The following information is being provided pursuant to the requirements of Executive Order 2011-01K and Senate Bill 2 of the 129th General Assembly, which require state agencies, including the State of Ohio Board of Pharmacy, to draft rules in collaboration with stakeholders, assess and justify an adverse impact on the business community (as defined by S.B. 2), and provide an opportunity for the affected public to provide input on the following rules.

The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Reason for Submission

1. R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.

Which adverse impact(s) to businesses has the agency determined the rule(s) create?

The rule(s):

- a. ☒ Requires a license, permit, or any other prior authorization to engage in or operate a line of business.
- b. ☒ Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.
- c. ☒ Requires specific expenditures or the report of information as a condition of compliance.
- d. ☒ Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.

Regulatory Intent

2. Please briefly describe the draft regulation in plain language.

Please include the key provisions of the regulation as well as any proposed amendments.

Amend:

- 4729-6-01: Provides the definition section for the Board's continuing education provider rule. Removes an old reference that no longer applies.

Reduces the time to send fingerprints to the Board to 60 days from application rather than 12 months.
- 4729:1-2-02: Provides the criteria for pharmacist reciprocity. This rule permits a reciprocity candidate to complete a no-cost law course developed by the Board. This rule

3. Please list the Ohio statute(s) that authorize the agency, board or commission to adopt the rule(s) and the statute(s) that amplify that authority.

The proposed rules are authorized by section 4729.26 of the Ohio Revised Code.

4. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

If yes, please briefly explain the source and substance of the federal requirement.

These rules do not implement a federal requirement.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

- 5. If the regulation implements a federal requirement, but includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.**

These rules exceed federal requirements because the regulation of the pharmacy profession, including pharmacists and pharmacy interns, has traditionally been done at the state level by legislatively created state boards of pharmacy.

- 6. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?**

Section 4729.26 of the Ohio Revised Code authorizes the Board of Pharmacy to adopt rules governing the practice of pharmacy. Without these regulations the Board would not be able to provide clear standards for licensure and education requirements for pharmacists and pharmacy interns. These regulations ensure that Ohio pharmacy professionals can practice competently and safely.

- 7. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?**

The success of the regulations will be measured by having rules written in plain language, licensee compliance with the rules, and minimal questions from licensees regarding the provisions of the rules.

- 8. Are any of the proposed rules contained in this rule package being submitted pursuant to R.C. 101.352, 101.353, 106.032, 121.93, or 121.931?**

If yes, please specify the rule number(s), the specific R.C. section requiring this submission, and a detailed explanation.

No.

Development of the Regulation

- 9. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.**

If applicable, please include the date and medium by which the stakeholders were initially contacted.

This rule package was distributed for initial public comment by posting the rule package to the Board's proposed rules website.

Prior to filing with CSI, the rules were reviewed and approved by the Board of Pharmacy.

10. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

The Board received three comments during the rule process. Those comments and the Board's responses can be found below:

Commenter	Rule	Comment	Draft Board Response
Pharmacist	4729:1-5-01 - Pharmacist Continuing Education - Definitions. (AMEND)	While I commend the board for continuing to promote the safe use of medications, topics related to the safe use of medication can have other designators beyond -05. I believe the requirement should at a minimum be expanded to include not only -05 but also -07 and -08 ACPE accredited activities. Part of the improper pharmaceutical care that led to this requirement I believe, involved 1) lack of sterile compounding and 2) opioids, and the ongoing opioid epidemic. Subsequent to the original rule requiring -05 designated patient or medication safety CE, ACPE expanded their topic designators options to include the more specific -07 Compounding designator and -08- Pain Management designator. As defined by ACPE, the -07 Compounding designator 07 is defined as "activities related to sterile, nonsterile, and hazardous drug compounding for humans and animals. This includes best practices and USP quality assurance standards, environmental testing and control, record keeping, error detection and reporting, and continuous quality improvement processes." The -08 designator is defined as "activities that address any component regarding the treatment and management of pain, including the prescribing, distribution and use of opioid medications, and/or the risks, symptoms, and treatment of opioid misuse/addiction." Additionally, I would note that CE providers can off activities that are specifically about safety but they are not required to submit it as an -05 designated activity. For example, the US Food and Drug Administration currently offers an activity entitled "Safety Labeling Changes for Leukotriene Receptor Antagonists and Decisions Behind a Boxed Warning" but the UAN is an -01 Disease State Management/Drug therapy activity. Another example from the FDA is an activity entitled "Overview of Risk Evaluation and Mitigation Strategies (REMS) for Health Care Providers"	There are only 8 Universal Activity Numbers. By adding two more, it loses the original intent of a patient safety/medication error prevention focus. Therefore, this comment was not incorporated into the rule.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

