The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

### **Reason for Submission**

1. **R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.**

**Which adverse impact(s) to businesses has the agency determined the rule(s) create?**

**The rule(s):**

- a. ☒ **Requires a license, permit, or any other prior authorization to engage in or operate a line of business.**
- b. ☒ **Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.**
- c. ☒ **Requires specific expenditures or the report of information as a condition of compliance.**
- d. ☐ **Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.**

5. **If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

N/A

6. **What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

7. **How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?**

The Board reviews compliance with these rules through the inspection process. Success will be determined by compliance with the requirements established, and through staff and public feedback.

**12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?**

The Board did not consider alternative regulations because the proposed amendments are administrative in nature.

**13. Did the Agency specifically consider a performance-based regulation? Please explain.**  
*Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

No.

**16. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:**

[CSIPublicComments@governor.ohio.gov](mailto:CSIPublicComments@governor.ohio.gov)

*The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a “representative business.” Please include the source for your information/estimated impact.*

While all licensees and registration holders are required to participate in continuing education, any fees associated with these programs would be determined and collected by continuing education providers. Thus, this cost cannot be quantified because of the varying costs of the courses, and the licensee’s and boutique registrant’s flexibility in choosing which courses to take. These continuing education courses are necessary to ensure that all licensees and registrants are aware of changes in the industry to ensure the best service may be provided and maintain safety for those to whom they render their services.

**17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?**

Any adverse impact based on the cost of the continuing education course is justified by the need to ensure that individuals providing services to the public are up-to-date on their training. The requirement that licensees and boutique registrants complete specific amounts of continuing education is also mandated by statute.

**Regulatory Flexibility**

**18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.**

These rules are regulatory in nature and therefore there is no exemptions or alternative means of compliance for small businesses. To ensure the efficacy of the rules, they must apply to all businesses equally.

**19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?**

No changes will be made from the pre-existing violation matrix. The Board will apply its violation guidance matrix if an individual receives notice of a violation of the rules

**20. What resources are available to assist small businesses with compliance of the regulation?**

The Board will not provide additional assistance or resources to ensure compliance.
