The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

### Regulatory Intent

#### 1. Please briefly describe the draft regulation in plain language.

*Please include the key provisions of the regulation as well as any proposed amendments.*

Both the Ohio Department of Medicaid (ODM) and the Ohio Department of Aging (ODA) administer home and community-based services (HCBS) nursing facility level of care waivers. ODM-administered HCBS waivers include the MyCare Ohio and Ohio Home Care waivers. ODA-administered HCBS waivers include the preadmission screening system providing options and

resources today (PASSPORT) and Assisted Living waivers. Each waiver is described under its own chapter of the OAC and while services across waivers may be similar, they are not uniform.

It is not uncommon for individuals receiving services through these waivers to move from one waiver to another depending on criteria such as age, Medicare eligibility, service needs and/or county of residence. Also, often providers deliver services to individuals across all waivers, but are made to adhere to different standards depending on the waiver enrollment of the individual they are serving. This causes confusion among individuals and providers alike and results in a lack of continuity of care.

To bring consistency to the ODM and ODA administered waiver programs to benefit individuals and providers, the two agencies have been collaborating to align the OAC rules governing the various waiver programs. This rule package reflects phase two of the HCBS waiver alignment collaboration and includes service alignment efforts that will result in a budget impact.

**5160-44-12 “Nursing facility-based level of care home and community-based services programs: home maintenance and chore services,”** is being proposed as new to implement home maintenance and chore services in Chapter 5160-44 of the Administrative Code. This rule sets forth the service description, provider qualifications and clinical record keeping requirements.

**5160-44-14 “Nursing facility-based level of care home and community-based services programs: community integration services,”** is being proposed as new to implement community integration services in Chapter 5160-44 of the Administrative Code. This rule sets forth the service description, authorization process and amount, service limitations and provider requirements.

**5160-44-26 “Nursing facility-based level of care home and community-based services programs: community transition services,”** is being proposed as new to implement community transition services in Chapter 5160-44 of the Administrative Code. This rule sets forth the service description, limitations, provider qualifications and requirements, and clinical record keeping requirements.

**5160-46-04 “Ohio home care waiver: definitions of the covered services and provider requirements and specifications,”** is being proposed for amendment to align with implementation of HCBS rules in Chapter 5160-44 of the Administrative Code. This rule sets forth the covered services and provider requirements for nursing facility-based HCBS waivers administered by ODM. The personal care aide service is being modified due to the creation of home maintenance and chore services as set forth in new OAC rule 5160-44-14.

**2. Please list the Ohio statute authorizing the Agency to adopt this regulation.**

Ohio Revised Code Section 5166.02.

**3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to**

**[CSIOhio@governor.ohio.gov](mailto:CSIOhio@governor.ohio.gov)**

**administer and enforce a federal law or to participate in a federal program? *If yes, please briefly explain the source and substance of the federal requirement.***

Yes, for the Centers for Medicare and Medicaid Services (CMS) to approve a 1915(c) home and community-based services (HCBS) waiver, a state must meet certain assurances about the operation of the waiver. These assurances are spelled out in 42 C.F.R. 441.302, and include:

*(a) "Health and Welfare -Assurance that necessary safeguards have been taken to protect the health and welfare of the beneficiaries of the services. Those safeguards must include-*

*(1) Adequate standards for all types of providers that provide services under the waiver;*

*(2) Assurance that the standards of any State licensure or certification requirements are met for services or for individuals furnishing services that are provided under the waiver;"*

Thus, providers of HCBS waiver services must be qualified, i.e., only those agencies and persons who meet the state's qualification requirements can provide services to waiver participants. The proposed rules will assist the State in assuring the health and welfare of waiver participants by establishing specific qualifications and requirements that providers must meet in order to render waiver services.

**4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

These rules are consistent with federal requirements. They define specific processes for meeting HCBS waiver program provider eligibility requirements as required by CMS.

