The Board received your memorandum on June 18, 2013, in which you requested the BIA be revised to reflect the correct fees charged to licensees. While Section 4713.10 of the Revised Code sets specific amounts for licensing fees, Section 4713.11 of the Revised Code, also enacted in 2003, allows the Board to increase the fees with the consent of the Controlling Board.

In May of 2006, the Board requested that the fees be increased. The request included an increase for the first application for a license for a salon to seventy-five dollars from the sixty dollars set forth in Section 4713.10, and an increase in the fee for renewing the salon license to sixty dollars. There has been no change in the licensing fees since the Controlling Board approved the increase in 2006.

As requested, the BIA is being resubmitted with the addition of a sentence explaining the discrepancy between the current fee charge and the fees set forth in Section 4613.10.

Thank you for your comprehensive review and comments.
