## Hearing Summary Report

### **Consolidated Summary of Comments Received**

Please review all comments received and complete a consolidated summary paragraph of the comments and indicate the rule number(s).

I am commenting on 4755-46-02 as it relates to athletic training students. As written, the revised rule states that supervising ATs must have 'daily' auditory and visual contact with the student. This is unclear whether or not a simple daily check-in is compliant or if constant (I believe this was the word used previously) contact is necessary. From both a legal-ethical and student learning perspective I would like for this to be clarified.

\*Clarified directly with the commenter

I offer for future consideration and discussion a provision to allow a PT/PTA to roll forward "X" number of CEU's to the following renewal period if they have exceeded the required 24/12 CEUs in a current renewal period. While tracking may be challenging, the flexibility and cost effectiveness may be appreciated by therapists.

\*Considered by the Board – no change at this time
