The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Reason for Submission

1. **R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.**

Which adverse impact(s) to businesses has the agency determined the rule(s) create?

The rule(s):

- a. ☒ **Requires a license, permit, or any other prior authorization to engage in or operate a line of business.**
- b. ☐ **Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.**
- c. ☒ **Requires specific expenditures or the report of information as a condition of compliance.**
- d. ☐ **Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.**

Regulatory Intent

2. **Please briefly describe the draft regulation in plain language.**

Please include the key provisions of the regulation as well as any proposed amendments.

Rule 5160-10-01 sets forth overarching coverage and payment policy for durable medical equipment, prostheses, orthotics, and supplies (DMEPOS). The schedule of maximum payment amounts for most DMEPOS items and services is published as Appendix A to the rule. (Maximum payment amounts for oxygen and for wheelchairs are published separately.) A statement allowing the use of a certificate of medical necessity (CMN) as a prescription has been removed. Definitions of "coverage" and "frequency limit" have been added. Several points have been clarified, including the function of a payment schedule, the authority to determine coverage, the necessity of a prescription, the publication of new or newly adopted procedure codes, and the use of "miscellaneous" procedure codes. The appendix to the rule has been updated.

Rule 5160-10-16, "DMEPOS: wheelchairs," sets forth coverage and payment policies for wheelchairs, related accessories, seating options, and wheelchair rental. The revision date of the associated certificate of medical necessity (CMN) has been changed.

Rule 5160-10-22, "DMEPOS: ventilators," sets forth coverage and payment policies for ventilators. Provisions of the rule have been extended to cover multi-function ventilators. The revision date of the associated CMN has been changed.

- 3. Please list the Ohio statute(s) that authorize the agency, board or commission to adopt the rule(s) and the statute(s) that amplify that authority.**

The Ohio Department of Medicaid (ODM) is promulgating these rules under section 5164.02 of the Ohio Revised Code.

- 4. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?**

If yes, please briefly explain the source and substance of the federal requirement.

Under 42 C.F.R. 440.70 (home health services), medical supplies and equipment are mandatory services that must be covered by a state Medicaid program. The changes in these rules are not mandated by a federal requirement.

- 5. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

These rules do not include any provisions that exceed federal requirements.

- 6. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

These rules involve the coverage of and payment for DMEPOS. ODM is required to adopt such rules under R.C. 5164.02.

- 7. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?**

The success of these rules will be measured by the extent to which providers can submit claims and receive correct payment.

- 8. Are any of the proposed rules contained in this rule package being submitted pursuant to R.C. 101.352, 101.353, 106.032, 121.93, or 121.931?**

If yes, please specify the rule number(s), the specific R.C. section requiring this submission, and a detailed explanation.

No.

Development of the Regulation

- 9. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.**

If applicable, please include the date and medium by which the stakeholders were initially contacted.

Representatives of ODM and OAMES met to discuss the rules on the following dates:

Thursday, 02/28/2019	Tuesday, 09/03/2019
Friday, 04/05/2019	Tuesday, 09/10/2019
Wednesday, 07/24/2019	Tuesday, 09/17/2019
Friday, 07/26/2019	Tuesday, 10/01/2019
Tuesday, 08/13/2019	Tuesday, 10/15/2019
Tuesday, 08/20/2019	Tuesday, 11/05/2019
Tuesday, 08/27/2019	

In addition, an ODM representative spoke about changes to these rules at OAMES semiannual conferences on Thursday, 03/14/2019; on Wednesday, 09/25/2019; and on Thursday, 09/10/2020.

ODM and OAMES exchanged approximately 48 rule-related e-mail messages from Tuesday, 10/09/2018, to Tuesday, 10/06/2020.

- 10. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?**

OAMES and provider representatives thoroughly reviewed all the DMEPOS rule changes that had been implemented on 07/16/2018 and were aware of the revisions that needed to be made. Those revisions, as well as other changes and needed modifications that came to light in the course of discussion, were accepted by both OAMES and ODM and incorporated into the rules.

- 11. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?**

The use of scientific data does not apply to the development of these rules.

- 12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?**

ODM is required to adopt rules to establish coverage of and payment for Medicaid services. Whatever the policy may be, the form of the rule is the same; no alternative is readily apparent.

- 13. Did the Agency specifically consider a performance-based regulation? Please explain.**
Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.

The concept of performance-based rule-making does not apply to these rules.

- 14. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?**

In the process of revising the rules, ODM staff members took great care not to duplicate provisions. Any provision of another rule that applies specifically to these services is incorporated by reference.

- 15. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.**

The policies set forth in these rules will be incorporated into the Medicaid Information Technology System (MITS) as of the effective date of the rules. They therefore will be applied by the Department's electronic claim-payment system automatically and consistently whenever an appropriate provider submits a claim for an applicable service.

- 16. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:**

- a. Identify the scope of the impacted business community; and
- b. Identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance,); and
- c. Quantify the expected adverse impact from the regulation.
The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a "representative business." Please include the source for your information/estimated impact.

- a. Changes to policies, payment formulas, or payment amounts affect Medicaid providers of durable medical equipment, prostheses, orthoses, and supplies (DMEPOS).
- b. These rules impose no license fees or fines. The rules also do not require insurance or surety products as a condition of compliance; ODM therefore took no measures to determine the availability of a financial responsibility instrument.

Rule 5160-10-01 requires that providers of certain DMEPOS items or services possess the appropriate licensure and notify a recipient when an item has in effect been purchased through rental.

Rule 5160-10-16 specifies that participating providers must maintain and, as appropriate, submit documentation that the services were provided and were medically necessary. The adverse impact lies in the time needed by a supplier to fill out paperwork (or the electronic equivalent) to report information.

Rule 5160-10-22 predicates payment for certain professional services on the licensure status of the individual provider.

- c. The mention of licensure in these rules is descriptive rather than prescriptive. The Ohio Department of Medicaid (ODM) enrolls providers; it does not license them. Companies that deal in certain categories of DMEPOS—life-sustaining complex technology and orthotics/prosthetics—and certain practitioners—such as licensed respiratory care professionals—are subject to licensure by their respective regulatory authorities, regardless of whether they are enrolled as Medicaid providers or not. References to licensure in Medicaid rules is an acknowledgment that ODM recognizes these professional distinctions and will not pay a provider for furnishing items and services outside its licensure. DMEPOS licensure is a condition of doing business in Ohio; the cost it entails cannot be attributed to Medicaid.

Completing a prior authorization request, which must be accompanied by a completed certificate of medical necessity and involves the entry of certain information (e.g., customer identification, HCPCS codes, part numbers, descriptions of repairs), takes between five and thirty minutes of supplier staff time. This estimate is based on the professional experience of ODM staff members and on figures reported by Medicaid providers. The wage cost depends on who performs the task. The median statewide hourly wage for a billing clerk, according to the most recent Labor Market Information (LMI) data published by the Ohio Department of Job and Family Services, is \$17.89; for a medical equipment repairer, it is \$22.41; for a medical and health services manager, it is \$44.08. With an additional 30% for fringe benefits, submitting a prior authorization request costs between \$1.94 (five minutes at \$23.26 per hour) and \$28.65 (thirty minutes at \$57.30 per hour).

A requirement to notify a recipient that a condition has been met or an event has occurred (e.g., that an item has in effect been purchased through rental) necessitates a phone call, e-mail message, or other basic form of contact. Such communication is a general administrative expense, and the cost is minimal. The median statewide hourly wage for a receptionist, according to the most recent Labor Market Information (LMI) data published by the Ohio Department of Job and Family Services, is \$13.36; for an executive secretary or administrative assistant, it is \$27.59. With an additional 30% for fringe benefits, sixty seconds of communication costs between \$0.29 and \$0.60.

17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The requirement to hold a license helps to maintain professional standards.

CSIPublicComments@governor.ohio.gov

The paperwork requirements for testing, measurement, and documentation are consistent with requirements in the commercial health insurance industry and the federal Medicare program, and they are effective tools for preventing fraud, waste, and abuse and for promoting quality, encouraging cost-effectiveness, and safeguarding the health of the individuals who use the items. They help to ensure that the Ohio Medicaid program pays for medical equipment that is most appropriate to the needs of the person who will use it.

The requirement that providers contact recipients helps to ensure that individuals have complete information about the equipment they use. Such contact is efficient, user-specific, and not overly burdensome.

Regulatory Flexibility

18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

Medicaid rules outline actions all providers must take to receive Medicaid payment. They do not set forth requirements for engaging in business, and no exception is made based on the size of an entity.

19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

These rules impose no sanctions on providers.

20. What resources are available to assist small businesses with compliance of the regulation?

Information sheets and instruction manuals on various claim-related topics are readily available on the Medicaid website.

Policy questions may be directed via e-mail to the Non-Institutional Policy section of ODM's policy bureau, at noninstitutional_policy@medicaid.ohio.gov.

TO BE RESCINDED

5160-10-01 **Durable medical equipment, prostheses, orthoses, and supplies (DMEPOS): general provisions.**

(A) This rule sets forth general coverage and payment policies for durable medical equipment (DME), prostheses, orthotic devices, medical/surgical supplies, and supplier services. Policies set forth in other rules in this chapter of the Administrative Code supersede any provisions in this rule with which they conflict.

(B) Definitions that apply to rules in this chapter of the Administrative Code.

(1) "Certificate of medical necessity (CMN)" is a written statement by a practitioner attesting that a particular item or service is medically necessary for an individual.

(a) Unless a separate prescription is required, a CMN may serve also as a prescription for medicaid payment purposes.

(b) If no other form or format is specified, the CMN form specified in the relevant rule in this chapter of the Administrative Code is the default that must be used.

(c) A rendering or billing provider must obtain a required CMN before a claim can be submitted.

(d) A CMN is not invalidated by a change in an individual's status from one medicaid eligibility category to another (e.g., from fee-for-service medicaid to medicaid managed care).

(e) Renewal of lifetime certification is not required.

(f) An illegible CMN will not be accepted.

(2) "Department" is the Ohio department of medicaid or its designee. The address of the department's web site is <http://medicaid.ohio.gov>.

(3) "DMEPOS item" is a collective term for a covered durable medical equipment (DME) item, prosthetic device, orthotic device, or medical supply item furnished by an eligible provider to an eligible recipient.

- (4) "DMEPOS service" is a covered service, such as labor for repair or replacement, that is furnished by an eligible provider and is related directly to a DMEPOS item.
- (5) "Invoice price" is the price printed on the invoice sent by the manufacturer to the provider. The provider must not enter, modify, obscure, or obliterate the invoice price on any supporting document submitted to the department. Documentation of an invoice price is subject to approval by the department.
- (6) "List price" is the most current price recommended by the manufacturer for retail sale. A provider that is also a manufacturer may set the list price for a custom product so long as this figure is not greater than the prices of comparable products. The provider must not enter, modify, obscure, or obliterate the list price on any supporting document submitted to the department. Documentation of a list price is subject to approval by the department.
- (7) "Need verification" is a process by which the department determines whether to make payment for a DMEPOS item or service that exceeds the established cost threshold or frequency guideline. Because need verification is applied only to items or services for which medical necessity has been established or presumed, no extensive or in-depth clinical assessment is necessary (as it is with prior authorization). One purpose of need verification is to enable the department to consider whether the purchase of a new piece of equipment might be more cost-effective than continued repair.
- (8) "Private residence" is a recipient's place of residence other than a hospital or a long-term care facility (LTCF).

(C) Providers.

