The Common Sense Initiative is established in R.C. 107.61 to eliminate excessive and duplicative rules and regulations that stand in the way of job creation. Under the Common Sense Initiative, agencies must balance the critical objectives of regulations that have an adverse impact on business with the costs of compliance by the regulated parties. Agencies should promote transparency, responsiveness, predictability, and flexibility while developing regulations that are fair and easy to follow. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

- b.

 Imposes a criminal penalty, a civil penalty, or another sanction, or creates a cause of action for failure to comply with its terms.
- c. Requires specific expenditures or the report of information as a condition of compliance.
- d.
 ☐ Is likely to directly reduce the revenue or increase the expenses of the lines of business to which it will apply or applies.

Development of the Regulation

9. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

DCY engaged the Public Children Services Association of Ohio (PCSAO) and their rule review committee in the rule drafting process. DCY met with the PCSAO committee on February 6, 2025, March 13, 2025, April 3, 2025 and May 16th to incorporate their suggestions on the draft language.

Additionally, DCY met with the Ohio Children's Alliance on April 17, 2025, May 22, 2025, and June 17, 2025 to present the draft rules and receive feedback.

DCY also solicited feedback on the rules during the clearance process on July 14, 2025, through July 28, 2025.

10. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

DCY met with PCSA and OCA on multiple occasions; their feedback was taken back and changes to rule language were made due to their feedback.

The feedback and suggestions received from the clearance process were incorporated into the rule drafts and included the removal of neighborhood associations in the community engagement plans for residential facilities, changing of CRCs to residential facilities, further defining mandatory placement reviews for children placed in residential facilities, and the removal of incorrect rule citations. Revisions were also made to the form DCY 01442 "Educational Information for Children Placed in Residential Facilities" to require the court appointed or current educational decision maker's information be added to the form.

11. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Not applicable.

12. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives? Alternative regulations may include performance-based regulations, which define the

required outcome, but do not dictate the process the regulated stakeholders must use to comply.

There are no alternative regulations considered for rules 5180: 2-9-07, 5180: 2-9-34, 5180: 2-9-37, 5180: 2-9-38, 5180:3-13-65,5180:3-13-65.2, 5180:3-13-66, 5180:3-13-66.1, and 5180:3-13-90 because the rules are driven by statute.

13. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The rules were reviewed by DCY legal staff and policy developers prior to the clearance process to ensure there was no duplication of existing Ohio regulations.

14. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

When the rules are final filed, a transmittal letter will be generated providing guidance to agencies. In addition, DCY licensing specialists and technical assistance specialist review agencies to ensure the rules are applied consistently and technical assistance is offered in areas of inconsistency.

Adverse Impact to Business

15. Provide a summary of the estimated cost of compliance with the rule(s). Specifically, please do the following:

a. Identify the scope of the impacted business community, and

The rules of the Administrative Code in Chapter 5180:3-13 contain requirements for children in custody and placed into substitute care by public and private agencies. The rules of the Administrative Code in Chapter 5180: 2-9 contain requirements for residential facilities and residential facility staff that include, eighty-eight public and over one hundred private agencies. Requirements must be met in order to obtain and/or maintain licensure.

b. Quantify and identify the nature of all adverse impact (e.g., fees, fines, employer time for compliance, etc.).

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a representative business. Please include the source for your information/estimated impact.

The adverse impact would vary based upon the size and staffing of each residential facility and would include the actual cost of completing each requirement, in addition to the time needed for staff to complete the requirement and report or enter the needed information for rule compliance in meeting the requirement. Additionally, there is time spent completing the DCY 01700, documenting activities in child's case record, responding to contact from hospitals and law enforcement, and coordinating child's health care.

16. Are there any proposed changes to the rules that will <u>reduce</u> a regulatory burden imposed on the business community? Please identify. (Reductions in regulatory burden may include streamlining reporting processes, simplifying rules to improve readability, eliminating requirements, reducing compliance time or fees, or other related factors).

N/A

17. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

To align OAC with the enactment of H.B 315 of the 135th General Assembly. The adverse impact of the rule is necessary.

Regulatory Flexibility

18. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

There are no exemptions, and no alternative means of compliance for rules 5180 2-9-07, 5180: 2-9-34, 5180: 2-9-37, 5180: 2-9-38, 5180:3-13-65, 5180:3-13-65.2, 5180:3-13-66, 5180:3-13-66.1, or 5180:3-13-90.

19. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

N/A

20. What resources are available to assist small businesses with compliance of the regulation?
