The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIPublicComments@governor.ohio.gov

regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Reason for Submission

1. R.C. 106.03 and 106.031 require agencies, when reviewing a rule, to determine whether the rule has an adverse impact on businesses as defined by R.C. 107.52. If the agency determines that it does, it must complete a business impact analysis and submit the rule for CSI review.

Which adverse impact(s) to businesses has the agency determined the rule(s) create?

The rule(s):

- a. ☒ Requires a license, permit, or any other prior authorization to engage in or operate a line of business.
- b. ☐ Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.
- c. ☒ Requires specific expenditures or the report of information as a condition of compliance.
- d. ☐ Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.

Regulatory Intent

2. Please briefly describe the draft regulation in plain language.

Please include the key provisions of the regulation as well as any proposed amendments.

The Division is proposing several new rules pursuant to O.R.C. 3780; however, they will replace other rules currently in effect under O.R.C. 3796, which were specific to the regulation of the Medical Marijuana Control Program. The new rules apply to both medical and non-medical cannabis.

OAC 1301:18-1-01 DEFINITIONS (Amended)

- The Division is adding definitions related to the rules in this package for church, control, facility visitor, financial interest, ownership, person, prohibited facility, public library, public park, public playground, and school.

OAC 1301:18-3-01 CANNABIS ENTITY DISTANCE FROM PROHIBITED FACILITIES
(New)

- Cannabis facilities must be at least 500 feet away from a prohibited facility, pursuant to O.R.C. 3796 and 3780. The distance is measured linearly and the measurement shall occur at the shortest distance between the property line of the prohibited facility and the physical structure under the control of the cannabis facility.

OAC 1301:18-3-03 OWNERSHIP, FINANCIAL INTEREST, CONTROL (New)

- This rule provides that no person may own, control, or have financial interest in more than one cultivator, more than one processor, more than one testing lab, or more than eight dispensaries.

OAC 1301:18-3-04 DISCLOSURE OF OWNERSHIP, FINANCIAL INTEREST, CONTROL (New)

- Prior to the issuance of a provisional license and the issuance or renewal of a certificate of operation, each applicant or licensee must submit records to the Division regarding their ownership, control, and financial interest.

OAC 1301:18-3-05 NOTICE OF INTENT (New)

- This rule requires a licensee to notify the Division prior to entering into any agreement that would make certain modifications that must be reported to the Division.

OAC 1301:18-3-06 CHANGE OF OWNERSHIP (New)

- A licensee must obtain prior approval from the Division before modifying its ownership, provided modifications involving less than ten per cent of the ownership in a licensee do not require prior approval.

OAC 1301:18-3-07 CHANGE OF ENTITY NAME OR REGISTERED TRADE NAME (New)

- A licensee must obtain prior approval from the Division before modifying its entity name or registered trade name.

OAC 1301:18-3-08 FINANCIAL RESPONSIBILITY (New)

- The rule establishes the evidence of financial responsibility required by the Division. This is initially a bond or escrow in the amount of \$750,000 for level I cultivators, \$75,000 for level II cultivators, \$250,000 for processors, testing laboratories \$75,000, and dispensaries \$50,000. Licensees may request to reduce their bond or escrow in increments over a few years of the rule requirements to do so are met and may ultimately be able to cancel the bond or escrow account.

OAC 1301:18-3-11 FACILITY VISITORS (New)

- This rule requires that visitors to a facility who are going to access areas other than the public retail floor be signed in on a visitor log and escorted in those non-public areas by an employee.

OAC 1301:18-3-12 WASTE DISPOSAL (New)

- This rule sets out the requirements of disposing cannabis waste, including that it be rendered unusable, as well as how it must be tracked in the state's seed-to-sale tracking system.

OAC 1301:18-8-01 DISPENSARY CERTIFICATE OF OPERATION (New)

- This rule lays out the permissible activities of a dispensary with a certificate of operation.

OAC 1301:18-8-02 OPERATING PROCEDURES AND QUALITY ASSURANCE (New)

- Dispensaries are required to establish, maintain, and comply with written policies and procedures for the daily operation and distribution of cannabis. Any major modifications must be submitted to the Division for review and approval. Dispensaries must establish areas in the facility that are compartmentalized based upon function, which at a minimum include the designated retail space and the secure limited access area. The rule also establishes permissible hours of operation, points of sale requirements, and standards for drive-through windows and curbside pick-up.