- (1) Prescribers. Eligible medicaid providers of the following types having prescriptive authority under Ohio law may certify the medical necessity of a DMEPOS item:
 - (a) A physician;
 - (b) A podiatrist;
 - (c) An advanced practice registered nurse with a relevant specialty (e.g., clinical nurse specialist, certified nurse practitioner); or
 - (d) A physician assistant.
- (2) Rendering providers. The following eligible providers may furnish a DMEPOS item or service:

- (a) For equipment considered by the state of Ohio board of pharmacy to be subject to licensure or certification in accordance with Chapter 4752. of the Revised Code or the rules promulgated under it, a provider enrolled in medicaid as a DME supplier with specialized state of Ohio board of pharmacy certification or licensure;
 - (b) For orthotic or prosthetic devices requiring compliance with section 4779.02 of the Revised Code, a provider enrolled in medicaid as a DME supplier with orthotic/prosthetic specification; or
 - (c) For all other items and services, a provider enrolled as a basic DME supplier.
- (3) Billing providers. The following eligible providers may receive medicaid payment for submitting a claim for a DMEPOS item or service:
- (a) For equipment considered by the state of Ohio board of pharmacy to be subject to licensure or certification in accordance with Chapter 4752. of the Revised Code or the rules promulgated under it, a provider enrolled in medicaid as a DME supplier with specialized state of Ohio board of pharmacy certification or licensure;
 - (b) For orthotic or prosthetic devices requiring compliance with section 4779.02 of the Revised Code, a provider enrolled in medicaid as a DME supplier with orthotic/prosthetic specification; or
 - (c) For all other items and services, a provider enrolled as a basic DME supplier.
- (4) Additional provider requirements specific to a particular DMEPOS item or service may be set forth in other rules in this chapter of the Administrative Code.

(D) Coverage.

- (1) In most cases, the provision of or payment for a medically necessary DME item or medical supply for a resident of a LTCF is the responsibility of the LTCF. In turn, the LTCF receives medicaid per diem payment on the basis of its cost report. Therefore, claims submitted for such items or supplies furnished to LTCF residents will be denied. Any exceptions are set forth in other rules in this chapter of the Administrative Code.
- (2) Separate payment may be made for a prosthesis or orthotic device supplied to a resident of a LTCF.
- (3) The provision of a medically necessary DMEPOS item requires a prescription.

- (a) Before writing a prescription for certain DMEPOS items, a practitioner must conduct a face-to-face encounter with the medicaid recipient. A list of such DMEPOS items may be found on the website of the centers for medicare and medicaid services (CMS) at <http://www.cms.gov>.
 - (b) The date of a prescription cannot precede the date of the related encounter nor can it be more than one hundred eighty days afterward.
 - (c) The encounter must be documented in the recipient's medical record.
 - (d) Unless a different length of time is specified, the date of a prescription cannot precede the first date of service by more than sixty days.
 - (e) The medical practitioner acting as prescriber must be actively involved in managing the recipient's medical care. The department may disallow a prescription written by a practitioner who has no professional relationship with the recipient.
 - (f) The prescribed DMEPOS item must be directly related to a medical condition of the recipient that the practitioner evaluates, assesses, or actively treats during the encounter.
 - (g) With proper documentation, a single encounter can serve as the basis for more than one prescription.
 - (h) No additional face-to-face encounter is necessary for a separate DMEPOS item if an encounter conducted within the preceding twelve months addresses the medical condition for which the DMEPOS item is being prescribed.
 - (i) Each prescription must specify a quantity (e.g., "TID," "thirty per month"). An unstated quantity is assumed to be one unit.
- (4) Certain DMEPOS items require prior authorization (PA). A list of such items is posted on the department's web site.
- (a) The following DMEPOS items always require PA:
 - (i) A custom or a specialized DMEPOS item;
 - (ii) A "not otherwise specified," "miscellaneous," or "unlisted" item or service; and
 - (iii) Used DME.

- (b) When PA is given, it may specify a quantity, manufacturer, model, part number, or other information identifying a particular item. When such identifying information is present, a provider may supply and subsequently submit claims for the specified items only. No changes or substitutions are allowed without explicit authorization by the department.
- (c) The department, on the basis of clinical indications, may grant PA for an item other than one that has been requested.
- (d) For items requiring PA, the provider must submit the following documentation:
 - (i) A certification, signed and dated not more than sixty days before the first date of service, in the form of a fully completed CMN or, if the need for a CMN is not specified, a prescription;
 - (ii) Pertinent related information, such as a full description of any similar item currently in possession of the recipient or an explanation of a change in the recipient's condition that warrants a change in equipment;
 - (iii) For a "not otherwise specified," "miscellaneous," or "unlisted" item, a complete description of the item (including, as applicable, the manufacturer, model or style, and size), a list of all bundled components, and an itemization of all charges; and
 - (iv) Any other information required or requested by the department, as detailed in this chapter of the Administrative Code.
- (e) A request for PA of a preparatory prosthesis must include the reason for the amputation, the date of the amputation, and an explanation of the benefit to be derived from having the recipient use a preparatory prosthesis before a definitive prosthesis is designed.
- (f) A claim for an item or service that exceeds the specified maximum quantity or frequency but does not otherwise require PA may be subject to need verification before payment will be considered.
- (g) A request for PA or need verification may be denied in cases involving malicious damage, neglect, culpable irresponsibility, or wrongful disposition.

- (5) For items not requiring PA, the provider must keep on file a certification, signed and dated not more than sixty days before the first date of service, in the form of a fully completed CMN or, if the need for a CMN is not specified, a prescription.
- (6) For an item that is shipped directly to a recipient, the shipping date is the dispensing date.
- (7) For an item that requires multiple fittings and special construction, the first date of service is the dispensing date.
- (8) If a recipient dies after measurements for a prescribed custom item have been taken but before the item has been dispensed, then payment for the item may be made under the following conditions:
 - (a) The code set description for the item indicates that it is designed or intended for a specific individual;
 - (b) The item is substantially complete and cannot be modified for use by another individual;
 - (c) No information available to the provider indicated that the death of the recipient was imminent;
 - (d) The provider can document the date of measurement; and
 - (e) On the claim, the provider reports the date of measurement as the date of service.
- (9) Any request for a DMEPOS item or service must originate with an individual recipient, the recipient's authorized representative, or a medical practitioner acting as prescriber and must be made with the recipient's full knowledge and consent.
- (10) A request that is determined by the department to have resulted from a mass screening or examination will be denied.
- (11) When instruction must be given in the safe and appropriate use of a particular DMEPOS item, it is the responsibility of the provider to ensure that the recipient or someone authorized to assist the recipient has received such instruction.
- (12) Payment for repair of a DME item, prosthetic device, or orthotic device or for purchase of a related medical supply item or service can be made only if the medical necessity of the DME item, prosthetic device, or orthotic device itself has been established. The medical necessity of an item purchased by

the department is established during the purchasing process. For an item not purchased by the department, medical necessity may be documented on an appropriate medicaid certificate of medical necessity, on a prescription that addresses all specified criteria, or on any other form that is acceptable to the department. No additional documentation of medical necessity is necessary for subsequent repairs made to an item. The determination that an item not purchased by the department is medically necessary does not indicate that the item would be authorized for purchase.

- (13) Payment may be made for covered repair, maintenance, parts, accessories, or supplies for a DME item that is owned by an individual but has not been purchased by the department. Payment for the initial service or delivery requires PA; payment for subsequent service or deliveries does not require PA.
- (14) Unless otherwise specified elsewhere in this chapter of the Administrative Code, for each claim submitted for payment, a provider must keep the following supporting documents on file:
 - (a) A completed CMN, if required;
 - (b) If no CMN is required, a legible prescription that specifies a diagnosis;
 - (c) Any other information, such as practitioner orders or chart notes, used to establish the medical necessity of the DMEPOS item;
 - (d) Any record indicating a change in an individual's needs or plan of care;
 - (e) Proof of delivery;
 - (f) Confirmation that the recipient or the recipient's authorized representative has been instructed in the safe use of the DMEPOS item, if applicable;
 - (g) A copy of the manufacturer's or dealer's warranty, if applicable; and
 - (h) A record of any repair or service that has been performed on equipment not paid for by medicaid, if applicable.
- (15) The default CMN form for general DME items and supplies is the ODM 01913, "Certificate of Medical Necessity / Request for Need Verification: General Medical Supplies and Equipment" (rev. 7/2018).
- (16) Proof is required to show that a DMEPOS item has been delivered to the intended recipient.

- (a) Providers, their employees, and anyone else having a financial interest in the delivery of DMEPOS items are prohibited from accepting delivery of an item on behalf of a medicaid recipient.
 - (b) If a provider delivers directly to a recipient, then proof of delivery must include the signature of the recipient or the recipient's authorized representative. For a DMEPOS item delivered to a resident of a LTCF, the LTCF is responsible for furnishing proof of delivery.
 - (c) If a provider uses a third-party shipper, then acceptable proof of delivery includes the shipper's tracking slip or a returned postage-paid delivery invoice.
 - (d) If a signature obtained physically at the time of delivery is not legible, then the provider or shipper must record the name of the person accepting delivery and the relationship of the person to the recipient. If the provider or shipper records such information for a particular person and maintains it in a readily accessible format, then on subsequent deliveries only the signature is required.
- (17) No unnecessary extra payment will be made for a DMEPOS item or service. If more than one DMEPOS item or service will meet a recipient's needs equally well, then the maximum payment amount may not exceed the lowest of the respective costs.
- (18) No separate payment will be made under this chapter of the Administrative Code for the following items or services:
- (a) Items presumed to be nonmedical in nature and for which no medical necessity can therefore be demonstrated, including but not limited to the following examples:
 - (i) Environmental control devices;
 - (ii) Items that have no medical benefit but are intended solely for the comfort or convenience of the user;
 - (iii) Physical fitness equipment;
 - (iv) Precautionary items (e.g., emergency alert systems);
 - (v) Training equipment (e.g., speech-teaching machines);

- (vi) Communication aids, except as specified elsewhere in this chapter of the Administrative Code;
- (vii) Educational aids; and
- (viii) Hygiene equipment (e.g., bidets);
- (b) Routine over-the-counter treatment supplies (e.g., adhesive bandages, antiseptic solutions, antibiotic ointments) and personal hygiene items (e.g., soap, diapers for children younger than three years of age);
- (c) Medical supplies or DME items that are used during a visit with a medical practitioner (i.e., that are incident to a professional service) in the practitioner's office, in a clinic, or in the recipient's private residence;
- (d) Items or services that are covered under manufacturer or dealer warranty;
- (e) Items or services for which full remuneration is made through other payment mechanisms (e.g., diagnosis-related groups, per diem payments, workers' compensation, commercial insurance);
- (f) Costs of delivery (including postage), setup and assembly, pickup, and routine cleaning and maintenance associated with a covered DME item;
- (g) Labor, measuring, casting, fitting, travel by the supplier, and shipping or mailing associated with a covered orthotic device or prosthesis;
- (h) Maintenance and repair of equipment during a rental period;
- (i) Supporting wires, power supplies, cables, or attachment kits;
- (j) Related supplies and accessories that are furnished either during a rental period or with the dispensing or delivery of a purchased equipment item and for which no payment amount exists for separate purchase or rental;
- (k) A service call in addition to materials and labor;
- (l) Repairs, adjustments, or modifications that are made within ninety days after delivery or during the total rental period, unless necessitated by major changes in the recipient's condition;
- (m) Instruction of the recipient or the recipient's authorized representative in the safe use of an item; and

- (n) Education, training, instruction, counseling, or monitoring conducted in support of an individual's ordered treatment plan.
- (19) Payment is not available for DMEPOS items that duplicate or conflict with another item currently in the recipient's possession, regardless of payment or supply source. Providers are responsible for ascertaining whether duplication or conflict exists.
- (20) Certain DMEPOS items may be dispensed on a recurring basis. A provider must confirm a recipient's current need before the next delivery. If DMEPOS items are routinely delivered without necessary confirmation of need, then any payment for excess quantities is subject to recovery.
- (21) No prescription for disposable items dispensed on a recurring basis (e.g., incontinence garments, wound dressings) can be renewed earlier than ninety days before the expiration of the current prescription.
- (22) Most covered DME items are purchased and become the property of the recipient. Some covered DME items that require ongoing servicing are rented exclusively. Some covered DME items may be rented on a short-term basis, purchased, or rented and then purchased.
 - (a) The short-term rental of a covered DME item other than a wheelchair requires PA, which may be given if rental is determined to be more cost-effective than purchase.
 - (b) Unless a different length of time is specified elsewhere in this chapter of the Administrative Code, the initial rental period must not exceed six months.
 - (c) PA may be given for additional rental periods.
 - (d) Regardless of its authorized length, a rental period ends when the rented item is no longer medically necessary.
 - (e) A monthly rental payment secures the rented item for the entire calendar month.
 - (f) During a rental period and for ninety days afterward, all rental amounts paid apply toward purchase.
 - (g) The department reserves the right to determine whether an item will be rented or purchased.

