Hearing Summary Report

Consolidated Summary of Comments Received

Please review all comments received and complete a consolidated summary paragraph of the comments and indicate the rule number(s).

The recurring comment made on new rule 5160-10-01 was a request to reinstate the term 'list price', which is equivalent to 'manufacturer's suggested retail price (MSRP)'. A related request was to set Medicaid payment for three "miscellaneous" items at 72% of MSRP, at least on a temporary basis until revisions can be made to rule 5160-10-16. ("Miscellaneous" or "not otherwise specified" items do not have a set payment amount. For the three item categories in question, payment amounts are established through the prior authorization process.)

Clarification was requested on five points in rule 5160-10-07:

1. What the intent is of the statement "An item that functions equally well as a bathing seat and as a commode is deemed to be a commode for Medicaid payment purposes."
2. Whether or not an individual who needs assistance is going to receive approval for a bathing seat that is designed to be used without assistance.
3. How to determine the classification/category of a particular model.
4. Why some categories exclude seats made of PVC.
5. Whether a draft certificate of medical necessity (CMN) is available for providers to review.

Incorporated Comments into Rule(s)

Indicate how comments received during the hearing process were incorporated into the rule(s). If no comments were incorporated, explain why not.

ODM believes that the wording of proposed rule 5160-10-01 allows sufficient flexibility in the selection of a method of establishing a payment amount. On 05/26/2021, representatives of ODM, OAMES, NCART, and individual providers met to discuss the possibility of using MSRP to establish payment for complex rehabilitation technology (CRT). Additional meetings will be held to consider how such an approach could be incorporated into a future version of wheelchair rule 5160-10-16.

On rule 5160-10-07, clarification was provided. No further change was made to the text of the rule.
