The Ohio State Board of Cosmetology (Board) received your memorandum on May 3, 2013, in which you requested editing changes to paragraph (D) of proposed rules 4713-8-03 through 4713-8-07. You also requested that proposed rule 4713-8-09 list the words "device," "equipment," "chemical," and "product" in a consistent manner.

The Board is submitting a revised rule package to the CSI for Chapter 4713-8 in the format requested to demonstrate that the Board has complied with the recommendations of the CSI Office.

Thank you for your comprehensive review and comments.
