

MEMORANDUM OF RESPONSE

To: Paula Steele, Regulatory Policy Advocate

From: Mandi Payton, Rules Coordinator

Date: June 23, 2015

Memorandum of Response to CSI Review – CSI Review OAC Chapter 3745-21 – Carbon Monoxide, Photochemically Reactive Materials, Hydrocarbons, and Related Materials Standards (OAC 3745-21-01, 3745-21-03, 3745-21-04, 3745-21-06 to 3745-21-09, Appendix A and Appendix B, 3745-21-10
Subject: Appendix A through Appendix C, and 3745-21-12 to 3745-21-29)

Recommendations

On June 23, 2015, Ohio EPA received the Recommendations for the Division of Air Pollution Control's OAC Chapter 3745-21 – Carbon Monoxide, Photochemically Reactive Materials, Hydrocarbons, and Related Materials Standards (OAC Chapter 3745-21) Rules.

The CSI memorandum stated that:

“Upon review of the proposed rules, revised BIAs, revised Response to Comments, and follow-up discussions with the OEPA, the CSI Office has determined that the rules satisfactorily meet the standards espoused by the CSI Office, and the purpose of the rules is justified.

For the reasons discussed above, the CSI Office does not have any recommendations for this rule package.

Based on the above comments, the CSI Office concludes that the Ohio Environmental Protection Agency should proceed with the formal filing of this rule package with the Joint Committee on Agency Rule Review.”

Next Steps

At this time, it is Ohio EPA's plan to move forward with the original filing of these rules with the Joint Committee on Agency Rule Review.