**5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

ODM and ODA have been collaborating to align and bring greater consistency to their home and community-based services waiver programs. Alignment efforts will result in the addition of three new services to the Ohio Home Care Waiver (i.e., community integration, community transition, and home maintenance and chore services), and modification/replacement of existing services in the MyCare, PASSPORT and Assisted Living waivers. Waiver service specifications, provider requirements and reimbursement rates will now be consistent across both waiver systems.

Additionally, the public purpose of these regulations is also to assure the health and welfare of individuals enrolled in an ODM or ODA-administered HCBS waiver as required by 42 C.F.R. 441.302(a) through the provision of services by qualified providers. The State is doing so by establishing requirements that providers must meet to be HCBS waiver service providers.

**[CSIOhio@governor.ohio.gov](mailto:CSIOhio@governor.ohio.gov)**

**6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?**

The effectiveness of these regulations will be measured in several ways. First, regarding individuals served by the ODM- and ODA-administered waivers, it will be evident through their successful transition from institutional settings into the community using the new waiver services.

Community transition services will permit the purchase of necessary goods and services to help individuals create a safe living environment. Ongoing success will also be impacted using community integration services, which teach individuals basic skills necessary to be independent, and/or perform certain tasks for individuals, as appropriate. Home maintenance and chore services, i.e., home repairs, pest control and assistance with heavy chores, will ensure an individuals' ongoing health, safety and welfare at home, promote independence and self-sufficiency, and thereby help sustain the individual in the community.

Second, success will be measured through a provider's compliance with waiver provider standards. The expectation is that adherence to the provider requirements will result in a reduced number of incidents that threaten the health and welfare of individuals participating in the waiver program. This is evidenced, in part, by no adverse findings resulting from structural reviews and investigation of alleged provider occurrences.

**Development of the Regulation**

**7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.**

*If applicable, please include the date and medium by which the stakeholders were initially contacted.*

ODM has been convening the HCBS Rules Workgroup since May 2013, to draft and review OAC rules governing ODM-administered waivers. This stakeholder group generally meets monthly (in-person and by phone/webinar) and plays a critical role in the ODM and ODA HCBS waiver alignment initiative. All rules in this package have been provided to the HCBS Rules Workgroup for review and comment.

The HCBS Rules Workgroup email group includes approximately 900 members. The workgroup consists of individuals enrolled on ODM-administered waivers, agency and independent service providers and members of no less than the following organizations:

**8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?**

Stakeholders are of critical importance in identifying the service specifications and provider requirements for each of the HCBS waiver services. Throughout the HCBS waiver alignment initiative, stakeholders provided a tremendous amount of feedback related to the rule drafts. Often the suggested edits were incorporated, and updated drafts were vetted.

**9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?**

No scientific data was used to develop the rules or the measurable outcome of the rules.

**10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?**

Both ODM and ODA policies were considered by the interagency HCBS waiver alignment team. However, the language must meet the federal and state guidelines under which both ODM and ODA-administered waivers are permitted to operate.

**11. Did the Agency specifically consider a performance-based regulation? Please explain.**  
*Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

No. Performance-based regulations are not deemed appropriate and are not authorized by statute.

**12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?**

All regulations regarding the ODM and ODA HCBS waiver programs are promulgated by ODM and ODA and implemented by ODM and ODA, their designees and providers, as appropriate. The regulations are reviewed by the interagency legal and legislative staff to ensure there is no duplication within the rules. The HCBS waiver alignment initiative will further ensure the regulation on these providers is not duplicative.

**13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.**

A robust effort will be employed by ODM and ODA to notify HCBS waiver participants and service providers of plans regarding the implementation of aligned OAC rules. Initial notification of the rules will occur via a variety of communication methods including ODM's issuance of emails to agency and independent providers and electronic communication via the provider oversight contractor's (PCG) website.