		which has a UAN of JA0002895-0000-22-055-H04-P, which uses the -04 Pharmacy Administration designator. A third example from the FDA is "FDA's Role in Postmarketing Drug Safety Surveillance" which has the UAN of JA0002895-0000-22-015-H04-P. While ideally any activity that has safety or risk in its name should be considered compliant, at a minimum the designators -07, and -08 would be positive additions to the currently required -05 designator. Thank you.	
Pharmacist	4729:2-2-06 - Statement of preceptor and practical experience affidavit. (AMEND)	"No internship credit shall be granted by the board for practical experience obtained for the purposes of the intern's school of pharmacy academic program." This is kinda messed up requiring additional hours. Previously the schools satisfied this through ippe and appe hours. It can be challenging to find an intern position. It took me 2 years to obtain one and even then it was only because my family knew someone.	Comment has been addressed in the rule. Intern hours can be achieved via school academic programs.
Pharmacist	4729:1-2-01 - Criteria for licensure by examination . (AMEND)	If the Board is designing an expanded Ohio Law course for those applying for reciprocity the same should be offered for new grads. Perhaps allowing the faculty that cover Law within Ohio to apply to be approved jurisprudence providers would allow them to assess competency in the same manner as the rule update for reciprocity. Either way the MPJE as it stands is problematic and offers little to no real information for test takers or colleges of pharmacy to assess performance.	The Board is exploring this option. However, the MPJE is the national standard currently used by most states to assess pharmacy law competency.

11. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Scientific data was not used to develop or review this rule.

12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives? *Alternative regulations may include performance-based regulations, which define the required outcome, but do not dictate the process the regulated stakeholders must use to comply.*

As the regulations are essential to protecting the public's safety by ensuring uniform standards for the practice of pharmacy, the State of Ohio Board of Pharmacy did not consider any regulatory alternatives.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

13. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The Board of Pharmacy's Director of Policy and Communications and Director of Licensing reviewed the proposed rules to ensure that the regulations do not duplicate another State of Ohio Board of Pharmacy regulation.

14. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

The rules will be posted on the Board of Pharmacy's web site, information concerning the rules will be included in materials e-mailed to licensees, and notices will be sent to associations, individuals and groups. Board of Pharmacy staff are also available via phone or email to answer questions regarding implementation of the rules. In addition, the Board's compliance agents are trained to educate licensees on current and/or new regulations during on-site inspections.

Board of Pharmacy staff receive regular updates on rules via a monthly internal newsletter, biannual staff meetings featuring a regulatory update, mandatory all-day law reviews for new employees, email updates, webinars from the Director of Policy and Communications and feedback from the Board's legal department for every citation submitted.

Adverse Impact to Business

15. Provide a summary of the estimated cost of compliance with the rule(s). Specifically, please do the following:

a. Identify the scope of the impacted business community:

- Pharmacists;
- Pharmacy Interns

b. Quantify and identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance, etc.).

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a representative business. Please include the source for your information/estimated impact.

