The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent

1. Please briefly describe the draft regulation in plain language.

These ten five-year review rules are being filed to meet the requirement to review each rule of the Ohio Administrative Code every five years. These rules are part of six Chapters of Agency 4757 of the Administrative Code. There are two additional rules, one amended and one new, being filed with this package. The new rule concerns veteran and military

application and licensing issues. The following rules have been reviewed by all of the Professional Standards Committees of the board. There is a note on each as to the proposed changes. The PSC column denotes if it applies to all licensees or only the Counselor (CPSC), Social Worker (SWPSC) or Marriage and Family Therapist (MFTPSC) Professional Standards Committee. The Board appreciates feedback on any and all rules.

- 3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?**

No

- 4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

Not applicable

- 5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

The regulations are needed to carry out the Board's mission in an effective and efficient manner. The Board licenses professional counselors, social workers and marriage and family therapists who provide mental health and other services to residents of Ohio. The Board ensures applicants for licensure meet the requirements established in Chapter 4757 of the Revised Code. The Board ensures that applicants maintain qualifications by requiring continuing education for each license renewal. The Board also provides regulatory oversight and discipline for licensees that do not follow professional standards of conduct.

- 6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?**

These rules will be measured as follows: success in the case of rule 4757-1-02 will be measured by ensuring board meetings are appropriately announced and interested parties know in advance of any special meetings or changes in locations for meetings; success in the case of rule 4757-1-04 will be measured by having the rules written in plain language for clarity and applicants understanding the application process; success in the case of rule 4757-1-07 will be measured by having the rules written in plain language for clarity and licensees and registrants understanding that fines may be assessed as a part of discipline; success in the case of rule 4757-1-08 will be measured by having the rules written in plain language for clarity and military and qualifying veterans applications being processed at the head of the line; success in the case of rule 4757-5-02 will be measured by having the rules written in plain language for clarity, and licensees understanding the standards of ethical practice and professional conduct with clients/consumers of services; success in the case of rule 4757-5-10 will be measured by having the rules written in plain language for clarity, and licensees making the mandatory

reports required by statute and this rule; success in the case of rule 4757-5-11 will be measured by having the rules written in plain language for clarity, and licensees submitting name and address change forms within 90 days of the action; success in the case of rule 4757-6-01 will be measured by having the rules written in plain language for clarity, and licensees in custody cases understanding their role and not making recommendations when it is not their role to do so; success in the case of rule 4757-6-02 will be measured by not having to ever have a summary suspension, but should that happen that we do so with all speed and legalities; success in the case of rule 4757-7-02 will be measured by ensuring licensees and registrants know their expiration dates and renew timely as shown by a reduction of late fees; success in the case of rule 4757-9-01 will be measured by independent marriage and family therapists compliance with the new training supervision designation; success in the case of rule 4757-9-06 will be measured by licensees and registrants understanding all of the options for continuing education that are available and identifying those that are appropriate for their license and a reduction in the error rate on continuing education audits; and, success in the case of rule 4757-11-02 will be measured by successful application of the impaired practitioner rule in cases before discipline is required.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

Emails were sent via the Board's Listserv to all valid email addresses on 6/17/2014. Those emails had a link to the draft rules on the Board's web site. Separate emails were sent to all associations that have expressed interest in the last several years in any Board issues. Emails were sent to all counselor, social worker and marriage and family therapist education programs in Ohio colleges and universities with programs designed to lead to licensure under the Board's laws and rules. Another email was sent to continuing education providers and those who offer individual programs for which we have emails.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

We received virtually no comments on these rules as drafted in this submission. We did receive many comments on rule 4757-9-05, which was withdrawn for further discussion. We also received comments on a part of rule 4757-19-04, which included a change to examination for the master's level social worker license that was removed for further study of data that may or may not support the proposed changes.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

No scientific data was applicable to these rules.

- 10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?**

No alternatives were suggested by input as drafted in this submission and the rules are needed for proper operation of the Board under Chapter 4757 of the Revised Code.

- 11. Did the Agency specifically consider a performance-based regulation? Please explain.**

Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.