**Adverse Impact to Business**

**14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:**

**a. Identify the scope of the impacted business community;**

Currently, there are approximately 3,879 non-agency personal care aides, 1,641 registered nurses (RN)/licensed practical nurses (LPN), and 54 home care attendants serving individuals enrolled on an ODM-administered waiver. There are also 735 Medicare-certified home health agencies, 61 otherwise-accredited agencies and approximately 578 ancillary service providers that also furnish services to individuals.

**b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and**

**OAC rule 5160-44-12** requires that home maintenance and chore service providers comply with the requirements necessary to become an ODM-approved provider or an ODA-certified provider for the specific type of task they are going to perform, including have all necessary and required licensure in place (e.g., electrician, plumber, contractor, etc.).

**OAC rule 5160-44-14** requires that community integration service providers comply with the requirements necessary to become an ODM-approved provider or an ODA-certified provider. Staff must have a high school diploma, GED, or a minimum of one year of relevant supervised work experience with a public health, human services or other community service agency, the ability to understand written activity plans and have experience advocating on behalf of individuals with chronic illnesses, behavioral health conditions, physical disabilities or developmental disabilities. Supervisors must possess a current and valid license in the state of Ohio as a registered nurse, licensed practical nurse, licensed social worker or licensed independent social worker; or a bachelor's or associate's degree in human ecology, dietetics, counseling, gerontology, social work, nursing, public health, health education or another related field; or at least three years of employment experience providing community-based social services or job coaching.

**OAC 5160-44-26** requires that community transition service providers comply with the requirements necessary to become an ODM-approved provider or an ODA-certified provider. Specifically, they must be a waiver agency, non-agency, a transition coordination service provider under contract with ODM that is also an ODM-approved or ODA-certified waiver agency or non-agency provider; or an ODA-certified assisted living waiver service provider.

**OAC rule 5160-46-04** requires providers to comply with all the requirements outlined above. These requirements are being removed from this rule and implemented in the rules listed above. In addition, the new rule includes a requirement for home health agencies to be Medicare-certified or otherwise accredited by a national accreditation body. An adult day health center must provide for replacement coverage due to theft, property damage and/or personal injury. Personal care aides must have a certificate of completion of either a competency evaluation program or training and competency evaluation program approved and conducted by the Ohio Department of Health, or the Medicare competency evaluation program for home health aides. They must also obtain and maintain first aid certification. Supplemental transportation service providers must possess a valid driver's license. Supplemental transportation service providers must also maintain collision/liability insurance for each vehicle/driver and obtain and exhibit evidence of valid motor vehicle inspections from the Ohio Highway Patrol for all vehicles used to provide services. Nonagency drivers must possess collision/liability insurance and obtain and exhibit evidence of required motor vehicle inspections. Drivers must also obtain and maintain a certificate of completion of a course in first aid.

Providers may incur costs associated with continuing education requirements and records retention pertaining to their service as set forth in these rules.

**c. Quantify the expected adverse impact from the regulation.**

*The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a “representative business.” Please include the source for your information/estimated impact.*

A prospective provider can receive home health aide/competency training through adult vocational schools. An informal survey of courses approximates this cost at \$200-\$500 depending on the program and type of instruction. State tested nurse assistant (STNA) programs costs also vary but are generally around \$400.

The cost of 12 hours of continuing education each year for a home care attendant will vary by subject, source and location. Medicaid will not reimburse providers for time spent training.

First aid training costs will also vary by program and geographic region. An informal survey of American Red Cross, American Heart Association and other first aid courses around the state suggests that the average cost is about \$70-75. Tuition can range anywhere from \$50 to over \$110, with lower rates in more rural counties.