- (h) The provider must notify the recipient when an item in effect has been purchased through rental.
- (23) Certain medical supply items (e.g., gauze pads, wound fillers/packing) are dispensed in bulk. No payment amount per unit has been established for such items; instead, an overall payment limit per period is specified. The charge submitted by the provider must not exceed the manufacturer's suggested list price for the quantity of the item.
- (24) The purchase of torsion cables may be authorized only for the treatment of children with neuromuscular diseases and related conditions. Requests for torsion cables to treat positional deformities will be denied because of anticipated resolution that occurs with maturation.
- (25) No provider may submit a claim for a DMEPOS item or service before the item or service has been supplied.

(E) Claim payment.

- (1) The payment amount specified in another rule in this chapter of the Administrative Code supersedes any payment amount established by provisions in this rule.
- (2) For a covered DMEPOS item or service represented by a new healthcare common procedure coding system (HCPCS) procedure code that takes effect at the beginning of a calendar year, the initial maximum payment amount is established in accordance with rule 5160-1-60 of the Administrative Code.
- (3) For any other covered DMEPOS item or service, the payment amount is the lesser of the submitted charge (which must reflect any discounts or rebates available to the provider at the time of claim submission but need not reflect subsequent discounts or rebates) or the first applicable medicaid maximum from the following ordered list:
 - (a) For a "by report" DMEPOS item or service, an amount determined on a case-by-case basis;
 - (b) For a supply item for which payment is determined by PA, whichever of the following two figures applies or the lesser of the two if both apply:
 - (i) Seventy-two per cent of the list price; or
 - (ii) One hundred forty-seven per cent of the invoice price (minus discounts or rebates);

- (c) For a non-supply DMEPOS item or service for which payment is determined by PA, an amount determined on a case-by-case basis;
- (d) For a bulk item having an overall payment limit per period, the submitted charge;
- (e) For the authorized purchase of a DMEPOS item in used condition, eighty per cent of the payment amount for the item in new condition;
- (f) For monthly payment for a "rental/purchase" DME item, ten per cent of the medicaid maximum specified for purchase;
- (g) For a professional service for which separate payment is made (e.g., a certain type of evaluation), the applicable amount listed in appendix DD to rule 5160-1-60 of the Administrative Code; or
- (h) The amount listed in the appendix to this rule.

5160-10-01

Durable medical equipment, prostheses, orthoses, and supplies (DMEPOS): general provisions.

(A) This rule sets forth general coverage and payment policies for durable medical equipment (DME), prostheses, orthotic devices, medical/surgical supplies, and supplier services.

(1) Additional conditions specific to a particular DMEPOS item or service may be set forth in other rules in this chapter of the Administrative Code.

(2) Policies set forth in other rules in this chapter supersede any provisions in this rule with which they conflict.

(B) Definitions that apply to rules in this chapter of the Administrative Code.

(1) "Certificate of medical necessity (CMN)" is a written statement by a practitioner attesting that a particular item or service is medically necessary for an individual.

(a) If no other form or format is specified, the CMN form specified in the relevant rule in this chapter of the Administrative Code is the default that is to be used.

(b) A CMN is not invalidated by a change in an individual's status from one medicaid eligibility category to another (e.g., from fee-for-service medicaid to medicaid managed care).

(c) Renewal of lifetime certification is not necessary.

(d) An illegible CMN will not be accepted.

(2) "Coverage" is the principle that medicaid payment is routinely made for a particular medically necessary item or service.

(a) The department maintains several payment schedules of covered items and services, which are posted on the department's web site. These schedules are neither all-inclusive nor exclusive. Neither the appearance of an item or service on a payment schedule nor its absence determines, in and of itself, coverage or non-coverage.

(b) For most covered items and services, medical necessity has already been established and is simply confirmed on a case-by-case basis through

the completion of a CMN (when applicable). For certain items and services, medical necessity and coverage are established through a prior authorization (PA) process.

- (c) Only the department can determine coverage. Providers cannot decide on their own that an item or service is not covered or would not be covered with PA. Providers should submit a PA request to obtain an official decision.
- (3) "Department" is the Ohio department of medicaid or, when applicable, its designee. The address of the department's web site is <http://medicaid.ohio.gov>.
- (4) "DMEPOS item" is a collective term for a covered durable medical equipment (DME) item, prosthetic device, orthotic device, or medical supply item furnished by an eligible provider to an eligible recipient.
- (5) "DMEPOS provider" is a collective term for the following eligible providers:
- (a) A basic DME supplier, which holds licensure or certification in accordance with Chapter 4752. of the Revised Code and furnishes items other than life-sustaining or technologically sophisticated equipment;
 - (b) A specialized DME supplier, which holds licensure or certification in accordance with Chapter 4752. of the Revised Code and furnishes life-sustaining or technologically sophisticated equipment; and
 - (c) An orthotics and prosthetics (O&P) supplier, which holds licensure or certification in accordance with section 4779.02 of the Revised Code and furnishes orthotic and prosthetic devices.
- (6) "DMEPOS service" is a covered service, such as labor for repair or replacement, that is furnished by an eligible provider and is related directly to a DMEPOS item.
- (7) "Frequency limit" is the average expected useful life of a DMEPOS item. A frequency limit is not an absolute restriction but a general guideline and therefore may be exceeded with medical justification. For certain DMEPOS items that can be dispensed in multiple units (such as fasteners or items with left/right orientation), a frequency limit applies to each unit that is requested.
- (8) "Invoice price" is the price printed on the invoice sent by the manufacturer to the provider. The provider is not permitted to enter, modify, obscure, or obliterate the invoice price on any supporting document submitted to the department. Documentation of an invoice price is subject to approval by the department.

(9) "Long-term care facility (LTCF)" is a collective term for a nursing facility (NF), a skilled nursing facility (SNF), and an intermediate care facility for individuals with intellectual disabilities (ICFIID).

(10) "Need verification" is a process by which the department determines whether to make payment for a DMEPOS item or service that exceeds the established cost threshold or frequency guideline. Because need verification is applied only to items or services for which medical necessity has been established or presumed, no extensive or in-depth clinical assessment is necessary (as it is with prior authorization). One purpose of need verification is to enable the department to consider whether the purchase of a new piece of equipment might be more cost-effective than continued repair.

(11) "Private residence" is a recipient's place of residence other than a long-term care facility (LTCF).

(C) Coverage.

(1) The provision of or payment for a medically necessary DME item or medical supply for a resident of a LTCF is the responsibility of the LTCF, in accordance with Chapter 5160-3 of the Administrative Code. In turn, the LTCF receives medicaid per diem payment on the basis of its cost report. Therefore, claims submitted for such items or supplies furnished to LTCF residents will be denied. Any exceptions are set forth in other rules in this chapter of the Administrative Code.

(2) Separate payment may be made for a prosthesis or orthotic device supplied to a resident of a LTCF.

(3) A medically necessary DMEPOS item can be dispensed only by prescription. The following provisions apply:

(a) Eligible medicaid providers of the following types having prescriptive authority under Ohio law may certify the medical necessity of a DMEPOS item:

(i) A physician;

(ii) A podiatrist;

(iii) An advanced practice registered nurse with a relevant specialty; or

(iv) A physician assistant.

- (b) Before writing a prescription for certain DMEPOS items, a practitioner conducts a face-to-face encounter with the medicaid recipient and documents it in the recipient's medical record. Items for which an encounter is a prerequisite are listed on the website of the centers for medicare and medicaid services (CMS) at <http://www.cms.gov>.
- (c) A prescription cannot be written before an encounter.
- (d) Unless a different length of time is specified, a prescription for a particular DMEPOS item is valid for sixty days, regardless of whether it is based on a face-to-face encounter.
- (e) A single encounter can serve for twelve months as the basis for a single prescription or for more than one prescription addressing the same medical condition for which a DMEPOS item is being prescribed.
- (f) The medical practitioner acting as prescriber needs to be actively involved in managing the recipient's healthcare. The department may disallow a prescription written by a practitioner who has no professional relationship with the recipient.
- (g) There needs to be a direct relationship between the prescribed DMEPOS item and a medical condition of the recipient that the practitioner evaluates, assesses, or actively treats during the encounter.
- (h) Each prescription should specify a quantity (e.g., "TID," "thirty per month"). An unstated quantity is assumed to be one unit.
- (4) A prescription serves as an order to dispense, and a DMEPOS provider may dispense an item on receipt of a valid prescription. Payment, however, depends on the establishment of medical necessity, which is separate from the prescription process. For most DMEPOS items, a provider has the applicable CMN completed and signed by a prescribing practitioner after the prescription is written and before it expires. If no CMN is specified for an item, then the prescription itself establishes medical necessity.
- (5) Certain DMEPOS items are subject to prior authorization (PA). A list of such items is posted on the department's web site.

 - (a) The following DMEPOS items are always subject to PA:

 - (i) A custom or a specialized DMEPOS item;

- (ii) A "not otherwise specified," "miscellaneous," or "unlisted" item or service; and
 - (iii) Used DME.
 - (b) When PA is given, it may specify a quantity, manufacturer, model, part number, or other information identifying a particular item. When such identifying information is present, a provider may supply and subsequently submit claims for the specified items only. No changes or substitutions are allowed without explicit authorization by the department.
 - (c) The department, on the basis of clinical indications, may grant PA for an item other than one that has been requested.
 - (d) For items subject to PA, the provider submits the following documentation within sixty days after the date on which the CMN was signed (or, if there is no applicable CMN, within the validity period of the prescription):
 - (i) The fully completed and signed CMN (or, if there is no applicable CMN, the prescription);
 - (ii) Related information, such as a full description of any similar item currently in possession of the recipient or an explanation of a change in the recipient's condition that warrants a change in equipment;
 - (iii) For a "not otherwise specified," "miscellaneous," or "unlisted" item, a complete description of the item (including, as applicable, the manufacturer, model or style, and size), a list of all bundled components, and an itemization of all charges; and
 - (iv) Any other information requested by the department, as detailed in this chapter of the Administrative Code.
 - (e) A request for PA of a preparatory prosthesis includes the reason for the amputation, the date of the amputation, and an explanation of the benefit to be derived from having the recipient use a preparatory prosthesis before a definitive prosthesis is designed.
 - (f) A claim for an item or service that exceeds the specified maximum quantity or frequency but is not otherwise subject to PA may be subject to need verification before payment will be considered.

- (g) A request for PA or need verification may be denied in cases involving malicious damage, neglect, culpable irresponsibility, or wrongful disposition.
- (6) For items not subject to PA, the provider keeps on file the prescription and, if applicable, the fully completed and signed CMN. The provider cannot submit a claim until these documents have been obtained.
- (7) For an item that is shipped directly to a recipient, the shipping date is the dispensing date.
- (8) For an item that needs multiple fittings and special construction, the first date of service is the dispensing date.
- (9) If a recipient dies after measurements for a prescribed custom item have been taken but before the item has been dispensed, then payment for the item may be made under the following conditions:
 - (a) The code set description for the item indicates that it is designed or intended for a specific individual;
 - (b) The item is substantially complete and cannot be modified for use by another individual;
 - (c) No information available to the provider indicated that the death of the recipient was imminent;
 - (d) The provider can document the date of measurement; and
 - (e) On the claim, the provider reports the date of measurement as the date of service.
- (10) Any request for a DMEPOS item or service needs to originate with an individual recipient, the recipient's authorized representative, or a medical practitioner acting as the prescriber with the recipient's full knowledge and consent.
- (11) A request that is determined by the department to have resulted from a mass screening or examination will be denied.
- (12) When instruction in the safe and appropriate use of a particular DMEPOS item is indicated, it is the responsibility of the provider to ensure that the recipient or someone authorized to assist the recipient has received such instruction.