Performance based regulations were considered for these rules, but the prescriptive parts are required by statute. Those where implementation of the statute is involved, we offer as much latitude as possible for compliance. For example, we give licensees and registrants 90 days to update names and addresses. We have never taken disciplinary action for failure to comply, but those that don't comply, too often, do not get the notice for renewal due to invalid post office address and their email is invalid.

- 12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?**

The Board is the only agency issuing and regulating these licenses and registrations.

- 13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.**

The rules once the filing process is complete are readily available on the Board's website and a Listserv email will be sent to all licensees with information on the changes. The consistency of the Board's processes is regularly reviewed and any non-standard situations are reviewed by the Board for resolution. As issues arise they are added to the Agenda for review and discussion by the applicable professional standards committee for review, discussion and resolution.

Adverse Impact to Business

- 14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:**

- a. Identify the scope of the impacted business community;**

For rules 4757-1-02, 4757-1-04, 4757-1-07, 4757-5-02, 4757-5-10, 4757-5-11, 4757-6-01, 4757-6-02, 4757-7-02, 4757-9-06 and 4757-11-02 the regulated community is licensed counselors, social workers and marriage and family therapist and registered social worker assistants and their employers. For rule 4757-1-08 the affected applicants and licensees are active military members, eligible veterans and their

spouses. Rule 4757-1-02 establishes notice of board meetings per section 4757.05 of the Revised Code. Rule 4757-1-04 establishes requirements for applications and adds clarifying language and marriage and family therapist trainees authorized under changes to section 4757.10 of the Revised Code. Rule 4757-1-07 implements fines authorized under section 4757.31 of the Revised Code and simplifies the language. Rule 4757-1-08 implements special application processing for active military, veterans and their spouses under sections 5903.10 and 5903.12 of the Revised Code. Rule 4757-5-02 affects all practicing licensees as to ethical practice for interactions with clients. Rule 4757-5-10 is a no change rule that lists the required reporting of unethical actions by Board licensees and registrants under Sections of the Revised Code noted in the rule. Rule 4757-5-11 is a no change rule that requires licensees to update their address of record within 90 days of a change. Rule 4757-6-01 concerns our most prickly investigation cases “child custody, visitation and guardianships”, which affects parents, children and all licensees working in this area and is authorized under section 4757.11 of the Revised Code. Rule 4757-6-02 concerns summary suspension, which the board has never used – no change. Rule 4757-7-02 concerns practice with an expired license – no change. Rule 4757-9-06 provides descriptions and definitions related to sources of continuing education. Rule 4757-11-02 is the impaired practitioner rule, which adds language making any agreements under that rule non-disciplinary on advice of AG’s office authorized under section 4757.10.

b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and

Rule 4757-1-02 has no adverse impact. Rule 4757-1-04 has adverse impact in the fees for registration or licensure, criminal records checks, transcript cost from university, and for those with criminal history may have costs for copy of court records although many courts have them readily available online. Rule 4757-1-07 fines would be part of a discipline. Rule 4757-1-08 has no adverse impact as it simplifies and speeds up processing of applications for active duty military, eligible veterans and their spouses. Rules 4757-5-02, 4757-5-10, 4757-5-11, 4757-6-01 and 4757-7-02 adverse impact from these rules is only for licensees who violate the ethics laws or work on an expired license; rule 4757-6-01 is more advisory as to how to stay out of trouble. Rule 4757-6-02 adverse impact is only for licensees who seriously violate board laws and or rules and is an imminent danger to the public.

Rule 4757-9-06 adverse impact is relatively low this rule provides numerous alternatives for obtaining continuing education (CE) other than a regular CE course; these include: Journal articles; Chapters authored by licensees in books; publications having joint authorship; Credit for first time presentation of a CE course; Home study and distance learning options; credit for college course in their field.

Rule 4757-11-02 offers licensees who have not harmed any clients an opportunity to seek treatment and keep their license clean of discipline. The adverse impact is the cost of treatment they need to be successful in that effort.

c. Quantify the expected adverse impact from the regulation.

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a “representative business.” Please include the source for your information/estimated impact.

Rule 4757-1-02 establishes notice of board meetings and has little to no cost as meetings are posted on the website for the next year.

