If the proposed rule is likely to have a different fiscal effect in future years, please describe the expected difference and operation.**

This will increase expenditures.

489,053

The projected increased expenditures for this waiver is due to the impact of increasing the Community Transition Service maximum allowable reimbursement from \$1500.00 to \$2000.00 and the projected increased utilization of the service resulting from the implementation of the HOME Choice 2.0 program. This service is also available on the Assisted Living waiver. However, there is a different fiscal impact to the program then

that found in proposed rule 5160-1-06.5, which is due to the variance in historical utilization of the service in each waiver.

There are other changes to Appendix A proposed however, none of the changes are projected to result in an increase or decrease in expenditures.
