Code shall take eight hours of coursework for each license.
 - (e) An individual holding an independent contractor's license shall take two hours of continuing education in business, state laws and rules, and tax as determined by the board as part of the eight hours required to retain the managing license.
 - (3) Continuing education hours shall only be credited when provided by a board approved list of continuing education providers.
 - (4) The board, at its discretion, may establish guidelines for continuing education content requirements per renewal cycle and shall communicate those requirements to all licensees.
- ~~(C) Courses completed prior to an individual being licensed by the board do not qualify for continuing education credit. A licensee shall not receive continuing education credit for any course completed that does not have the prior approval of the board.~~An individual shall not receive continuing education credit for the following:
 - (1) Continuing education courses the individual takes before receiving a license from the board, or
 - (2) Courses not approved by the board at the time the individual takes the course, or
 - (3) Corrective action courses as set forth in rule 4713-8-10 of the Administrative Code and assigned as part of or instead of any penalty imposed under section 4713.64 of the Revised Code for a violation of the board's laws or rules.
- ~~(D) Licensees that hold multiple personal licenses, in more than one branch of cosmetology, must complete the continuing education requirements for each separate license. The completed continuing education must correspond with the applicable license. (For example, a course that is approved for an esthetician license may not be applied toward the required CE for a manicurist license).~~To enable the board to audit whether a continuing education course complies with the rules of this chapter, a provider shall do the following:
 - (1) Allow any and all official representatives and employees of the board entrance into any board-approved continuing education course, at no cost to the board.
 - (2) Provide free entry and passwords into an on-line or internet course site for all official representatives and employees of the board.

- ~~(E)~~ The board shall encourage all continuing education course providers to offer the courses in as many different locations as possible. All continuing education eligible offering entities shall allow any and all official representatives and employees of the board entrance into any board approved continuing education course, at no cost to the board.
- ~~(F)~~(E) The board shall keep, and make available to all licensees, a current roster of approved continuing education courses, ~~which~~ that shall include an explanation of any and all course prerequisites required for admission into the course offering.
- ~~(G)~~(F) Current licensees shall be able to receive continuing education credit for classes completed in a school of cosmetology.
- ~~(H)~~(G) Licensees age sixty-five or older, before January thirty-first of a renewal period, are exempt from the requirement to obtain continuing education hours for the renewal of their active license.
