The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

All rules in this packet are being rescinded and redrafted as new rules in order to re-align, re-number and re-title them. This process reflects a thorough review and restructuring of all child care licensing rules to ensure ODJFS is mandating *only* essential health and safety requirements and excluding any requirements that could impede the economic viability of small business in Ohio. The rescinding of these rules also reflects the end of duplicative rule standards for child care home settings.

The rescinding of these rules does not create extra costs; reporting activity; or cause any sanctions of law for non-compliance as a result of their rescission. In their totality, these rules do not have adverse impact on small businesses.

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

The regulations do not exceed federal requirements.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

These rules, promulgated pursuant to the requirements of the Ohio Revised Code, establish regulations for minimum health and safety standards for licensed child care environments, staffing, child records and administrative policies and procedures and are being replaced by new rules.

6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

The success of these regulations is determined during licensing inspections, through the monitoring of incident reports submitted by regulated providers and through materials submitted to address noncompliances. Stakeholders also provide continuous input into the regulation and their ability to comply with the rules.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

Stakeholders involved in developing these rules include:

Ohio Department of Health – Pediatric Obesity Collaborative Improvement and Innovation Network (CoIIN)

Family Child Care Ad hoc Workgroup – comprised of Type A Home Providers, Type B Home Providers, County Department of Job and Family Services and AFSCME Local Council 8 (Note: AFSCME Local Council 8 represented the family child care providers while the ad hoc workgroup was convened in spring 2013)

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

Stakeholder comments were incorporated where appropriate during the drafting and the ODJFS clearance process. On December 2, 2015, the ODJFS made the proposed family child care licensing rules and forms available for public comment and received 37 comments. Based upon the number of comments received and revisions to the proposed rules and forms, the ODJFS made the rules available for a second public comment period on April 14, 2016.

The ODJFS received 10 comments from the second clearance. New input will continue to be carefully considered during and immediately following the public hearing comment period.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

These rules were promulgated to comply with the statutory requirements of ORC 5101.017 and 5101.018.

11. Did the Agency specifically consider a performance-based regulation? Please explain. *Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

No. Rules were developed to implement state mandates under Ohio Revised Code 5104. intended to increase the health, safety, and general well-being of children in child care.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

Rules are reviewed by ODJFS rule specialists and legal staff prior to the Clearance process to ensure there is no duplication of our agency or other agency rules.

13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

County agency licensing specialists utilize a software system to inspect licensed family child care homes and providers. ODJFS help desk staff provides support and assistance to licensed child care providers and families regarding the provisions of the rules. Formal notification of the rules is provided to child care providers, families and others by use of an emanual for child care which is located at <http://emanuals.odjfs.state.oh.us/emanuals/>.
