DAPC is proposing the following changes:

Facility information was updated to include: names of owners or operators, address changes of facilities where street or highway names or numbers have changed, corrections of OEPA premise numbers and source numbers that were incorrect.

Corrections of typographical errors changes to amend the authorizing and amplifying statutory authorities.

Emission limitations in OAC rules 3745-18-31 (Franklin County), 3745-18-82 (Stark County) and 3745-18-83 (Summit County) which were less stringent than U.S. EPA's Federal Implementation Plan ("FIP") were replaced with the FIP limits. The emission limitation in paragraph (B) of OAC rule 3745-18-12 for St. Mary's Municipal Light and Power was also changed to reflect the FIP emission limitation.

Emission limitations and operating restrictions are modified at paragraph (B) of OAC rule 3745-18-82 for Canton Drop Forge. Ohio EPA believes these changes allow the facility operational flexibility without adversely affecting air quality.

Language clarifying the sulfur dioxide emission limitation for sulfur recovery units at oil refineries was added to clarify the intent of the rule at paragraph (C)(3) of 3745-18-08, paragraphs (H)(7) and (O)(9) of 3745-18-54, and paragraph (E)(4) of 3745-18-82.

In paragraph (I) of 3745-18-06, jet engine test stands are exempted from the requirements of OAC Chapter 3745-18. Ohio EPA determined sulfur dioxide emissions from these units were minor and there was no effective method accurately determine sulfur dioxide emissions from these units.
