

901:5-2-08

Dry fertilizer storage and handling.

- (A) Dry fertilizer materials and nonliquid fertilizer shall, if stored for more than thirty days in any calendar year, be stored inside a structure or device having a roof or cover, sidewalls, and a base sufficiently impermeable to prevent contact with precipitation and surface water.
- (B) Dry fertilizer materials and nonliquid fertilizer stored for thirty days or less in any calendar year may be stored outdoors provided they are placed on a ground cover sufficiently impermeable to prevent contact with precipitation and surface water and completely covered with a waterproof tarpaulin.