OAC 1301:18-8-03 DISPENSARY DESIGNATED RESPONSIBLE PARTY (New)

- Dispensaries must designate between 1-3 responsible parties. At least one of the designated responsible parties must be on the premises at least 20 hours per week.

OAC 1301:18-8-05 MINIMUM SECURITY AND SURVEILLANCE REQUIREMENTS (New)

- Each dispensary must establish, maintain, and comply with written policies and procedures that ensure adequate security, surveillance, and control of the licensed premises that prevent diversion, theft, or loss and meet the minimum requirements outlined under this rule.

The Division is also proposing to rescind several of the current medical marijuana rules under Chapter 3796 which the new rules under Chapter 1301 in this package will replace. Those include 3796 rules regarding waste disposal, financial responsibility, dispensary designated representatives, dispensary surveillance, and dispensary change of ownership.

3. Please list the Ohio statute(s) that authorize the agency, board or commission to adopt the rule(s) and the statute(s) that amplify that authority.

Authorized By: R.C. 3780.03, 3780.20

Amplifies: R.C. 3780.03, 3780.07, 3780.15, 3780.20

4. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

If yes, please briefly explain the source and substance of the federal requirement.

No

5. If the regulation implements a federal requirement, but includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

n/a

6. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

In November 2023, Ohio voters approved a citizen-initiated statute to legalize the use, possession, and sale of non-medical cannabis. The statute charges the Division of Cannabis Control with adopting rules to regulate the non-medical cannabis market.

The rules proposed in this package aim to ensure that the ownership of licensed cannabis facilities is in compliance with program expectations and limits on the number of licensees an individual or entity can own or control. The rules also establish financial responsibility requirements, which are substantially the same as what is currently required of medical marijuana licensees.

Waste disposal is addressed in these rules, ensuring that cannabis waste is disposed of safely and rendered unusable.

The rules address who can enter a dispensary and ensure that only individuals over the age of 21 are allowed access to a facility (with the exception of medical marijuana patients).

The rules also address dispensary operating procedures, quality assurance, security, and surveillance. The public purpose for all of these regulations is to prevent theft or other potential security concerns coming into the facility, and to prevent diversion of product out of the facility. Additionally, the rules aim to ensure that individuals under 21 years of age do not access a dispensary and are not sold non-medical cannabis.

7. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

The success of the regulations will be measured by compliance and the prevention of theft, diversion, sales to ineligible consumers, or other security concerns.

8. Are any of the proposed rules contained in this rule package being submitted pursuant to R.C. 101.352, 101.353, 106.032, 121.93, or 121.931?

If yes, please specify the rule number(s), the specific R.C. section requiring this submission, and a detailed explanation.

No

Development of the Regulation

9. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

All current medical marijuana licensees were included. Additionally, the proposed rules were posted on the Division's public website.

10. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

The Division has received feedback from current medical marijuana licensees on many of these topics over the past few years. Many of these rules are updated versions of the

regulations in place currently under the Medical Marijuana Control Program, with the industry feedback incorporated where appropriate.

For example, stakeholders have requested the ability to manage their dispensary floorplans where appropriate, improvements to the curbside pick-up and drive-through window regulations, expanded hours of operation, additional designated responsible parties, and ownership threshold updates, among other improvements that the Division has incorporated in these proposed rules.

Following early stakeholder outreach, the Division updated the proposed rules to allow photographs/videos of secure limited access areas in limited circumstances. Additionally, the Division modified the drive-through window language to ensure that a drive-through area is acceptable if the dispensary has express written consent of the property owner.

11. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Other state cannabis markets and regulations were studied and identified best practices were used to help develop these rules.

12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?
Alternative regulations may include performance-based regulations, which define the required outcome, but do not dictate the process the regulated stakeholders must use to comply.

The Division is establishing standard-based, performance-based regulations, with the goal of allowing businesses the flexibility in how they meet the Division's standards set in the rules.

13. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The initiated statute approved by voters in O.R.C. 3780 places sole regulatory authority over the non-medical cannabis industry with the Division of Cannabis Control.

Of the areas of potential overlap, the Division has authority over ownership rules and reviews, but will coordinate with the Department of Taxation on any necessary tax reviews. Additionally, the Division has worked to eliminate requirements that have caused concern in the past from a building code perspective.

14. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

All licensees must comply with the Division's rules. The Division regularly issues industry guidance documents to communicate rule requirements and how to maintain compliance, emails those updates out to licensees, and posts them on the Division's website.

Adverse Impact to Business

15. Provide a summary of the estimated cost of compliance with the rule(s). Specifically, please do the following:

- a. Identify the scope of the impacted business community, and**
- b. Quantify and identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance, etc.).**

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a representative business. Please include the source for your information/estimated impact.

The impacted business community includes currently licensed medical marijuana entities who, pursuant to the initiated statute, are the first businesses eligible to operate in the non-medical market, as well as any other businesses who may become licensed in the future.

The rules require an application and fee to request approval of a change of ownership. The application fee is not established in this rule and the fee rule for non-medical cannabis has not yet been proposed; however, the fee under the medical program rules for cultivators, processors, and testing labs is \$1,000 and \$5,000 for dispensaries. There's also an application required for licensees changing their legal entity name or tradename; however, there is no associated fee.

Licensees also must notify the Division prior to entering into any agreement that would modify its ownership or officers and board members. There's no fee associated with this notice of intent.

The rules establish a financial responsibility requirement for all licensees. This is initially a bond or escrow in the amount of \$750,000 for Level I cultivators, \$75,000 for Level II cultivators, \$250,000 for processors, testing laboratories \$75,000, and dispensaries \$50,000. Licensees may request to reduce their bond or escrow in increments over a few years of the rule requirements to do so are met and may ultimately be able to cancel the bond or escrow account.

The rules require dispensaries to adopt standard operating procedures to prevent diversion, theft, and loss. Any major modifications made to those procedures requires the dispensary to request approval from the Division. Additionally, dispensaries must notify the Division of any long-term changes in their hours of operation or a change to their designated responsible parties. There's no application fee for those notifications.

Dispensaries are required to meet the Division's standards for security and surveillance, which include, at a minimum, things like an alarm system with point of entry alarms, motion detectors, and silent alarm, and a video surveillance system which must be accessible remotely in real time by the Division and all video must be stored for at least 45 days. The cost of these systems can vary depending on the size of the facility, and the vendor, software, and equipment the licensee has chosen.

16. Are there any proposed changes to the rules that will reduce a regulatory burden imposed on the business community? Please identify. (*Reductions in regulatory burden may include streamlining reporting processes, simplifying rules to improve readability, eliminating requirements, reducing compliance time or fees, or other related factors*).

The rules proposed here are new pursuant to O.R.C. 3780; however, they will replace the rules adopted under O.R.C. 3796, which were specific to the regulation of the Medical Marijuana Control Program. The new rules apply to both medical and non-medical cannabis.

There are some major regulatory burdens that were part of the 3796 rules that are eliminated in these rules. Mainly, the new rules aim to set the standards which licensees must meet, and things like mantraps and “secured delivery bays” are no longer specifically required in these rules.

The Division has also proposed to increase the ownership threshold for all licensees to 10%. This means that any ownership changes under 10% in the aggregate do not need to be submitted on the change of ownership application for approval from the Division. Rather those minor changes require a notice of intent be submitted.

The Division has also proposed expanding the acceptable hours of operation from ending at 9:00pm to ending at 11:00pm.

Regarding waste destruction, the Division made some updates to what is considered cannabis waste and what is not, which will save licensees some time and resources when completing waste destruction.

17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The adverse impacts created by the proposed rules mostly include the report of information or certain expenditures. All of the rules associated with these impacts seek to balance fair regulations for business while protecting public health and safety.

Regulatory Flexibility

18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

The amount of financial responsibility that must be obtained is relative to the license type and size. For example, Level I cultivators must obtain financial responsibility in the amount of \$750,000, while Level II cultivators must have \$75,000.

Otherwise, these rules are largely focused on public health and safety, and the requirements that must be met to ensure that priority are intended to create a level playing field for all licensees.

19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

The DCC works diligently to ensure that all licensees understand all applications, forms, and compliance requirements. The Division does not fine licensees for simple paperwork violations, but does work with licensees who encounter challenges to ensure they have the information necessary to comply with all laws and rules.

20. What resources are available to assist small businesses with compliance of the regulation?

The DCC regularly issues guidance to licensees and posts those documents and other helpful information on its website: www.com.ohio.gov/cannabiscontrol. Additionally, the DCC has a team of inspectors who work closely with all licensees to ensure they are able to achieve and maintain compliance with program regulations.