- (13) Payment for repair of a DME item, prosthetic device, or orthotic device or for purchase of a related medical supply item or service can be made only if the medical necessity of the DME item, prosthetic device, or orthotic device itself has been established. The medical necessity of an item purchased by the department is established during the purchasing process. For an item not purchased by the department, medical necessity may be documented on an appropriate medicaid certificate of medical necessity, on a prescription that addresses all specified criteria, or on any other form that is acceptable to the department. No additional documentation of medical necessity is necessary for subsequent repairs made to an item. The determination that an item not purchased by the department is medically necessary does not indicate that the item would be authorized for purchase.
- (14) Payment may be made for covered repair, maintenance, parts, accessories, or supplies for a DME item that is owned by an individual but has not been purchased by the department. Payment for the initial service or delivery is subject to PA; payment for subsequent service or deliveries is not subject to PA.
- (15) Unless otherwise specified elsewhere in this chapter of the Administrative Code, for each claim submitted for payment, a provider keeps the following supporting documents on file:
- (a) A completed and signed CMN, if needed;
 - (b) If no CMN is needed, a legible prescription that specifies a diagnosis;
 - (c) Information such as practitioner orders or chart notes, used to establish the medical necessity of the DMEPOS item;
 - (d) Any record indicating a change in an individual's needs or plan of care;
 - (e) Proof of delivery;
 - (f) Confirmation that the recipient or the recipient's authorized representative has been instructed in the safe use of the DMEPOS item, if applicable;
 - (g) A copy of the manufacturer's or dealer's warranty, if applicable; and
 - (h) A record of any repair or service that has been performed on equipment not paid for by medicaid, if applicable.
- (16) The default CMN form for general DME items and supplies is the ODM 01913, "Certificate of Medical Necessity / Request for Need Verification: General Medical Supplies and Equipment" (rev. XX/2021).

- (17) Proof is needed to show that a DMEPOS item has been delivered to the intended recipient.
- (a) Providers, their employees, and anyone else having a financial interest in the delivery of DMEPOS items are not permitted to accept delivery of an item on behalf of a medicaid recipient.
 - (b) If a provider delivers directly to a recipient, then acceptable proof of delivery includes the signature of the recipient or the recipient's authorized representative. For a DMEPOS item delivered to a resident of a LTCF, the LTCF is responsible for furnishing proof of delivery.
 - (c) If a provider uses a third-party shipper, then acceptable proof of delivery includes the shipper's tracking slip or a returned postage-paid delivery invoice.
 - (d) If a signature obtained physically at the time of delivery is not legible, then the provider or shipper records the name of the person accepting delivery and the relationship of the person to the recipient. If the provider or shipper records such information for a particular person and maintains it in a readily accessible format, then on subsequent deliveries only the signature is needed.
- (18) If more than one DMEPOS item or service will meet a recipient's needs, then the maximum payment amount cannot exceed the least costly alternative, in accordance with rule 5160-1-01 of the Administrative Code.
- (19) No separate payment will be made under this chapter of the Administrative Code for the following items or services:
- (a) Items presumed to be nonmedical in nature and for which no medical necessity can therefore be demonstrated, including but not limited to the following examples:
 - (i) Environmental control devices;
 - (ii) Items that have no medical benefit but are intended solely for the comfort or convenience of the user;
 - (iii) Physical fitness equipment;
 - (iv) Precautionary items (e.g., emergency alert systems);
 - (v) Training equipment (e.g., speech-teaching machines);

- (vi) Communication aids, except as specified elsewhere in this chapter of the Administrative Code;
 - (vii) Educational aids; and
 - (viii) Hygiene equipment (e.g., bidets);
- (b) Routine over-the-counter treatment supplies (e.g., adhesive bandages, antiseptic solutions, antibiotic ointments) and personal hygiene items (e.g., soap, diapers for children younger than three years of age);
- (c) Medical supplies or DME items that are used during a visit with a medical practitioner (i.e., that are incidental to a professional service) in the practitioner's office, in a clinic, or in the recipient's private residence;
- (d) Items or services that are covered under manufacturer or dealer warranty;
- (e) Items or services for which full remuneration is made through other payment mechanisms;
- (f) Costs of delivery (including postage), setup and assembly, pickup, and routine cleaning and maintenance associated with a covered DME item;
- (g) Labor, measuring, casting, fitting, travel by the supplier, and shipping or mailing associated with a covered orthotic device or prosthesis;
- (h) Maintenance and repair of equipment during a rental period;
- (i) Supporting wires, power supplies, cables, or attachment kits;
- (j) Related supplies and accessories that are furnished either during a rental period or with the dispensing or delivery of a purchased equipment item and for which no payment amount exists for separate purchase or rental;
- (k) A service call in addition to materials and labor;
- (l) Repairs, adjustments, or modifications that are made within ninety days after delivery or during the total rental period, unless necessitated by major changes in the recipient's condition;
- (m) Instruction of the recipient or the recipient's authorized representative in the safe use of an item; and
- (n) Education, training, instruction, counseling, or monitoring conducted in support of an individual's ordered treatment plan.

- (20) Payment is not available for DMEPOS items that duplicate or conflict with another item currently in the recipient's possession, regardless of payment or supply source. Providers are responsible for ascertaining whether duplication or conflict exists.
- (21) Certain DMEPOS items may be dispensed on a recurring basis. A provider is to confirm a recipient's current need before the next delivery. If DMEPOS items are routinely delivered without necessary confirmation of need, then any payment for excess quantities is subject to recovery.
- (22) No prescription for disposable items dispensed on a recurring basis (e.g., incontinence garments, wound dressings) can be renewed earlier than ninety days before the expiration of the current prescription.
- (23) Most covered DME items are purchased and become the property of the recipient. Some covered DME items that need ongoing servicing are rented exclusively. Some covered DME items may be rented on a short-term basis, purchased, or rented and then purchased.
 - (a) The short-term rental of a covered DME item other than a wheelchair is subject to PA, which may be given if rental is determined to be more cost-effective than purchase.
 - (b) Unless a different length of time is specified elsewhere in this chapter of the Administrative Code, the initial rental period does not exceed six months.
 - (c) PA may be given for additional rental periods.
 - (d) Regardless of its authorized length, a rental period ends when the rented item is no longer medically necessary.
 - (e) A monthly rental payment secures the rented item for the entire calendar month.
 - (f) During a rental period and for ninety days afterward, all rental amounts paid apply toward purchase.
 - (g) The department reserves the right to determine whether an item will be rented or purchased.
 - (h) The provider is to notify the recipient when an item in effect has been purchased through rental.

- (24) Medical supply items such as gauze pads and wound fillers/packing are dispensed in bulk. No payment amount per unit has been established for such items; instead, an overall payment limit per period is specified. The charge submitted by the provider cannot exceed one hundred forty-seven per cent of the invoice price for the quantity of the item.
- (25) The purchase of torsion cables may be authorized only for the treatment of children with neuromuscular diseases and related conditions. Requests for torsion cables to treat positional deformities will be denied because of anticipated resolution that occurs with maturation.
- (26) No provider can submit a claim for a DMEPOS item or service before the item or service has been supplied.

(D) Claim payment.

- (1) The payment amount specified in another rule in this chapter of the Administrative Code supersedes any payment amount established by provisions in this rule.
- (2) For a covered DMEPOS item or service represented by a new or newly adopted healthcare common procedure coding system (HCPCS) procedure code, the initial maximum payment amount may be established in accordance with rule 5160-1-60 of the Administrative Code. New or newly adopted HCPCS codes are published in a separate table on the department's web site and remain there until the appropriate DMEPOS payment schedules can be updated.
- (3) For any covered DMEPOS item or service not represented by a new or newly adopted HCPCS procedure code, the payment amount is the lesser of the submitted charge (which is to reflect any discounts or rebates available to the provider at the time of claim submission but need not reflect subsequent discounts or rebates) or the first applicable medicaid maximum from the following ordered list:

 - (a) For a "by report" DMEPOS item or service, an amount determined on a case-by-case basis;
 - (b) For a supply item for which payment is determined by PA, one hundred forty-seven per cent of the invoice price (minus discounts or rebates);
 - (c) For a non-supply DMEPOS item or service for which payment is determined by PA, an amount determined on a case-by-case basis;
 - (d) For a bulk item having an overall payment limit per period, the submitted charge;

- (e) For the authorized purchase of a DMEPOS item in used condition, eighty per cent of the payment amount for the item in new condition;
 - (f) For monthly payment for a "rental/purchase" DME item, ten per cent of the medicaid maximum specified for purchase;
 - (g) For a professional service for which separate payment is made (such as an evaluation), the applicable amount listed in appendix DD to rule 5160-1-60 of the Administrative Code; or
 - (h) The amount listed in the appendix to this rule.
- (4) In accordance with the principle stated in rule 5160-1-60 of the Administrative Code concerning correct coding, a "not otherwise specified," "miscellaneous," or "unlisted" procedure code of the appropriate DMEPOS type may be reported on a claim only if no other code listed on a payment schedule indicates coverage of the item or service. The department may deny a claim that omits necessary information or that includes a "not otherwise specified," "miscellaneous," or "unlisted" procedure code when an appropriate procedure-specific code is available.

DMEPOS: wearable cardioverter-defibrillators.

(A) Prescribing provider. Only a physician experienced in the management of patients at risk for sudden cardiac death (SCD), such as a cardiologist, electrophysiologist, or cardiac surgeon, may prescribe a wearable cardioverter-defibrillator (WCD).

(B) Coverage.

(1) Separate payment may be made for a WCD furnished to a resident of a long-term care facility (LTCF).

(2) Payment may be made for a WCD on a rental basis only.

(3) The default certificate of medical necessity (CMN) is form ODM XXXXX, "Certificate of Medical Necessity: Wearable Cardioverter-Defibrillators" (XX/2021).

(4) A completed CMN confirms that the following criteria are met:

(a) The individual is at high risk of SCD, established by the occurrence or presence of medically indicated factors including but not limited to the following examples:

(i) A documented episode of ventricular fibrillation or sustained ventricular tachyarrhythmia lasting at least thirty seconds, either spontaneous or induced during an electrophysiologic (EP) study but not attributable to a transient or reversible cause and not occurring within the first forty-eight hours after an acute myocardial infarction;

(ii) Familial or hereditary conditions with a high risk of life-threatening ventricular tachyarrhythmia, such as long QT syndrome or hypertrophic cardiomyopathy; or

(iii) Recent myocardial infarction, dilated cardiomyopathy, newly diagnosed non-ischemic cardiomyopathy, coronary artery bypass graft (CABG), or percutaneous coronary intervention (PCI), with a left ventricular ejection fraction (measured during either the acute or post-acute phase) of not greater than thirty-five per cent; and

(b) Treatment of the individual with an implantable cardioverter-defibrillator (ICD) is precluded by any of the following considerations:

- (i) A currently implanted ICD needs to be explanted;
 - (ii) An infection prevents initial implantation of an ICD; or
 - (iii) Some condition or circumstance, either temporary or permanent, contraindicates ICD implantation surgery.
- (c) The individual is able to wear a properly fitted WCD at least ninety per cent of the time (an average total of at least twenty-one and a half hours per day).
- (5) A WCD is generally covered for a period of ninety days at a time. Additional ninety-day coverage periods may be authorized if the provider submits documentation, such as a detailed statement signed by the treating physician that the WCD continues to be medically necessity and the individual continues to use it correctly. Authorization may be given for indefinite (lifetime) coverage if the provider submits appropriate documentation, such as a detailed statement signed by the treating physician and a description of the circumstances that preclude future implantation of an ICD.
- (6) Rental payment includes necessary replacement of batteries, electrodes, and the cover garment.

DMEPOS: bathing seats.

(A) Definitions and explanations.

