6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

In accordance with the five-year review provisions set forth in section 119.032 of the Ohio Revised Code, this new rule is being proposed to replace a rescinded rule of the same number and similar title.

7. If the rule is an AMENDMENT, then summarize the changes and the content

of the proposed rule; If the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

This rule sets forth the criteria for participation in the Medicaid program by independent laboratories, portable x-ray suppliers, independent diagnostic testing facilities (IDTFs), and mammography suppliers. Improvements have been made in paragraph structure and organization, in clarity of phrasing, and in referencing of external sources.

This rule formerly required supervising physicians of IDTFs to certify in writing every two years that they either owned the IDTF or were employed by it and carried out certain responsibilities. Now it requires written certification "at each renewal of the Ohio medicaid provider agreement" (normally every three years).

Explicit criteria for IDTFs and mammography suppliers have been moved from rule 5101:3-11-01, and reference citations have been somewhat simplified.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This rule incorporates one or more references to the Clinical Laboratory Improvement Amendments of 1988 (CLIA), a federal law. This question is not applicable to those references in this rule because such references are exempt from compliance with ORC 121.71 to 121.74 in accordance with ORC 121.76(B)(2).