Rule 4757-1-04 has adverse impact in the fees for registration or licensure (\$40, \$60 or \$75 for two year registration or licensure), requires criminal records checks (\$22 for BCI & \$24 for BCI plus charge by provider), transcript cost from university usually under \$20, and for those with criminal history may have costs for copy of court records although many courts have them readily available online.

Rule 4757-1-07 fines would be part of a discipline outcome that is financial in its amount plus the cost of attorney fees and hearing costs depending on the licensee or registrants interactions with the board. Maximum fines by statute are \$500 per violation. To date the board has not used fines in a discipline case.

Rule 4757-1-08 has no adverse impact as noted in the prior section of this BIA.

Rules 4757-5-02, 4757-5-10, 4757-5-11, 4757-6-01 and 4757-7-02 adverse impact from these rules is only for licensees who violate the ethics laws or work on an expired license. If a licensee is investigated, depending on the case facts, the costs could be; minimal including providing a written response and copies of court documents; or in more serious cases may involve hiring an attorney and having a hearing. In the minimal case, the cost is time to provide a thoughtful response and perhaps an interview with a Board investigator. In a serious case, attorney fees and potential sanctions to a license could lead to a major expense of \$3,000 to \$7,000. The vast majority of cases have small expenses due to the nature of the violations. Serious violations cost more and having discipline on your license may impact future employment. The costs are based on input from attorneys who have represented clients in discipline cases before the Board. Rule 4757-6-01 is more advisory as to how to stay out of trouble.

Rule 4757-6-02 adverse impact is only for licensees who seriously violate board laws and or rules and are an imminent danger to the public. Costs are hard to measure as the board has never been through this procedure, but see costs listed under the prior paragraph.

Rule 4757-9-06 adverse impact is relatively low in that it offers multiple options for obtain CEs other than in person CE courses. Writing journal articles, chapters of books, and presenting CE courses require a lot of writing and preparation, which makes licensee time the primary expense. Home and distance learning offer lower cost and more convenient options. One CE provider offers unlimited CEs for \$141, which is \$4.67 per hour.

Rule 4757-11-02 offers licensees who have not harmed any clients an opportunity to seek treatment and keep their license clean of discipline. The adverse impact is the cost of treatment they need to be successful in that effort. This could be a week or more in a treatment program that can cost up to thousands a week, which may be covered by insurance. This is a voluntary process and a lifeline for those with serious addiction issues.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The requirements within each rule are authorized in Chapter 4757 of the Revised Code as referenced above. The rules are necessary for the proper administration of the board and protection of the public.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

Applications are required in all cases to document eligibility for registration and licensure. We do not have an alternative process for these. The board rarely decides on public discipline for first time errors that do not create serious client harm. Serious violations are treated as such and result in public discipline, which is the purpose of the board in protecting the public.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

The Board generally does not fine or penalize for minor paperwork in which case the licensee would receive a letter of caution. More serious paperwork violations can result in serious consequences. The Board has referenced section 119.14 of the Revised Code in this review of the Board's rule on fines, 4757-1-07.

18. What resources are available to assist small businesses with compliance of the regulation? *The Board and its staff are dedicated to working with members of the regulated community and the public to ensure that the consumers of professional counseling, social work and marriage and family therapy services in Ohio receive safe*

The board shall consider the number and timing of any convictions and the relationship those convictions may have to the practice for which the applicant has made application for licensure or certification. The board shall consider an applicant's fitness to practice a part of the good moral character requirements. The board at its discretion may request any of the following to help determine good moral character and fitness to practice: a criminal records check, a criminal background check or a psychological evaluation.
- (E) All applicants for an initial license or registration shall submit a request to the bureau of criminal identification and investigation for a criminal records check of the applicant per sections 4776.02 and 4776.03 of the Revised Code and shall include a federal bureau of identification criminal records check request. This requirement applies to all initial applications for professional counselor, social worker, professional clinical counselor, independent social worker, marriage and family therapist, independent marriage and family therapist, or for registration of title as a social work assistant, counselor trainee, [marriage and family therapist trainee](#) or social worker trainee. The applications for criminal records check shall comply with section 109.572 of the Revised Code. The criminal records check shall be received ~~at least~~ [within](#) one year prior to licensure or a new criminal records check shall be required. Section 4776.02 of the Revised Code requires that all fingerprint reports be sent directly to the board office from the bureau of criminal identification and investigation. Any fingerprint results mailed to or from some other source shall not be accepted.
- (1) Applicants in the state of Ohio shall go to a county sheriff's office or other agency approved by Ohio's attorney general to request an electronic criminal records check and submit fingerprints to the bureau of criminal identification and investigation. A link to electronic fingerprint sites is available on the board's web page under "forms".
 - (a) Each applicant shall pay the fee to the agency scanning their fingerprints and provide the bureau of criminal identification and investigation with the applicant's name and