- (1) "Assistance," for purposes of this rule, is help with bathing-related tasks that individuals cannot accomplish by themselves, such as getting into and out of a bathing chair, moving in and out of the bathing area, or fastening and unfastening securements and positioners. The term does not include actual bathing (soaping, shampooing, scrubbing, rinsing).
- (2) "Bathing seat" is a collective term for an item or device that enables an individual to sit securely and comfortably while taking a bath or shower.
- (3) The primary healthcare purpose of a bathing seat is to promote cleanliness. Certain bathing seats can also function as commodes, and many commodes can be used as bathing seats. An item that functions equally well as a bathing seat and as a commode is deemed to be a commode for medicaid payment purposes.

(B) Providers.

- (1) Prescribing providers. Eligible medicaid providers of the following types, acting within their scope of practice, may prescribe a bathing seat and may certify the medical necessity of a bathing seat when such certification is needed:
 - (a) A physician;
 - (b) An advanced practice registered nurse with a relevant specialty;
 - (c) A physician assistant; or
 - (d) A podiatrist.
- (2) Evaluators. The following professionals may evaluate an individual's particular needs for a bathing seat:
 - (a) A physician, including a physiatrist, orthopedic surgeon, and neurologist;
 - (b) An advanced practice registered nurse with a relevant specialty;
 - (c) A physician assistant;
 - (d) A podiatrist;

(e) A physical therapist; or

(f) An occupational therapist.

(3) Rendering providers. A medicaid provider enrolled as a basic durable medical equipment (DME) supplier may furnish a bathing seat, part, or accessory or may render a related service.

(4) Billing providers. A medicaid provider enrolled as a basic DME supplier may receive medicaid payment for submitting a claim for a bathing seat, part, accessory, or related service.

(C) Coverage.

(1) Principles.

(a) Before the department will make payment for a bathing seat, its medical necessity is determined and certified. If documentation of medical necessity is needed, the default certificate of medical necessity (CMN) is form ODM XXXXX, "Certificate of Medical Necessity: Bathing Seats" (XX/2021).

(b) If more than one type of bathing seat will meet an individual's needs and satisfy the criteria of medical necessity, then the maximum payment amount is the lowest of the respective costs, regardless of which bathing seat is supplied.

(c) The provision of or payment for the purchase of a medically necessary bathing seat for a resident of a long-term care facility (LTCF) is the responsibility of the LTCF. Therefore, claims submitted to the department for bathing seats furnished to LTCF residents will be denied.

(d) Bathing seats on wheels are not to be used simply as transport chairs from which an individual then transfers to a bathtub, standard shower enclosure, or stationary bathing seat. A request for a bathing seat on wheels is therefore not appropriate if the individual does not have a roll-in shower enclosure.

(e) A back support for use in a bathtub is not a bathing seat.

(2) Classification. For purposes of this rule, bathing seats are classified into three categories (basic, intermediate, complex) and ten total subcategories. The descriptions of the categories and subcategories given here are meant to be generally illustrative and neither all-inclusive nor exclusive.

(a) Basic bathing seats.

(i) Basic bath/shower chair.

(a) Appearance: It looks like a simple chair. It does not have wheels. It may have a back, armrests, or both. It may have any number of legs (including none). It is not wall-mounted.

(b) Construction: It is a standard off-the-shelf product.

(c) Positioning: It does not recline nor have tilt-in-space capability. It does not have securement straps.

(d) Independent use: The individual is able to use it without assistance.

(e) Commode capability: It cannot be used as a commode.

(f) Assessment and documentation: No face-to-face evaluation is needed. No PA is needed. No CMN is needed in addition to the prescription.

(ii) Basic bath/shower bench.

(a) Appearance: It looks like a simple bench. It does not have wheels. It may have a back, armrests, or both. It may have any number of legs (including none). It is not wall-mounted.

(b) Construction: It is a standard off-the-shelf product.

(c) Positioning: It does not recline nor have tilt-in-space capability. It does not have securement straps.

(d) Independent use: The individual is able to use it without assistance.

(e) Commode capability: It cannot be used as a commode.

(f) Assessment and documentation: No face-to-face evaluation is needed. No PA is needed. No CMN is needed in addition to the prescription.

(iii) Basic stationary transfer bath/shower bench.

(a) Appearance: It looks like a simple transfer bench, which straddles the side of the bathtub. It has a stationary seat. It does not have wheels. It may have a back, armrests, or both. It may have any number of legs (including none). It is not wall-mounted.

(b) Construction: It is a standard off-the-shelf product.

(c) Positioning: It does not recline nor have tilt-in-space capability. It does not have securement straps.

(d) Independent use: The individual is able to use it without assistance.

(e) Commode capability: It cannot be used as a commode.

(f) Assessment and documentation: No face-to-face evaluation is needed. No PA is needed. No CMN is needed in addition to the prescription.

(iv) Basic sliding transfer bath/shower bench.

(a) Appearance: It looks like a simple transfer bench, which straddles the side of the bathtub. It has a sliding seat, which may swivel. It does not have wheels. It may have a back, armrests, or both. It may have any number of legs (including none). It is not wall-mounted.

(b) Construction: It is a standard off-the-shelf product.

(c) Positioning: It does not recline nor have tilt-in-space capability. It does not have securement straps.

(d) Independent use: The individual is able to use it (and operate the sliding seat) without assistance.

(e) Commode capability: It cannot be used as a commode.

(f) Assessment and documentation: No face-to-face evaluation is needed. No PA is needed. No CMN is needed in addition to the prescription.

(v) Basic shower chair commode.

- (a) Appearance: It looks like a standard wheelchair (two large rear wheels and two eight-inch front casters) or transport chair (four small casters or two small front casters and two slightly larger rear wheels). It generally has a back and may have footrests. It does not have a separate base.
- (b) Construction: The frame may be made either of metal such as steel or aluminum or of a polymer such as polyvinyl chloride (PVC).
- (c) Positioning: It may recline but does not have tilt-in-space capability. It may have securement straps.
- (d) Independent use: The individual is able to use it without assistance.
- (e) Commode capability: It is used as a commode.
- (f) Assessment and documentation: No face-to-face evaluation is needed. No PA is needed. No CMN is needed in addition to the prescription.

(b) Intermediate shower seats.

(i) Intermediate non-assisted shower chair.

- (a) Appearance: It looks like a standard wheelchair (two large rear wheels and two eight-inch front casters) or transport chair (four small casters or two small front casters and two slightly larger rear wheels). It does not have a separate base.
- (b) Construction: The frame may be made of steel or aluminum but not PVC.
- (c) Positioning: It may recline but does not have tilt-in-space capability. It may have basic securement straps and positioners.
- (d) Independent use: The individual is able to use it without assistance.
- (e) Commode capability: It should be used as a commode if a commode is needed. (A request for a separate commode

will not be granted unless a medical reason contraindicates a bathing seat with a commode function.)

(f) Assessment and documentation: A face-to-face evaluation is needed. PA is needed. A CMN is needed in addition to the prescription.

(ii) Intermediate assisted single-position shower chair.

(a) Appearance: It looks like a transport chair (four small casters or two small front casters and two slightly larger rear wheels). It does not have a separate base.

(b) Construction: The frame may be made of steel or aluminum but not PVC.

(c) Positioning: It does not recline nor have tilt-in-space capability. It may have basic securement straps and positioners.

(d) Independent use: The individual needs assistance in using it.

(e) Commode capability: It should be used as a commode if a commode is needed. (A request for a separate commode will not be granted unless a medical reason contraindicates a bathing seat with a commode function.)

(f) Assessment and documentation: A face-to-face evaluation is needed. PA is needed. A CMN is needed in addition to the prescription.

(iii) Intermediate assisted multi-position shower chair.

(a) Appearance: It looks like an examination or treatment chair on small wheels such as casters. It may have a separate base.

(b) Construction: The frame may be made of steel or aluminum but not PVC.

(c) Positioning: It may recline in multiple positions but does not have tilt-in-space capability. It may have basic securement straps and positioners. It may have a head support.

(d) Independent use: The individual needs assistance in using it.

(e) Commode capability: It should be used as a commode if a commode is needed. (A request for a separate commode will not be granted unless a medical reason contraindicates a bathing seat with a commode function.)

(f) Assessment and documentation: A face-to-face evaluation is needed. PA is needed. A CMN is needed in addition to the prescription.

(c) Complex bathing seats.

(i) Complex positioning shower chair.

(a) Appearance: It looks like a complex wheelchair. It has small wheels such as casters. It has no separate base.

(b) Construction: The frame may be made of steel or aluminum but not PVC.

(c) Positioning: It may recline in multiple positions. It generally has basic securement straps and positioners. It may have multiple support devices for the head, torso, arms, and legs.

(d) Independent use: The individual needs assistance in using it.

(e) Commode capability: It should be used as a commode if a commode is needed. (A request for a separate commode will not be granted unless a medical reason contraindicates a bathing seat with a commode function.)

(f) Assessment and documentation: A face-to-face evaluation is needed. PA is needed. A CMN is needed in addition to the prescription.

(ii) Complex transfer bath/shower chair.

(a) Appearance: It consists of a rolling base with a chair seat and small wheels such as casters, a stationary base in the bathing area, and a connecting track or rail that permits the chair seat to slide from the rolling base to the stationary base (and thereby transfer the individual to the inside of the bathtub or shower enclosure).

- (b) Construction: The frame may be made of steel or aluminum but not PVC.
- (c) Positioning: It may recline in multiple positions and may have tilt-in-space capability. It generally has basic securement straps and positioners. It may have multiple support devices for the head, torso, arms, and legs.
- (d) Independent use: The individual may need assistance in using it.
- (e) Commode capability: It should be used as a commode if a commode is needed. (A request for a separate commode will not be granted unless a medical reason contraindicates a bathing seat with a commode function.)
- (f) Assessment and documentation: A face-to-face evaluation is needed. PA is needed. A CMN is needed in addition to the prescription. This type of bathing seat may be requested only when there is no other appropriate form of transfer in and out of the bathing space. Because the rolling base with chair seat functions as a transport chair, a request for a separate transport chair for travel to and from the bathing area will be denied.

(3) Purchase.

- (a) Payment for intermediate and complex bathing seats is subject to prior authorization (PA), which may be given only if a face-to-face evaluation of need has been performed not earlier than one hundred eighty days before the submission of the PA request.
- (b) The purchase of a bathing seat includes the bathing seat, delivery, setup, instruction and training in use, adjustments or minor modifications, and other parts or accessories (either substituted or added on). No separate payment is made for these items.
- (c) Authorization will not be given for the purchase of more than one bathing seat for concurrent use by an individual.

(4) Repair, including replacement of existing parts or accessories.

- (a) The repair of an individual component is subject to need verification. No verification is needed for the repair of a wear item.

(b) For a bathing seat not purchased by the department, submission of documentation of the medical necessity of the bathing seat itself is needed for the initial repair but not for subsequent repairs. The determination that a bathing seat not purchased by the department is medically necessary does not indicate that the bathing seat itself would be authorized for purchase.

(c) Payment is not permitted for temporary replacement equipment (a "loaner bathing seat") provided while an individual's bathing seat is being repaired.

(d) No payment is made for routine maintenance.

(5) Evaluation and management.

(a) An evaluator may receive payment for determining an individual's needs for a bathing seat. Not more than one payment will be made per bathing seat per individual.

(b) Payment includes all services rendered by the evaluator, including evaluation, product selection, confirmation at delivery, and follow-up.

(6) Additional provisions and specifications.

(a) After delivery, the supplier needs to maintain documentary evidence that the following statements are true concerning a bathing seat and any related accessories:

(i) They were delivered to the individual for whom they were prescribed;

(ii) They are consistent with the items described in the CMN, if applicable; and

(iii) They correspond exactly to the items listed on the submitted claim.

(b) Claim payments for which there is insufficient documentation are subject to recovery.

(c) A PA request needs to specify all relevant information, such as procedure code, manufacturer, and model. A fully detailed PA request for repair (either of the entire bathing seat or of multiple components) includes the serial number of the equipment and a complete itemization of parts and estimated labor needed.

