

2/08/2018

The following information is being provided pursuant to the requirements of Executive Order 2011-01K and Senate Bill 2 of the 129th General Assembly, which require state agencies, including the State of Ohio Board of Pharmacy, to draft rules in collaboration with stakeholders, assess and justify an adverse impact on the business community (as defined by S.B. 2), and provide an opportunity for the affected public to provide input on the following rules.

Amended

- 4729:3-3-04 – Establishes the activities certified pharmacy technicians may perform. Amended to include stocking automated drug dispensing units and adds certain requirements for verbal refill authorizations
- 4729:3-4-01 – Establishes the Board of Pharmacy’s authority to impose disciplinary actions on a pharmacy technician trainee, registered pharmacy technician or certified pharmacy technician. Amended to harmonize with existing disciplinary rules for interns and pharmacists as established in administrative code.
- 4729:3-4-02 – Establishes the requirements for a pharmacy technician trainee, registered pharmacy technician or certified pharmacy technician to report a violation to the Board of Pharmacy. Amended to not require errors in dispensing to be reported to the board and to harmonize with duty to report sections for pharmacists and interns.

Comments on the proposed rules will be accepted until close of business on **March 1, 2018**. Please send all comments to the following email address:

The Common Sense Initiative

Business Impact Analysis

Agency Name: State of Ohio Board of Pharmacy

Regulation/Package Title: Pharmacy Technicians

Rule Number(s):

- 4729:3-3-04
- 4729:3-4-01
- 4729:3-4-02

Date: 2/08/2018

Rule Type:

New

5-Year Review

Amended

Rescinded

The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent

1. Please briefly describe the draft regulation in plain language.

Amended

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIOhio@governor.ohio.gov

- 4729:3-3-04 – Establishes the activities certified pharmacy technicians may perform. Amended to include stocking automated drug dispensing units and adds certain requirements for verbal refill authorizations
- 4729:3-4-01 – Establishes the Board of Pharmacy’s authority to impose disciplinary actions on a pharmacy technician trainee, registered pharmacy technician or certified pharmacy technician. Amended to harmonize with existing disciplinary rules for interns and pharmacists as established in administrative code.
- 4729:3-4-02 – Establishes the requirements for a pharmacy technician trainee, registered pharmacy technician or certified pharmacy technician to report a violation to the Board of Pharmacy. Amended to not require errors in dispensing to be reported to the board and to harmonize with duty to report sections for pharmacists and interns.

2. Please list the Ohio statute authorizing the Agency to adopt this regulation.

The proposed rules are authorized by sections 4729.26, 4729.10 and 4729.94 of the Ohio Revised Code.

3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

These rules do not implement a federal requirement.

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

This rule package exceeds federal requirements because the regulation of the practice of pharmacy has traditionally been done at the state level by legislatively created state boards of pharmacy. The regulation of the pharmacy practice includes valid requirements for licensure and practice as a pharmacy technician trainee, registered pharmacy technician, or certified pharmacy technician.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

Section 4729.26 of the Ohio Revised Code authorizes the Board of Pharmacy to adopt rules governing the practice of pharmacy and distribution of dangerous drugs.

Section 4729.94 of the Ohio Revised Code requires the Board of Pharmacy to adopt rules governing registration of registered pharmacy technicians, certified pharmacy technicians, and pharmacy technician trainees.

Section 4729.10 of the Ohio Revised Code authorizes the Board of Pharmacy to adopt rules under section 4729.26 of the Revised Code requiring a licensee or registrant to the board a violation of state or federal law, including any rule adopted under this chapter.

6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

The success of the regulations will be measured by having rules written in plain language, licensee compliance with the rules, and minimal questions from licensees regarding the provisions of the rules.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

The rules in this package were reviewed by the Board's Rules Review Committee. The Committee, composed of pharmacists from a number of practice settings, is responsible for reviewing and approving all rules prior to their legislatively mandated five-year review date.