Five Year Rule Review – due 9/20/2014 as of 7-24-2014

address and with the board's name and address as the results addressee. The agency code fingerprint card shall be "1AB002".

- (b) An applicant who has poor fingerprint quality on the electronic scanning shall be notified by the board to request a waiver from electronic scanning and mailed the required forms for submission of ink rolled fingerprints. The bureau of criminal identification and investigation has suggested using corn huskers lotion when having difficulties getting a good electronic scan.
 - (c) The applicant shall ask the superintendent of the bureau of criminal identification and investigation in the criminal records check request to obtain from the federal bureau of investigation any information it has pertaining to the applicant.
- (2) Applicants outside the state of Ohio shall go to a police agency in their state and complete the blank criminal records check cards provided to them by the board and submit fingerprints by mailing the completed forms directly to the bureau of criminal identification and investigation. Note, this process may be quicker and more convenient, if the applicant waits until she or he is in Ohio, to complete an electronic scan.
- (a) Each applicant shall pay the fee to the agency completing the fingerprinting and to the bureau of criminal identification and investigation for both the Ohio and federal bureau of investigation records checks. Applicants shall follow the directions provided with the fingerprint cards. The applicant shall ask the superintendent of the bureau of criminal identification and investigation in the request to obtain from the federal bureau of investigation any information it has pertaining to the applicant. Part of that application requires a waiver from electronic submission form citing out-of-state as the reason.
 - (b) An applicant requesting a criminal records check shall provide the bureau of criminal identification and investigation with the applicant's name and address and with the board's name and address as the results addressee. The agency code on the fingerprint card shall be "1AB002".
- (3) The board shall not issue a license or registration until receipt of the criminal records check and any follow-up actions are completed.
- (4) The results of any criminal records check conducted pursuant to a request made under this chapter and any report containing those results, including any information the federal bureau of investigation provides, are not public records for purposes of section 149.43 of the Revised Code and shall not be made available to any person or for any purpose other than as follows:
- (a) The superintendent of the bureau of criminal identification and investigation shall make the results available to the board for use in determining, under Chapter 4757. of the Revised Code, whether the applicant who is the subject of the criminal records check should be granted a license under that chapter.
 - (b) The board shall make the results available to the applicant who is the subject of the criminal records check or to the applicant's representative upon their written request.

4757-6-01 Reports prepared for court review including custody, visitation and guardianship concerns.

Five Year Rule Review – due 9/20/2014 as of 7-24-2014

(A) The role of the counselor, social worker, or marriage and family therapist is that of a professional expert who strives to maintain an objective, impartial stance. A counselor, social worker or marriage and family therapist does not act as a judge who makes the ultimate decision applying the law to all relevant evidence. Neither does a counselor, social worker or marriage and family therapist act as an advocating attorney who strives to present his or her client's best possible case. A counselor, social worker, or marriage and family therapist in a balanced, impartial manner informs and advises the court and the ~~prospective~~ respective parties of the relevant mental health factors pertaining to the issue. A counselor, social worker, or marriage and family therapist should be impartial regardless of whether he or she is retained by the court or by a party to the proceedings. If either the counselor, social worker, marriage and family therapist, or the client cannot accept this neutral role, the counselor, social worker, or marriage and family therapist shall withdraw from the case. If not permitted to withdraw, the counselor, social worker, or marriage and family therapist acknowledges past roles and other factors that could affect impartiality.

(B) A counselor, social worker, or marriage and family therapist contemplating performing court reports, including child custody reports, is aware that special competencies and knowledge are required for the undertaking of such evaluations. Competence in performing psychological assessments of children, adults and families is necessary but not sufficient. Education, training, experience and/or supervision in the areas to be evaluated are essential in preparing a report.