- (d) When an authorization specifies a manufacturer, model, part number, or other information identifying a particular item, then a supplier may provide and subsequently submit claims only for the specified item.
- (e) Payment will not be authorized for a bathing seat to be used by an individual younger than one year. For a child one year of age or older whose needs are not met by an adult-sized bathing seat, consideration for authorization will be given only to bathing seats that accommodate growth, unless there is a more appropriate, cost-effective, medically necessary alternative available. Payment may be made for additional parts needed to "grow" a bathing seat if the combined cost of the parts and related labor is less than the cost of a new bathing seat.
- (f) A bathing seat purchased by medicaid is the property of the individual for whom it was prescribed.

DMEPOS: home dialysis equipment and supplies.

- (A) Payment may be made to a durable medical equipment (DME) provider for covered home dialysis equipment and related supplies except for items supplied by an end-stage renal disease dialysis clinic under "Method I" (a medicare term for a payment option in which the end-stage renal disease dialysis clinic assumes responsibility for furnishing all equipment, supplies, and support services).
- (B) Separate payment may be made for dialysis equipment and supplies furnished to a resident of a long-term care facility (LTCF).
- (C) The indicated medicaid maximum monthly payment for covered dialysis equipment and supplies may be made for the following types of dialysis:
 - (1) Hemodialysis, one thousand two hundred dollars;
 - (2) Continuous ambulatory peritoneal dialysis (CAPD), one thousand two hundred dollars; or
 - (3) Continuous cycling peritoneal dialysis (CCPD), one thousand five hundred dollars.

DMEPOS: oxygen.

(A) Definitions.

- (1) "Blood gas study" is the measurement of such characteristics of blood as the partial pressure of oxygen (PO₂) or oxygen saturation. The term applies either to pulse oximetry or to an arterial blood gas (ABG) study.
- (2) "Group I" and "group II" criteria are sets of clinical indicators used to determine the coverage of oxygen without prior authorization.

(a) Group I criteria.

- (i) If the individual is tested while awake and at rest, either of the following measures applies: ~~(a) arterial PO₂ of fifty-five millimeters of mercury (mm Hg) or less; or (b) arterial oxygen saturation at or below eighty-eight per cent.~~

(a) Arterial PO₂ of fifty-five millimeters of mercury (mm Hg) or less; or

(b) Arterial oxygen saturation at or below eighty-eight per cent.

- (ii) If the individual is tested while ambulating, either of the following measures applies:

(a) Arterial PO₂ of fifty-five mm Hg or less during ambulation without oxygen, with documented improvement during ambulation with oxygen; or

(b) Arterial oxygen saturation at or below eighty-eight per cent during ambulation without oxygen, with documented improvement during ambulation with oxygen.

- (iii) If the individual is tested while asleep, any of the following measures applies:

(a) Arterial PO₂ of fifty-five mm Hg or less;

(b) Arterial oxygen saturation at or below eighty-eight per cent;

- (c) A decrease in arterial PO₂ of more than ten mm Hg, associated with symptoms of or signs reasonably attributable to hypoxemia; or
- (d) A decrease in arterial oxygen saturation of more than five per cent, associated with symptoms of or signs reasonably attributable to hypoxemia.

(b) Group II criteria.

(i) Either of the following measures applies:

- (a) Arterial PO₂ of at least fifty-six mm Hg and not more than fifty-nine mm Hg; or
- (b) Arterial oxygen saturation at or above eighty-nine per cent.

(ii) In addition, at least one of the following conditions applies:

- (a) Dependent edema suggestive of congestive heart failure;
- (b) Pulmonary hypertension or cor pulmonale, determined by measurement of pulmonary artery pressure, gated blood pool scan, echocardiogram, or the presence of P pulmonale on an EKG; or
- (c) Erythrocythemia with a hematocrit greater than fifty-six per cent.

- (3) "Transfill unit" is a device that transfers oxygen from a source such as an oxygen concentrator to portable tanks.

(B) Providers.

(1) The following eligible medicaid providers may prescribe oxygen:

- (a) A physician;
- (b) An advanced practice registered nurse with a relevant specialty (~~e.g., clinical nurse specialist, certified nurse practitioner~~); or
- (c) A physician assistant.

(2) The following eligible medicaid providers may supply oxygen:

- (a) A durable medical equipment (DME) provider;
 - (b) A pharmacy;
 - (c) A physician;
 - (d) An advanced practice registered nurse with a relevant specialty (~~e.g., clinical nurse specialist, certified nurse practitioner~~);
 - (e) A physician assistant; or
 - (f) ~~A service-based~~ An ambulatory health care clinic.
- (3) The following eligible medicaid providers may receive medicaid payment for submitting a claim for oxygen:
- (a) A DME provider;
 - (b) A pharmacy;
 - (c) A physician;
 - (d) An advanced practice registered nurse with a relevant specialty (~~e.g., clinical nurse specialist, certified nurse practitioner~~);
 - (e) A physician assistant;
 - (f) ~~A service-based~~ An ambulatory health care clinic; or
 - (g) A professional medical group.

(C) Certification of medical necessity.

- (1) Payment for oxygen can be made only if a prescriber certifies that the oxygen is medically necessary for an individual. A completed certificate of medical necessity (CMN) ~~must needs to~~ be signed and dated by the prescriber before a claim is submitted. The default form is the ODM 01909, "Certificate of Medical Necessity: Oxygen" (rev. ~~7/2018~~ XX/2021).
- (2) On the CMN, the prescriber ~~must specify~~ specifies an estimated length of need (certification period), which may range from one month to a lifetime.
 - (a) For an individual meeting group I criteria, each certification period is limited to a maximum of twelve months after the first date of service.

- (b) For an individual meeting group II criteria, each certification period is limited to a maximum of three months after the first date of service.
- (3) An initial CMN is used to document certification for new service.
 - (a) An initial CMN ~~must~~needs to be completed if oxygen has not been supplied under medicaid to an individual for at least two full calendar months.
 - (b) The individual ~~must~~needs to be seen and evaluated by a prescriber within a specified period before the date of certification, and a blood gas study is ~~required~~needed.
 - (i) If the individual is a hospital inpatient or resident of a long-term care facility (LTCF) who is being discharged or will be discharged, then the evaluation period is thirty days, and the most recent blood gas study performed within forty-eight hours before discharge ~~must be~~is used.
 - (ii) Otherwise, the evaluation period is thirty days, and the most recent blood gas study performed within thirty days before the date of certification ~~must be~~is used.
- (4) A renewing CMN is used to extend certification.
 - (a) If the need for oxygen was established through a sleep study in which a positive airway pressure device was shown to be effective only when supplemental oxygen was administered simultaneously, then the need for oxygen is presumed to last as long as the need for the positive airway pressure device, and no further sleep study is ~~required~~needed to confirm a continued need for oxygen.
 - (b) Otherwise, within ninety days before the end of the existing certification period, the individual ~~must~~needs to be seen and evaluated by a prescriber, and a blood gas study is ~~required~~needed. (The new certification period cannot begin until both the prescriber evaluation and the blood gas study have been completed.).
- (5) A revised CMN is used to modify an existing certification. No prescriber evaluation is ~~required~~needed.
 - (a) The most recent blood gas study performed within thirty days before the revision date ~~must be~~is used for any of the following modifications:

- (i) The prescribed maximum flow rate has changed. If the new rate is greater than four liters per minute (LPM), then a new blood gas study ~~must~~ needs to be performed while the individual is receiving four LPM.
 - (ii) Certification has been given for a portable oxygen delivery system to supplement a stationary system for which certification was previously given. If the most recent qualifying study was performed during sleep, then a new blood gas study ~~must~~ needs to be performed while the individual is awake, either at rest or ambulating.
- (b) No additional blood gas study is ~~required~~ needed for the following modifications:
 - (i) There is a new prescriber, but the oxygen order is the same.
 - (ii) There is a new provider, and the new provider does not have the most recent CMN.

(D) Coverage.

(1) Payment may be made for oxygen supplied in the following forms:

- (a) Stationary gaseous oxygen system (private residence only);
- (b) Portable gaseous oxygen system (private residence only);
- (c) Stationary liquid oxygen system (private residence only);
- (d) Portable liquid oxygen system (private residence only);
- (e) Oxygen contents, gaseous, including supplies (LTCF only);
- (f) Oxygen contents, liquid, including supplies (LTCF only);
- (g) Oxygen concentrator, single delivery port;
- (h) Oxygen concentrator, dual delivery port;
- (i) Portable oxygen concentrator (private residence only); and
- (j) Transfill unit (private residence only).

- (2) Separate payment for a portable oxygen delivery system may be made in addition to payment for a stationary system only if the following criteria are met:
 - (a) The individual ~~must have~~ has a demonstrable need for a separate portable system, either to maintain mobility in a private residence or to accomplish out-of-home activities;
 - (b) The individual's stationary oxygen delivery system cannot be used as a portable delivery system; and
 - (c) The prescribed oxygen flow is four LPM or less. If the prescribed oxygen flow is greater than four LPM, then no separate payment is made for the portable oxygen delivery system.
 - (3) Separate payment will not be made, however, for both a stationary and a portable oxygen concentrator.
 - (4) Prior authorization (PA) is not ~~required~~ needed when a supplier has obtained a properly completed CMN and furnishes oxygen to an individual who either meets group I or group II criteria or is a resident of a LTCF.
 - (5) PA is ~~required~~ needed when a supplier has obtained a properly completed CMN and furnishes oxygen to an individual who meets neither group I nor group II criteria and is not a resident of a LTCF. If authorization is given, then the length of the authorization period will be based on medical necessity and cannot exceed the timeframe indicated by the prescriber. The PA request ~~must~~ needs to include a copy of the completed CMN.
 - (6) Oxygen is not medically necessary if it is prescribed for any of the following conditions:
 - (a) Angina pectoris in the absence of hypoxemia;
 - (b) Dyspnea without cor pulmonale or evidence of hypoxemia;
 - (c) Severe peripheral vascular disease that results in clinically evident desaturation in one or more extremity but does not produce systemic hypoxemia; or
 - (d) A terminal illness that does not affect the respiratory system.
- (E) Claim payment.

- (1) Payment for oxygen is made on a monthly basis and includes the following related items and services:
 - (a) Setup and instruction on use;
 - (b) Equipment and supplies;
 - (c) Maintenance and repair, including the replacement of any part or attachment (such as tubing, cannula, mask, or filter) that is integral to the oxygen system or the operation of the system;
 - (d) Transportation or delivery charges;
 - (e) Emergency service, including the provision of backup equipment and supplies;
 - (f) Oxygen consumed (when applicable); and
 - (g) Equipment monitoring visits.
- (2) The maximum payment for oxygen is the amount set forth in the appendix to this rule. When the prescribed oxygen flow is greater than four LPM, the payment amount is increased by fifty per cent.

DMEPOS: wheelchairs.

(A) Definitions and explanations.

- (1) "Basic equipment package" is the following standard set of parts and accessories that come with a wheelchair at the time of purchase:
 - (a) A sling or solid seat with back, a captain's chair, or a stadium-style seat;
 - (b) Standard casters or wheels with tires;
 - (c) Standard armrests;
 - (d) Standard front rigging ~~(e.g., such as~~ non-elevating legrests with footrests; or a footplate);
 - (e) Wheel locks or brakes;
 - (f) With a power mobility device, motors;
 - (g) With a power mobility device, a non-expandable controller;
 - (h) With a power mobility device, a battery charger;
 - (i) With a power wheelchair, a standard proportional joystick; and
 - (j) With a power-operated vehicle, batteries.
- (2) "Complex rehabilitation technology (CRT)" is a categorization of wheelchair equipment items ~~that require for which~~ individual evaluation, fitting, configuration, adjustment, or programming is needed to meet the specific medical and functional needs of the user, as well as services related to those products. CRT includes, for example, customized seating systems, adaptive positioning devices, and alternative drive systems (directional interfaces other than a standard joystick).
- (3) "Custom wheelchair" is a wheelchair that has a customized seating system. A custom wheelchair, therefore, cannot be easily used or adapted for use by another individual.
- (4) "Customized seating system" is a wheelchair seat, wheelchair back, or combination of wheelchair seat and back that has been tailored specifically to the particular body shape and positioning needs of an individual user.

