Pursuant to the Executive Budget, the Ohio Department of Medicaid has undertaken a redesign of the rate-setting methodology for aide and nursing services available through the Medicaid State Plan and home and community-based service waivers, including waiver nursing and personal care aide services. The redesign took into account labor market data, education and licensure status of providers, whether providers are independent or home health agencies, and the length of time of service visits. No revenues or expenditures are projected during the current biennium as a result of this endeavor, however, upon implementation in July 2015, the redesign is projected to increase aggregate spending for aide and nursing services by approximately \$19.8 million (all funds) over the SFY 2016/2017 biennium and create two new Medicaid State Plan nursing services. Projections are based on estimated utilization, the new payment methodology and the new rates.
