

Common Sense Initiative

Mike DeWine, Governor
Jon Husted, Lt. Governor

Sean McCullough, Director

MEMORANDUM

TO: Michael Lynch, Ohio Department of Job and Family Services

FROM: Jacob Ritzenthaler, Regulatory Policy Advocate

DATE: July 23, 2021

RE: **CSI Review – Family Child Care Licensing #1 (OAC 5101:2-13-11, 5101:2-13-12, 5101:2-13-13, 5101:2-13-16 through 5101:2-13-21, 5101:2-13-23, and 5101:2-13-24)**

On behalf of Lt. Governor Jon Husted, and pursuant to the authority granted to the Common Sense Initiative (CSI) office under Ohio Revised Code (ORC) section 107.54, the CSI Office has reviewed the abovementioned administrative rule package and associated Business Impact Analysis (BIA). This memo represents the CSI Office's comments to the Department as provided for in ORC 107.54.

Analysis

This rule package consists of 11 amended rules proposed by the Ohio Department of Job and Family Services (ODJFS) as part of the statutory five-year review process. This rule package was submitted to the CSI Office on June 25, 2021, and the public comment period was held open through July 2, 2021. Unless otherwise noted below, this recommendation reflects the version of the proposed rules filed with the CSI Office on June 25, 2021.

Ohio Administrative Code (OAC) Chapter 5101:2-13 establishes licensing requirements for licensed family child care homes. OAC 5101:2-13-11 sets requirements for child care center indoor and outdoor spaces, including square footage per child, outdoor play equipment, and fall zones. The rule is amended to update requirements for traffic barriers and sandboxes and to remove language related to wading pools. OAC 5101:2-13-12 lists precautions for equipment and environments, including maintaining furniture and appliances safely, preventing access to weapons or harmful drugs, and ensuring pets in the home are not a threat to children. The rule features minor language revisions. OAC 5101:2-13-13 concerns sanitary equipment and environments and

CSIOhio@governor.ohio.gov

is amended to clarify requirements for trash storage, toothbrush handling, and hand washing facilities. OAC 5101:2-13-16 requires providers to have plans for medical, dental, and disaster emergencies, first aid kits, emergency lockdown drills, and communicable disease prevention. The rule is amended to remove unnecessary revision dates, require annual training for disaster plans and child medical records to travel with a child being transported for medical emergency, and clarify serious incident criteria. OAC 5101:2-13-17 sets requirements for child care center programming, which includes daily schedules and activities, and materials and equipment, such as play equipment and furniture. OAC 5101:2-13-18 and 5101:2-13-19 concern child group sizes and supervision and are amended to clarify the use of Ohio's automated child care system and reporting requirements for when a child is expelled for behavioral issues. OAC 5101:2-13-20 and 5101:2-13-21 establish requirements for napping and overnight care and are amended to specify that the sleep position waiver is valid for one year, remove duplicative requirements, and make other clarifying edits. OAC 5101:2-13-23 concerns infant daily care, including monitored activities, feeding, and diapering. The rule is amended to require activity time outside of a crib and non-latex gloves if gloves are used during diapering, and to remove unnecessary requirements. OAC 5101:2-12-24 sets requirements for swimming and water safety and is amended to make clarifying edits.

During early stakeholder outreach, the proposed rules were discussed during meetings of the Child Care Advisory Council and made available during a public clearance period. Stakeholder suggestions were implemented in the rule regarding reporting child expulsion. No stakeholder comments were received during the CSI public comment period.

The business community impacted by these rules includes approximately 270 Type A and 2,034 Type B family child care providers currently operating in Ohio. The adverse impacts created by the rules include the cost of maintaining a layout that complies with space requirements, obtaining necessary materials and equipment, and ensuring staffing meets child ratios. These costs, for items like bedding or play equipment, vary depending on the size and child population of the provider. ODJFS states that the rules are necessary to ensure the safety of children and to meet the requirements for providers who supply publicly funded child care.

Recommendations

Based on the information above, the CSI Office has no recommendations on this rule package.

Conclusion

The CSI Office concludes that the Department should proceed in filing the proposed rules with the

Joint Committee on Agency Rule Review