Amend:

- 4729-6-01: Provides the definition section for the Board's continuing education provider rule. Removes an old reference that no longer applies. This is a definitions section and should have no adverse impact.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

- 4729-6-02: Provides the criteria for in-state approved providers of pharmacy continuing education. Reduces the amount of time CE providers have to maintain certificates of completion from 5 year to 4 years. Removes old reference that no longer applies. This rule will increase costs for providers of in-state pharmacy jurisprudence continuing education because of the administrative requirements to maintain certain paperwork. This rule is reducing the burden on providers by shortening the retention time for such paperwork from 5 years to 4 years.
- 4729:1-2-01: Provides the criteria for pharmacist licensure by examination. Removes references to a specific score and rather refers to the “passing score” determined by the National Association of Boards of Pharmacy. Reduces the time to send fingerprints to the Board to 60 days from application rather than 12 months. Requires successful passage of the NAPLEX and MPJE examinations. The cost of the NAPLEX is \$485, MPJE \$200 and the cost to register for both is \$685.
- 4729:1-2-02: Provides the criteria for pharmacist reciprocity. This rule permits a reciprocity candidate to complete a no-cost law course developed by the Board. This rule also incorporates required provisions from SB 131 (134th General Assembly) that requires licensure reciprocity. The reciprocity fee for pharmacists is \$337.50.
- 4729:1-2-03: Outlines the requirements for a pharmacist application via examination. Removes requirement to submit a photograph and adds a reference to the eLicense transaction fee requirement by ORC 125.18. To comply with the requirements of this rule, an applicant must obtain an advanced degree from an approved school of pharmacy.
- 4729:1-2-06: Provides the requirements for pharmacist change of name, email, mailing address and employer. Adds new options for providing a name change. Requires a pharmacist who obtains a new wall certificate to promptly destroy the old certificate. Clarifies that duplicate wall certificates may only be requested if they are lost, misplaced, or damaged. The required fee for a new wall certificate is \$22.50.
- 4729:1-5-01: Provides the definitions for the pharmacist continuing education rule chapter. Adds two certifications that are recognized by the Board for continuing education purposes. This is a definition section and should have no adverse impact.
- 4729:1-5-02: Provides the continuing education requirements for pharmacists. Reduces the number of CE hours due to the passage of HB 509 (134th General Assembly). Also, exempts newly licensed pharmacists from having to complete CE within the first two years of licensure. The reduction CE hours will result in time and money saved by the pharmacist. Additionally, pharmacists who obtain an initial license will not have to meet CE requirements for the first renewal cycle, which will also save time and money for the pharmacist.
- 4729:1-5-03: Provides extensions for pharmacist continuing education requirements for military members and their spouses. Makes a minor grammatical correction.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

- 4729:2-1-01: Provides the definitions for the pharmacy intern division of the Administrative Code. Reorganizes the rule to clarify that pharmacists may only supervise 2 interns at any time (6 if they are providing immunizations only). Sites where interns are practicing may have to hire additional staff to meet the supervision requirement. Please be advised that the supervision requirement is not changing from the current version of the rule, except that it expands for interns administering immunizations.
- 4729:2-2-01: Provides the requirements for licensure as a pharmacy intern. Makes one non-substantive wording change. Interns will have to comply with one of three options to obtain an intern license (enrolled in a school of pharmacy, obtained a pharmacy degree, or having obtained a Foreign Pharmacy Graduate Examination Commission).
- 4729:2-2-02: Provides the requirements for application as a pharmacy intern. Removes requirement to submit photograph and permits reciprocity as required by SB 131 (134th General Assembly). The fee for application is \$30.00.
- 4729:2-2-04: Provides the requirements for licensure renewal by a pharmacy intern. Permits pharmacy interns who are initially licensed after May 1st of an odd-numbered year to be provided a license that does not expire until the next renewal date (e.g., two years and 4 months). Incorporates the licensure renewal process from 4729:2-2-09. Requires pharmacy intern to notify the Board and the intern's current employer if they are no longer enrolled in a school of pharmacy. This notification requirement is estimated to take 5 minutes to complete and can be submitted via email.
- 4729:2-2-06: Provides the requirements for the statement of preceptor and practical experience affidavit for pharmacy interns. Requires practical experience affidavits to be submitted one year after credit is earned rather than by the first day of March each year. Also clarifies that the practical experience affidavit is only to be used to submit evidence of practical experience outside of the intern's school of pharmacy academic program. The statement of preceptor form is 2-pages and is estimated to take anywhere between 5-10 minutes to complete.
- 4729:2-2-08: Provides the requirements for pharmacy intern change of name, email, mailing address and employer. Adds new options for providing a name change. The required fee for a new wall certificate is \$22.50.