5160-46-04 requires agencies to be Medicare-certified and to execute provider agreements as a condition of participation and compliance. The certification process from start to finish can take six to nine months. Administrative staff involved invest as much as 80 or more hours to complete the initial Medicare certification process, and five or more hours per agency administrator to secure the provider agreement from a non-agency provider and/or an accredited agency. The cost of Medicare certification varies by agency and can be more than a \$250,000 endeavor depending on the number of staff hired to support the process. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

Providers must revalidate a provider agreement every 5 years and this includes a \$569 fee. The revalidation may take from one to two hours at a rate of \$29 an hour to complete the revalidation process. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

To maintain Medicare certification, a survey is required to be completed once every three years (or sooner, depending on the number of deficiencies found on the survey). This process is an on-going process for agencies. It is a compliance issue, keeping up with all the new rules and regulations. On average an agency spends a minimum of .5 FTE of a nurse's salary on this compliance piece and if it is a larger agency, it can be 1 to 1.5 FTEs. At \$29 per hour, that could

amount to between \$60,000- \$90,000 per year. (This number does not include benefits).  
SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

"Otherwise accredited agencies" such as those accredited by The Joint Commission may spend approximately \$16,000 every three years for conducting their on-site survey. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

Agencies incur approximately \$190 in costs for RN assignment/oversight/supervision of aides at least every 60 days, or as often as every 14 days. OAC 5160-44-22 requires the RN to conduct a face-to-face visit with the LPN prior to initiating care, at least every sixty days, and at least each one hundred and twenty days (with the individual present) to evaluate that the LPN's provision of nursing services are in accordance with the plan of care. The cost of an RN visit, which is not reimbursed by ODM is \$31.50/hour. So, within the first four months the RN visits would equal at least \$126 or more that is not reimbursed by ODM. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

It is a challenge to determine the total cost of maintaining records because the number of documents needed, and time spent gathering these documents would be different for everyone. SOURCE *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

Training and competency testing have been estimated to cost an agency approximately \$2,704 for a group of ten potential personal care aides. More than \$2,200 of these costs are attributable to the cost of instruction (RN/PT instructors) over a 75-hour period. The actual aide handbook is estimated to cost approximately \$30 per person. Agencies also incur additional costs for wages, testing and materials. An independent provider can receive training through adult vocational schools (approximate cost: \$500). Some state tested nurse assistant (STNA) programs are Diversified Health Programs encompassing Aide Training to Medical Assistants. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

Twelve hours of continuing education each year is estimated to cost an agency approximately \$1,821 for a group of ten staff. This estimate includes nearly \$500 for the cost of materials/administrative costs/instruction and the remainder is for payment of wages to staff while they undergo training. Medicaid will not reimburse providers for time spent training. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

First aid training is estimated to cost an agency \$394 every two years for a group of 10 staff. This includes \$174 for the cost of materials/administrative costs/instruction and the remainder is for payment of wages to staff while they undergo training. Again, an independent provider would be responsible for training costs and would not be paid wages while receiving instruction. SOURCE: *Ohio Council for Home Care and Hospice and LeadingAge Ohio.*

Supplemental transportation as well as other waiver service providers incur \$23-\$26 in licensure fees. Additionally, transportation providers' auto insurance costs will vary by both city and vehicle. According to an analysis of auto insurance rates in Ohio conducted

by valuepenguin.com, average minimum coverage premiums range from \$428 to \$1,428 per year.

**15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?**

The assurance of HCBS waiver participants' health and welfare is integral to the Ohio HCBS waiver programs- both at the state and federal levels. Provider participation in this waiver is optional and at the provider's discretion. Compliance with program requirements is required for providers who choose to participate and may result in administrative costs associated with compliance with the requirements of these rules (e.g., training, monitoring and oversight, etc.). Failure to comply with such requirements may result in a provider's inability to be an Ohio HCBS waiver service provider.

**Regulatory Flexibility**

**16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.**

No, not applicable for this program.

**17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?**

Not applicable for this program.

**18. What resources are available to assist small businesses with compliance of the regulation?**

Providers may contact the Ohio Department of Medicaid (ODM) provider hotline at 1-800-686-1516.

  - (3) Assisting with banking;
  - (4) Organizing and coordinating health records;
  - (5) Assisting with applications for public programs including homestead exemption, the home energy assistance program and subsidized housing;