Prior to filing with CSI, the rules were also reviewed and approved by the Board of Pharmacy.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

Stakeholders had some questions regarding the duty to the report rule, which were then clarified via the input process.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

Scientific data was not used to develop or review this rule.

10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

As the regulations are essential to protecting the public's safety by ensuring uniform standards for the regulation and oversight of pharmacy technicians, the State of Ohio Board of Pharmacy did not consider any regulatory alternatives.

11. Did the Agency specifically consider a performance-based regulation? Please explain.

Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.

The agency did not consider a performance-based regulation for this rule package. It is the Board's responsibility to ensure uniform practice standards across Ohio. At this juncture, it was the determination of the Board that the rule package did not lend itself to performance-based regulations.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The Board of Pharmacy's Director of Policy and Communications reviewed the proposed rules to ensure that the regulations do not duplicate another State of Ohio Board of Pharmacy regulation.

13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

The rules will be posted on the Board of Pharmacy's web site, information concerning the rules will be included in materials e-mailed to licensees, and notices will be sent to associations, individuals and groups. Board of Pharmacy staff are also available via phone or email to answer questions regarding implementation of the rules. In addition, the Board's compliance agents are trained to educate licensees on current and/or new regulations during on-site inspections.

Board of Pharmacy staff receive regular updates on rules via a monthly internal newsletter, biannual staff meetings featuring a regulatory update, mandatory all-day law reviews for new employees, email updates and quarterly webinars from the Director of Policy and Communications and feedback from the Board's legal department for every citation submitted.

Adverse Impact to Business

77 SOUTH HIGH STREET | 30TH FLOOR | COLUMBUS, OHIO 43215-6117

CSIOhio@governor.ohio.gov

14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:

a. Identify the scope of the impacted business community;

The rule package impacts the following:

- Pharmacy technician trainees;
- Registered pharmacy technicians;
- Terminal distributors of dangerous drugs; and
- Pharmacists.

b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and

Violation of these rules may result in administrative licensure discipline for a pharmacist, pharmacy technician or terminal distributor of dangerous drugs. Discipline might include reprimand, suspension of a license, monetary fine and/or revocation of a license.

c. Quantify the expected adverse impact from the regulation.

Amended

- 4729:3-3-04 – An employer that engages in sterile and non-sterile compounding will have to provide additional training for certified technicians prior to engaging in non-sterile compounding. The amended rule does add additional administrative costs of compliance to ensure that all prescription refill requests are properly documented by a certified technician and that pharmacists provide security checks of technicians stocking off-site automated dispensing machines.
- 4729:3-4-01 – Violation of this section may result in administrative licensure discipline for a pharmacy technician. Discipline might include reprimand, suspension of a license, monetary fine (\$500) and/or revocation of a license.
- 4729:3-4-02 – This will require notification to the Board if a technician observes a violation specified in the rule. Notification can be performed online and will take approximately 10-20 minutes to complete.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The Board determined that the regulatory intent justifies the impact on business because the regulations protect and promote public safety by ensuring uniform training standards and oversight of pharmacy technicians.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

These rules do not provide any exemptions or alternative means of compliance for small businesses. The law does not differentiate on the size of the business and therefore the regulation is uniform across Ohio.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

The State of Ohio Board of Pharmacy does not fine licensees or impose penalties for first-time paperwork violations. However, any failure of a standard of care in the practice of pharmacy by pharmacists and pharmacy interns is not considered a paperwork error but a quality assurance issue by the licensee that is necessary for the protection of the public.

18. What resources are available to assist small businesses with compliance of the regulation?

Board of Pharmacy staff is available by telephone and e-mail to answer questions. Board staff members also provide presentations to groups and associations who seek updates on current regulations and host regional meetings to discuss changes to Ohio laws and rules. Additionally, staff are trained to educate licensees on compliance with all Board of Pharmacy rules and regulations.

4729:3-3-04 Certified pharmacy technicians.