(C) A counselor, social worker, or marriage and family therapist uses current knowledge of scientific and professional developments consistent with accepted clinical and scientific standards in selecting data collection methods and procedures.

(D) In the course of preparing a report, allegations of other issues may occur that are not necessarily within the scope of a particular evaluator's expertise. If this is so, the counselor, social worker, or marriage and family therapist seeks additional consultation, supervision, and/or specialized knowledge or training to address these issues.

(E) A counselor, social worker, or marriage and family therapist engaging in preparing reports that will likely be used in court is aware of how biases regarding age, gender, race, ethnicity, national origin, religion, sexual orientation, disability, language, culture, and socioeconomic status may interfere with an objective evaluation and recommendations. A counselor, social worker, or marriage and family therapist recognizes and strives to overcome any such biases or withdraws from the evaluation.

(F) A counselor, social worker, or marriage and family therapist shall not conduct a court evaluation in a case in which that counselor, social worker, or marriage and family therapist served in a therapeutic role for the client or his or her immediate family or has had other involvement that may compromise the counselor, social worker, or marriage and family therapist's objectivity. This should not preclude a counselor, social worker, or marriage and family therapist from testifying in the case as a fact witness concerning treatment. In addition, during the course of a court evaluation, a counselor, social worker, or marriage and family therapist shall not accept any of the involved participants in the evaluation as a therapy client. Therapeutic contact with the participants following the court evaluation is undertaken with

Five Year Rule Review – due 9/20/2014 as of 7-24-2014

caution. A counselor, social worker, or marriage and family therapist asked to testify in court is aware of the limitations and possible biases inherent in such a role and the possible impact on the ongoing therapeutic relationship. Although the court may require the counselor, social worker, or marriage and family therapist to testify as a fact witness regarding factual information he or she became aware of in a professional relationship with a client, that counselor, social worker, or marriage and family therapist shall decline the role of expert witness who gives a professional opinion regarding the custody, visitation and/or guardianship issues .

(1) Licensees with a client involved in a custody, visitation and/or guardianship case, if asked by a client and/or their lawyer or the guardian ad litem to make a recommendation as to custody, visitation and/or guardianship, shall cite their role as the primary therapist for their client. This section does not apply to a licensee hired to make a custody, visitation and/or guardianship recommendation for the court. Licensees shall inform the requestor that they have not performed a custody, visitation and/or guardianship evaluation and it would be unethical for them to make any recommendation outside of their role as a treating therapist.

(2) Licensees asked by a judge to make a recommendation in a custody, visitation and/or guardianship hearing, not hired by the court to do so, shall cite their role as a client's therapist and note that any testimony would be an ethics violation of their license and they can only testify to facts that they know. Any recommendation would be based on limited facts and not within their role as this client's therapist. However, if ordered by the court to make a recommendation after stating these limitations, the licensee shall follow the court's order in order to avoid being found in contempt of court

(G) The scope of the court evaluation is determined by the nature of the question or issue raised by the referring person or court, or is inherent in the situation. A counselor, social worker, or marriage and family therapist may be asked to critique the assumptions and methodology of the assessment of another mental health professional. A counselor, social worker, or marriage and family therapist also might serve as an expert witness providing expertise to the court without relating it specifically to the parties involved in a case.

(H) A counselor, social worker, or marriage and family therapist will adhere to the requirements regarding informed consent as outlined in paragraph (B)(2) of rule 4757-5-01 of the Administrative Code.

(I) A counselor, social worker, or marriage and family therapist will adhere to the requirements regarding confidentiality as outlined in paragraph (B)(4) of rule 4757-5-01 of the Administrative Code.

(J) A counselor, social worker, or marriage and family therapist strives to use the most appropriate methods available for addressing the questions raised in a specific evaluation and generally uses multiple methods of data gathering, including but not limited to clinical interviews, observation, and/or testing and assessment instruments. Important facts and opinions are documented from at least two sources whenever ~~their~~ those methods' reliability is questionable. A counselor, social worker, or marriage and family therapist may also interview extended family, friends, and other individuals on occasions when the information is likely to be

Five Year Rule Review – due 9/20/2014 as of 7-24-2014

useful. If information is gathered from third parties that is significant and may be used as a basis for conclusions, licensees corroborate it by at least one other source wherever possible and appropriate and document this in the report.