Customization may be achieved by means of molding, contouring, carving, or other forms of fabrication or by the integration of prefabricated components into the wheelchair frame. Items such as seat cushions and other removable positioning aids do not by themselves constitute a customized seating system.

- (5) "DMEPOS Fee Schedule" is a list of payment amounts for durable medical equipment, prostheses, orthoses, and supplies published by the centers for medicare and medicaid services (CMS); it is available at <http://www.cms.gov>. The January 2015 revision is the basis for the medicaid payment amounts described in paragraph (E) of this rule.
- (6) "Individualized seating system" is a wheelchair seat, wheelchair back, or combination of wheelchair seat and back that has been tailored to the body shape and positioning needs of an individual user by means of installing and configuring prefabricated cushions or other removable positioning aids.
- (7) "Medical necessity" is defined in rule 5160-1-01 of the Administrative Code. Wheelchairs and wheelchair parts and accessories ~~must~~ need to meet additional criteria in order to be considered medically necessary:
 - (a) Wheelchairs and wheelchair parts and accessories are generally not necessary nor even useful in the absence of illness, injury, impairment, disability, or other condition that limits ambulation. ~~A-Therefore, a wheelchair must needs to therefore~~ provide mobility to an individual for whom ambulation is not possible, takes inordinate physical effort, or causes considerable physical discomfort.
 - (b) A wheelchair ~~must~~ also needs to be suited to the purposes and daily routines of the individual using it.
 - (c) A manual wheelchair ~~must~~ needs to provide a level of needed functionality that cannot be achieved with an assistive device such as a cane, a crutch or crutches, or a walker.
 - (d) A power mobility device (PMD) ~~must~~ needs to provide a level of needed functionality that cannot be achieved with a manual wheelchair.
 - (e) A PMD ~~must~~ needs to be functional in the environment in which it is used. The individual (or someone assisting the individual) ~~must~~ needs to have the ability to take proper care of the PMD, the individual's place of residence ~~must~~ needs to be accessible and have adequate electrical service, transportation of the PMD ~~must~~ needs to be available as necessary, and there ~~must~~ needs to be sufficient protection for the

PMD from the elements. The place of residence is considered to be accessible only if the individual will be able to use the PMD without assistance to enter and leave the residence and to move easily about the main living space (which is used for purposes such as food preparation, eating, sleeping, personal hygiene, and relaxation).

- (f) A customized seating system ~~must~~ needs to enable an individual to sit (or recline, as appropriate) for long periods of time, provide postural support to permit functional activities, or reduce pressure on the body to a degree that cannot be achieved with items such as a standard wheelchair seat, an individualized seating system (e.g., a prefabricated seat cushion or other removable positioning aid or combination of positioning aids), or a spinal orthotic device.
- (8) "Need verification" is a process, similar to prior authorization, by which the department determines whether to make payment for the repair of a wheelchair part or accessory that exceeds the established frequency guideline. One purpose of need verification is to enable the department to consider whether the purchase of a new piece of equipment might be more cost-effective than continued repair.
- (9) "Power mobility device (PMD)" is a collective term for a power wheelchair or a power-operated vehicle (POV, commonly referred to as a "scooter"). Each PMD is classified on the basis of performance into one of eight groups developed under the auspices of CMS:
 - (a) Group one power-operated vehicles;
 - (b) Group two power-operated vehicles;
 - (c) Group one power wheelchairs;
 - (d) Group two power wheelchairs;
 - (e) Group three power wheelchairs;
 - (f) Group four power wheelchairs;
 - (g) Group five power wheelchairs; and
 - (h) Power mobility devices not otherwise classified.
- (10) "Routine maintenance" of a wheelchair is any upkeep that is necessary to maintain optimum functioning of the equipment and that does not ~~require~~ need a skilled or trained technician to perform.

- (11) "Wheelchair" is a collective term for a manual wheelchair or a power mobility device.

(B) Providers.

- (1) Prescribing providers. Eligible medicaid providers of the following types, acting within their scope of practice, may certify the medical necessity of a wheelchair:

- (a) A physician;
- (b) An advanced practice registered nurse with a relevant specialty (~~e.g., clinical nurse specialist, nurse practitioner~~);
- (c) A physician assistant; or
- (d) A podiatrist.

- (2) Evaluators. The following professionals may evaluate an individual's particular needs:

- (a) For wheelchairs incorporating CRT, a physiatrist, orthopedic surgeon, neurologist, physical therapist, or occupational therapist;
- (b) For wheelchairs not incorporating CRT, a physician, physical therapist, or occupational therapist.

- (3) Rendering providers. The following eligible providers may furnish a wheelchair, part, or accessory or may render a related service:

- (a) For manual wheelchairs without CRT, a provider enrolled as a basic durable medical equipment (DME) supplier; or
- (b) For PMDs and CRT, a provider enrolled as a specialized DME supplier ~~with appropriate certification or licensure from the Ohio respiratory care board (ORCB) to engage in business involving wheelchairs.~~

- (4) Billing providers. The following eligible providers may receive medicaid payment for submitting a claim for a wheelchair, part, accessory, or related service:

- (a) For manual wheelchairs without CRT, a provider enrolled as a basic DME supplier; or
- (b) For PMDs and CRT, a provider enrolled as a specialized DME supplier ~~with appropriate certification or licensure from the ORCB to engage in business involving wheelchairs.~~

(C) Coverage.

(1) Principles.

- (a) ~~A wheelchair must be determined to be medically necessary~~ The medical necessity of a wheelchair needs to be determined before the department will make payment. For a wheelchair purchased by the department, this necessity is documented on form ODM 03411, "Certificate of Medical Necessity: Wheelchairs" (rev. ~~6/2016~~ XX/2021). The medical necessity of a wheelchair that has not been purchased by the department is documented either on this certificate of medical necessity (CMN) or on an equivalent form.
- (b) If more than one type of wheelchair will meet an individual's needs and satisfy the criteria of medical necessity, then the maximum payment amount is the lowest of the respective costs, regardless of which wheelchair is supplied.
- (c) The provision of or payment for the purchase, repair, or rental of a medically necessary non-custom wheelchair for a resident of a long-term care facility (LTCF) is the responsibility of the LTCF. This responsibility holds even if the wheelchair incorporates CRT other than a customized seating system. In turn, the LTCF receives medicaid payment in accordance with Chapter 5160-3 of the Administrative Code. Therefore, claims submitted to the department by wheelchair suppliers for the purchase, repair, or rental of non-custom wheelchairs furnished to LTCF residents will be denied.

(2) Purchase.

- (a) Custom wheelchairs for individuals living in a LTCF and wheelchairs for individuals not living in a LTCF. Prior authorization (PA) is ~~required~~ needed, and a face-to-face evaluation of need ~~must~~ has to be performed by a prescribing provider not earlier than one hundred eighty days before the submission of the PA request.
- (b) ~~Requirements, constraints,~~ Constraints and limitations.
 - (i) The purchase of a wheelchair includes the basic equipment package, delivery, setup, instruction and training in use, and adjustments or minor modifications. No separate payment is made for these items. Payment for other parts or accessories, either parts or accessories that are substituted for individual items in the basic equipment

package or parts or accessories outside the basic equipment package that are added after a wheelchair is purchased, ~~requires~~ is subject to PA.

- (ii) Authorization will not be given for the purchase of more than one wheelchair for concurrent use by an individual. An exception to this restriction may be made if it can be satisfactorily demonstrated that having a second wheelchair, such as ~~(e.g.,~~ a manual wheelchair in addition to a ~~PMD)~~ PMD, significantly improves an individual's mobility and is cost-effective.

(3) Repair, including replacement of existing parts or accessories.

- (a) Custom wheelchairs for individuals living in a LTCF and wheelchairs for individuals not living in a LTCF. The repair of a component such as a frame, seating system, motor, drive system, or battery is subject to need verification. No verification is ~~required~~ needed for the repair of a wear item, such as a ~~(e.g.,~~ caster bearing, tire, arm pad).

(b) ~~Requirements, constraints,~~ Constraints and limitations.

- (i) For a wheelchair not purchased by the department, submission of documentation of the medical necessity of the wheelchair itself is ~~required~~ needed for the initial repair but not for subsequent repairs. The determination that a wheelchair not purchased by the department is medically necessary does not indicate that the wheelchair itself would be authorized for purchase.

- (ii) Payment is not permitted for temporary replacement equipment (a "loaner wheelchair") provided while an individual's wheelchair is being repaired ~~(e.g., a "loaner wheelchair")~~.

- (iii) No payment is made for routine maintenance.

(4) Rental.

- (a) Custom manual wheelchairs. PA is ~~required~~ needed.

- (b) Non-custom manual wheelchairs for individuals not living in a LTCF. No PA is ~~required~~ needed for the first three months. PA is ~~required~~ needed for rental periods after the first three months.

- (c) PMDs. PA is ~~required~~ needed.

(d) ~~Requirements, constraints,~~ Constraints and limitations.

- (i) Payment will not be made for the rental of more than one wheelchair per month for an individual.
- (ii) Payment for rental is all-inclusive; no separate payment is made for any other wheelchair-related items.
- (iii) During a rental period and for ninety days afterward, all rental amounts paid are applied toward purchase. The total of the rental amounts ~~must not~~ cannot exceed the purchase amount.

(5) Evaluation and management.

- (a) An evaluator may receive payment for determining an individual's needs for a wheelchair. Not more than one payment will be made per wheelchair per individual.
- (b) Payment includes all services rendered by the evaluator, including evaluation, product selection, confirmation at delivery, and follow-up.

(D) Additional ~~requirements, constraints,~~ constraints and limitations.

- (1) After delivery, the supplier ~~must~~ needs to maintain documentary evidence that the following statements are true concerning a wheelchair and any related accessories:
 - (a) They were delivered to the individual for whom they were prescribed;
 - (b) They are consistent with the items described in the CMN; and
 - (c) They correspond exactly to the items listed on the submitted claim.
- (2) Claim payments for which there is insufficient documentation are subject to recovery.
- (3) A PA request ~~must~~ needs to specify all relevant information (e.g., HCPCS code, manufacturer, model). A PA request for repair ~~must~~ needs to include the serial number of the equipment and a complete itemization of parts and estimated labor needed.
- (4) When an authorization specifies a manufacturer, model, part number, or other information identifying a particular item, then a supplier may provide and subsequently submit claims only for the specified item.

- (5) Payment will not be authorized for a wheelchair to be used by an individual younger than one year. For a child one year of age or older whose needs are not met by an adult-sized wheelchair, consideration for authorization will be given only to wheelchairs that accommodate growth, unless there is a more appropriate, cost-effective, medically necessary alternative available. Payment may be made for additional parts ~~required~~needed to "grow" a wheelchair if the combined cost of the parts and related labor is less than the cost of a new wheelchair.
- (6) Payment will not be authorized for wheelchairs, parts, accessories, or modifications whose primary application is leisure or recreational activities.
- (7) Payment will not be authorized for a PMD intended exclusively for outdoor use.
- (8) A wheelchair purchased by medicaid is the property of the individual for whom it was prescribed.

(E) Claim payment.

