The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent

1. Please briefly describe the draft regulation in plain language.

3769-14-12 The permit holder must furnish and maintain an ambulance for human use and for a horse.

3769-14-18 The permit holder must maintain a first aid room. The proposed change would eliminate the need for a physician and registered nurses.

- 4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

These rules are not part of any federal requirement or program

- 5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

3769-14-18 A first aid room is needed to serve the patrons at the facility.

These rules were provided to the permit holders and the licensees. The permit holders recommended these changes and the horsemen associations did not object. The commission agreed with these changes.

11. Did the Agency specifically consider a performance-based regulation? Please explain.

No, these regulations require permit holders to follow a consistent set of rules.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?