(K) A counselor, social worker, or marriage and family therapist refrains from drawing conclusions not adequately supported by data. The counselor, social worker, or marriage and family therapist interprets any data from interviews or tests, as well as any questions of data reliability and validity cautiously and conservatively seeking convergent validity. A counselor, social worker, or marriage and family therapist strives to acknowledge to the court any limitations in methods or data used.

(L) A counselor, social worker, or marriage and family therapist does not give a professional opinion regarding the mental health functioning of any individual who has not been personally evaluated other than in addressing theoretical issues of hypothetical questions, so long as the limited basis of the information is noted.

(M) If a counselor, social worker, or marriage and family therapist chooses to make recommendations, these recommendations should be derived from sound data and shall be based on the best interests of the client involved. Recommendations are based on articulated assumptions, data, interpretations, and inferences based upon established professional and scientific standards. A counselor, social worker, or marriage and family therapist guards against relying on their own biases or unsupported beliefs in rendering opinions in particular cases.

(N) A counselor, social worker, or marriage and family therapist shall adhere to the requirements regarding record keeping as outlined in paragraph (I) of rule 4757-5-01 of the Administrative Code.

(B) The board shall issue a written order of suspension by certified mail or in person in accordance with section 119.07 of the Revised Code. The order is not subject to suspension by the court during pendency of any appeal filed under section 119.12 of the Revised Code. 4757-9-06 Sources of continuing professional education.

(A) Sources of continuing professional education shall be formally organized learning experiences with education as their explicit principal intent and which are oriented toward the enhancement of counselor, social worker, and marriage and family therapy practice. The following are examples of appropriate formats for such learning experiences:

- (1) "Institute" means a formal offering, usually in a series of meetings, for instruction and information in a particular area of counselor, social worker and/or marriage and family practice;
- (2) "Seminar" means a small group of counselors, social workers, or marriage and family therapists who meet under expert leadership or resource persons. Participants prepare reports on some aspect of a problem, which is discussed and analyzed;
- (3) "Conference" means sessions of one or more days duration designed to serve a varying number of persons to hear different points of view on a central theme;

Five Year Rule Review – due 9/20/2014 as of 7-24-2014

(4) "Staff development" means an educational program planned by an agency to assist its employees in becoming increasingly knowledgeable and competent in fulfilling role expectations within that agency. Although often used interchangeably with in service education, staff development frequently includes out-of-agency educational activities;

(5) "Symposium" means two or more specialists presenting information on a particular subject. A moderator introduces the subject and each speaker then summarizes and presides during a question and answer period;

(6) "Workshop" means a program designed to bring together individuals with a common interest and background to solve similar problems and to gain new knowledge, skills, and attitudes;

(7) "Plenary session" means an assembly designed for all participants;

(11) "Distance learning" means a formal education process, in which instruction occurs when the students and instructor(s) are not located in the same place. Distance learning adds technology to the learning environment by a variety of means. As this form of education has evolved with technology, it may be referred to as cyber learning, electronic learning, distance learning. For the purposes of agency 4757 rules, the term distance learning refers to all non-traditional methods of presentation except video-conferencing.

(12) "Video conferencing" means conducting a conference between two or more participants at different sites using computer networks to transmit audio and video data. For example, a video conferencing system works much like a video telephone. Each location has a video camera, microphone, and speakers with which to interact. As the two or more participants speak to each other, their voices are carried over the network and delivered to the other's speakers, and whatever images appear in front of the video camera appear on the other participants' monitor. Video conferencing allows two or more locations to sit in a virtual conference room and communicate as if they were sitting right next to each other.

(2) The approval form shall be accompanied by the actual study materials, a statement of the goals and objectives of the study, an overview of the study methodology, and copies of the evaluation tool that will be used at the completion of the study.

(E) The board may grant continuing education credit for approved home study programs when the distance learning program's sponsor can demonstrate to the board that:
