Pursuant to Section 5101.54 and Chapter 119. of the Ohio Revised Code, the Ohio Department of Job and Family Services gives notice of the department's intent to consider the adoption, amendment, or rescission of the rule or rules identified below and of a public hearing thereon.

The General Assembly, in House Bill 33, required that the SNAP E&T program be redesigned to meet the needs of employers in Ohio. Every able-bodied adult without dependents (ABAWD) is required to work at least twenty hours per week as a condition of eligibility for the Supplemental Nutrition Assistance Program (SNAP). Federal law allows this work requirement to be fulfilled through paid employment, unpaid/volunteer work, or participation in certain employment and training (E&T) programs. An ABAWD who fails to meet their work requirement for 3 months in a 36-month period is not eligible to receive SNAP without either meeting the work requirement on their own or becoming exempt from the requirement itself. If an ABAWD is not working twenty hours per week, participation in the SNAP E&T program is one way – but not the only way, that they can meet their work requirement.

SNAP E&T is available in all Ohio counties and is intended to provide SNAP recipients with the skills, training, and experience necessary to secure regular employment that meets the needs of employers in their community. However, the US Department of Agriculture, Food and Nutrition Service (FNS) has found that the current design of Ohio's SNAP E&T program does not meet the needs of employers, does not have positive employment outcomes and funding for the program primarily goes to the administration of the program, not services to clients. In addition, the General Assembly has required that the SNAP E&T program be redesigned to meet the needs of employers in Ohio.

ODJFS relied on input from employers, county Departments of Job and Family Services, workforce professionals, and advocacy groups to identify a programmatic framework and is now proposing rules to implement the redesigned program to be effective in federal fiscal year 2025. The redesigned SNAP E&T program will meet the needs of Ohio's employers by enhancing participants' basic job skills and work etiquette and creating forward momentum into the workforce. Moreover, the redesigned program will preserve funding from FNS, which means the state can make SNAP E&T available to all SNAP recipients.