New/Rescind:

- 4729:1-2-07: Provides the standards for pharmacist licensure renewal. (Rescinding the current version of 4729:1-2-07 because more than 50% of the rule is being rescinded). The rule outlines the process for licensure renewal or reinstatement due to a lapsed license. The cost of licensure renewal is \$250 (plus \$3.50 eLicense transaction fee). The cost to renew a lapsed license is \$337.50.

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

Rescind Only:

- 4729:2-2-09: Rescinds the pharmacy intern renewal rule. Provisions in this rule are being incorporated into rule 4729:2-2-04.

No Change:

- 4729-6-03: Provides the criteria for approved providers of continuing pharmacy education for providing volunteer healthcare services. May increase costs for in-state providers of volunteer healthcare services to register with the Board as a CE provider and report program information.
- 4729:1-2-04: Provides the passing scores for the Test of English as a Foreign Language, Internet-based Test. This rule is no change and should not have an adverse impact as it only provides the passing scoring criteria.
- 4729:1-2-05: Provides the requirements for criminal records checks by pharmacists as required by ORC 4729.071 and 4776.02. The cost of a criminal records check (BCI and FBI) is \$61.70 combined.
- 4729:1-2-08: Provides the licensure extensions for active-duty military members and their spouses. The cost of compliance with this rule is the administrative time it takes to submit documentation to the Board. This should take anywhere between 15-30 minutes to complete.

16. Are there any proposed changes to the rules that will reduce a regulatory burden imposed on the business community? Please identify. (*Reductions in regulatory burden*)

may include streamlining reporting processes, simplifying rules to improve readability, eliminating requirements, reducing compliance time or fees, or other related factors).

- 4729-6-02: Provides the criteria for in-state approved providers of pharmacy continuing education. Reduces the amount of time CE providers have to maintain certificates of completion from 5 year to 4 years. Removes old reference that no longer applies. This rule will increase costs for providers of in-state pharmacy jurisprudence continuing education because of the administrative requirements to maintain certain paperwork. **This rule is reducing the burden on providers by shortening the retention time for such paperwork from 5 years to 4 years.**
- 4729:1-5-02: Provides the continuing education requirements for pharmacists. Reduces the number of CE hours due to the passage of HB 509 (134th General Assembly). Also, exempts newly licensed pharmacists from having to complete CE within the first two years of licensure. **The reduction CE hours will result in time and money saved by the pharmacist. Additionally, pharmacists who obtain an initial license will not have to meet CE requirements for the first renewal cycle, which will also save time and money for the pharmacist.**

17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The Board determined that the regulatory intent justifies the impact on business because the regulations protect and promote public safety by ensuring uniform requirements for the licensure and education of pharmacists and pharmacy interns.

Regulatory Flexibility

18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

These rules do not provide any exemptions or alternative means of compliance for small businesses. The law pertaining to pharmacy technicians does not differentiate on the size of the business and therefore the regulation is uniform across Ohio.

19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

The State of Ohio Board of Pharmacy does not fine licensees or impose penalties for first-time paperwork violations. However, any failure of a standard of care in the practice of

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

pharmacy is not considered a paperwork error but a quality assurance issue by the licensee that is necessary for the protection of the public.

20. What resources are available to assist small businesses with compliance of the regulation?

To assist our licensees, including those representing small business, the Board developed inspection guides. These guides align with internal guidance used by Board inspectors and allow licensees to conduct self-inspections to maintain compliance. The guides also include links to the rules, important definitions, and reminders of when a licensee is required to submit notification or additional information to the Board. The guides may be accessed by visiting: www.pharmacy.ohio.gov/inspection

Additionally, the Board has a number of resources on its licensing and continuing education websites to educate our licensees.