- (1) As of the effective date of this rule, the payment amount is established as the lesser of the submitted charge or the applicable medicaid maximum from the following list:
 - (a) For purchase of a covered new wheelchair, part, or accessory, ninety per cent of the allowed amount listed for Ohio on the "DMEPOS Fee Schedule";
 - (b) For purchase of a covered group four power wheelchair for which there is no medicare allowed amount, one hundred ten per cent of the medicaid maximum payment amount allowed for purchase of the most closely corresponding covered group three power wheelchair;
 - (c) For purchase of any other covered wheelchair, new part, or new accessory for which there is no medicare allowed amount, payment by report;
 - (d) For purchase of a covered wheelchair, part, or accessory that has been previously used but remains in good working order, fifty per cent of the medicaid maximum payment amount allowed for purchase of a comparable new wheelchair, part, or accessory;
 - (e) For monthly rental of a covered wheelchair to which rental applies, ten per cent of the medicaid maximum payment amount allowed for purchase;
 - (f) For performance of an evaluation and related services, eighty per cent of the amount established by the medicare physician fee schedule; or

- (g) For labor provided for a covered repair or covered maintenance, the result L obtained by the formula $L = ([W + B] \times P + M) \times A \times 0.25$.
- (i) L is the medicaid maximum payment amount for labor, reported in fifteen-minute units.
 - (ii) W is the hourly median wage for medical equipment repairers in Ohio reported by the United States bureau of labor statistics (available at <http://www.bls.gov/oes/>). (The initial wage figure used was from May 2014.)
 - (iii) B is hourly employee-related expenses such as benefits, calculated as thirty-five per cent of wages.
 - (iv) P is a productivity adjustment factor, defined as the ratio of the number of total work hours per day (specified as eight) to the number of available productive work hours per day (specified as six and a half).
 - (v) M is an hourly mileage allowance, defined as the ratio of the daily mileage allowance to the number of available productive work hours per day. The daily mileage allowance is the product of the average travel speed (specified as thirty-five miles per hour), the average total travel time (specified as one hour and fifteen minutes), and the federal standard mileage rate for business (available at <http://www.irs.gov>). (The initial standard mileage rate used was for 2015.)
 - (vi) A is an administrative cost factor, specified as one hundred ten per cent.
- (2) After the effective date of this rule, if the medicare amount for an item or service becomes less than the current medicaid maximum payment amount, then the medicaid maximum payment amounts related to that item or service are reestablished on the basis of the new medicare amount.
- (3) After the effective date of this rule, if updates to the median hourly wage or the federal standard mileage rate would cause a variance of at least five per cent in the maximum payment amount for labor, then the maximum payment amount is reestablished on the basis of the updated figures.
- (4) The payment provisions of this rule supersede entries in appendix DD to rule 5160-1-60 of the Administrative Code that pertain to wheelchairs, parts, accessories, or related services.

DMEPOS: positive airway pressure devices.

(A) Definition. "Apnea-hypopnea index (AHI)" is the mean number of episodes of apnea or hypopnea per hour recorded over a period of at least two hours without the use of a positive airway pressure device, reported by polysomnogram. ~~The AHI may not be extrapolated or projected.~~ Extrapolation or projection of the AHI is not permitted.

(B) Coverage.

(1) The default certificate of medical necessity (CMN) form is the ODM 01903, "Certificate of Medical Necessity: Positive Airway Pressure Devices" (rev. ~~7/2018~~ XX/2021). The CMN ~~must include~~ includes the following information:

(a) A diagnosis of obstructive sleep apnea or other condition for which positive airway pressure is an appropriate treatment;

(b) The results of a ~~sleep-respiratory study comprising components for diagnosis and titration, performed either separately as two studies or consecutively as a split study~~;

(c) An estimated length of need.

(2) A respiratory study may be performed with a positive airway pressure device that records relevant data automatically.

~~(2)~~(3) Payment for a positive airway pressure device may be made only if the following criteria are met:

(a) ~~The diagnosis component of the sleep study, performed during at least two hours of recorded sleep without a~~ In the absence of positive airway pressure device, the respiratory study yields the following results:

(i) An AHI of at least fifteen; or

(ii) An AHI of at least five coupled with documented evidence of any of the following conditions:

(a) Excessive sleepiness during waking hours;

(b) Insomnia;

(c) Mood disorder;

- (d) Impaired cognition;
 - (e) Hypertension;
 - (f) Ischemic heart disease; or
 - (g) A history of stroke.
- (b) ~~The titration component of the sleep study, performed with a~~ When positive airway pressure device is applied, the respiratory study yields the following results:
- (i) A decrease in the number of airway obstructions per hour; and
 - (ii) At least one of the following indications of effectiveness:
 - (a) An absolute increase in oxygen saturation to at least eighty-nine per cent;
 - (b) A relative increase in oxygen saturation of at least fifteen per cent; or
 - (c) Other clinical improvement recognized by the department.
- (4) A need for oxygen is established if a positive airway pressure device is effective during a sleep respiratory study only when supplemental oxygen is administered simultaneously. That need for oxygen is presumed to last as long as the need for the positive airway pressure device, and no further sleep respiratory study is required necessary to confirm a continued need for oxygen.
- ~~(3)~~ (5) Payment for a variable or bilevel positive airway pressure device (i.e., a positive airway pressure device that produces different inspiratory and expiratory pressure levels) may be made only if the following criteria are met:
- (a) A positive airway pressure device that produces a single pressure level has been tried and found to be ineffective; and
 - (b) Evidence gathered during the ~~titration component of the sleep respiratory study~~ or during a one-week trial period indicates that a variable or bilevel positive airway pressure device is effective.
- ~~(4) A need for oxygen is established if a positive airway pressure device is effective during a sleep study only when supplemental oxygen is administered simultaneously. That need for oxygen is presumed to last as long as the need~~

~~for the positive airway pressure device, and no further sleep study is required to confirm a continued need for oxygen.~~

(C) Constraint. The provider of a positive airway pressure device ~~may not~~ cannot perform the qualifying ~~sleep~~ respiratory study.

DMEPOS: ventilators.

(A) ~~Provider requirement. A provider of ventilators for use in the home must make~~
Condition of provider participation. A provider of in-home use ventilators needs to
have available a licensed respiratory care professional (LRCP) twenty-four hours a
day to provide respiratory care, technical support, and clinical ventilator services and
to perform emergency servicing of equipment on two-hour notice.

(B) Coverage.

- (1) Separate payment may be made for a ventilator furnished to a resident of a long-term care facility (LTCF).
- (2) Payment may be made for a ventilator on a rental basis only. The default certificate of medical necessity (CMN) form is the ODM 01902, "Certificate of Medical Necessity: Ventilators" (rev. ~~7/2018~~ XX/2021).
- (3) For the rental of a primary ventilator, ~~the CMN must include a~~ CMN includes the following information:
 - (a) Diagnosis;
 - (b) Specification of the condition or conditions for which ventilatory support is needed;
 - (c) An estimated length of need;
 - (d) The continuity of ventilatory support ~~required~~ needed (e.g., constant, during the day, at night, for sleep only);
 - (e) The ventilator type, mode, and settings or parameters;
 - (f) A list of other respiratory equipment in use; and
 - (g) If applicable, documentation showing that the individual is being weaned.
- (4) For the rental of a secondary or back-up ventilator, the CMN ~~must include~~ includes appropriate attestation to at least one of the following statements:
 - (a) The individual cannot maintain spontaneous respiration for at least four hours;

- (b) Because of regular activities outside the home (~~e.g., such as school, or~~ outpatient therapy), the individual needs a second ventilator with a suitable power source; or
- (c) The average emergency medical team response time to the individual's address is estimated to be more than two hours.

(5) A multi-function ventilator is an all-in-one device that also has the capability to perform the functions of other respiratory equipment such as an oxygen concentrator, a nebulizer, a suction device, or a cough-assist device. A device that may serve either as a ventilator or as a positive airway pressure device but not as both simultaneously is not a multi-function ventilator.

- (a) Payment may be made for a multi-function ventilator only if at least one additional function ("ventilator plus one") is used.
- (b) For each additional function, whether included when the unit is first dispensed or activated later, the appropriate CMN applies. A prescription is sufficient when no CMN is specified for a particular function.

(C) ~~Requirements, constraints,~~ Constraints and limitations.

- (1) A ventilator with an invasive interface ~~must include~~ is covered only if it includes backup power capability and alarms indicating disconnection, high pressure, low pressure, and power loss.

(2) Rental of a ventilator includes the following items and services:

- (a) Ventilator accessories, including inlet ventilator filters, permanent or reusable ventilator circuits, whisper swivels, exhalation ports, tracheostomy tube elbows, and circuit extensions and adapters;

(b) Accessories necessary for the oxygen and ventilator functions of a multi-function ventilator;

~~(b)~~(c) A humidifier, either heated or unheated;

~~(e)~~(d) Humidifier bacteria filters;

~~(d)~~(e) Tubing to connect the humidifier to the ventilator;

~~(e)~~(f) Evaluation of the individual's residence to ensure compatibility with the equipment and to forestall problems with its use; and

- ~~(f)~~(g) Visits made at an appropriate frequency determined by a LRCP in consultation with the individual's prescribing practitioner, at least one visit during the first week, not less often than once per month for the first six months, and not less often than every sixty days thereafter.
- (3) No separate payment is made to a provider for keeping a LRCP on call or for performing emergency servicing of equipment.

DMEPOS: insulin pumps.

(A) Definitions.

- (1) "Sensor-augmented insulin pump system" is an insulin infusion pump equipped with a continuous glucose monitoring (CGM) sensor. The pump uses the glucose readings taken by the CGM sensor to modify the amount of insulin infused.
- (2) "Insulin pump," for purposes of this rule, is a collective term encompassing a portable external insulin infusion pump and a sensor-augmented insulin pump system.

(B) Coverage.

- (1) Payment may be made for a portable external insulin infusion pump on a rental/purchase basis. The initial rental period is limited to three months.
- (2) The default certificate of medical necessity (CMN) form is the ODM 07136, "Certificate of Medical Necessity: Insulin Pumps" (rev. ~~7/2018~~ XX/2021). The CMN ~~must include~~ includes an attestation that appropriate documentation is kept in the individual's medical record to demonstrate that the following criteria are met:
 - (a) The individual has type 1 or insulin-dependent type 2 diabetes mellitus;
 - (b) The individual has at least one of the following symptoms or conditions:
 - (i) Glycated hemoglobin level (HbA1c) greater than seven per cent;
 - (ii) A history of recurring hypoglycemia;
 - (iii) Wide fluctuations in blood glucose before mealtime;
 - (iv) A marked early-morning increase in fasting blood sugar (the "dawn phenomenon"), in which the glucose level frequently exceeds two hundred milligrams per deciliter; or
 - (v) A history of severe glycemic excursions;
 - (c) The individual has completed a diabetes education program within the preceding twenty-four months;

- (d) The individual has been on a maintenance program for at least six months involving at least three injections of insulin per day and frequent self-adjustments of insulin dosage;
 - (e) The individual has performed glucose self-testing at least four times per day on average during the preceding month; and
 - (f) The individual is at high risk for preventable complications of diabetes, early signs of which include micro-albuminuria and persistent difficulty in controlling blood sugar levels despite good compliance with an intensive multiple-injection regimen.
- (3) After the first three months, payment may be made for the purchase of an insulin pump. During the initial rental period, the provider ~~must obtain~~ obtains a revised copy of the previously completed CMN, on which the prescriber attests that the individual (or someone assisting the individual) is capable of managing the pump and that the desired improvement in metabolic control can be achieved.

(C) ~~Requirements, constraints,~~ Constraints and limitations.

- (1) The use of an insulin pump is contraindicated by ~~any~~ either of the following conditions or circumstances:
 - ~~(a) The individual has type 2 (non-insulin-dependent) diabetes mellitus, either treated or not treated with insulin;~~
 - ~~(b)~~ (a) The individual has end-stage complications such as renal failure; or
 - ~~(c)~~ (b) Neither the individual nor anyone assisting the individual is able to operate a pump or to perform frequent blood glucose monitoring.
- (2) The following insulin-delivery devices are not covered:
 - (a) A portable external insulin infusion pump that is requested purely as a matter of convenience or individual preference;
 - (b) Surgically implanted infusion devices or systems;
 - (c) Jet pressure devices;
 - (d) Devices associated with chronic intermittent intravenous insulin therapy (CIIT), or
 - (e) Devices associated with pulsatile intravenous insulin therapy (PIVIT).

- (3) The warranty period for a covered insulin pump is at least one year from the date of purchase authorization.
- (4) No payment ~~may~~ can be made for the purchase of an insulin pump that has been previously used by another individual.
